

PCC Career Pathways September 2010 – June 2011

Portland Community College Career Pathways Program connects students to less than one-year educational opportunities for the purpose of gaining employment and continuing education.

- **SHORT-TERM** Most trainings are 3-6 months in length; students are work-ready at the conclusion of the training
- **SCHEDULING** Career Pathways works to schedule courses in block so students come to school at the same location and time of day throughout the training
- **CAREER PLANNING ASSISTANCE** Career Pathways Delivers over 30 hours of career planning instruction and provides job search assistance to students for at least two months following training
- **INTERNSHIPS** When possible, internships allow students an opportunity to put to use the skills they learn in the classroom
