

Performance Management

performance

Being busy is not the same as producing results. In today's competitive business world it is more important than ever that companies achieve results.

CWT helps your company develop a comprehensive, fully-integrated performance management system that translates employee performance into organizational success. Our trainers will help you set goals, align internal processes and systems to meet those goals and plan for succession.

Program Topics Include

- Establishing Performance Goals
- Developing Performance Plans
- Communicating Performance Expectations
- Solving Performance Problems
- Recognizing Performance Gaps
- Conducting a Performance Review
- Evaluating & Rewarding Performance
- Achieving Supervisory Excellence
- Delegating for Optimal Performance
- Building Better Teams
- Resolving Team Conflicts
- Negotiating for Team Success
- Leading and Managing Change
