

**Advising Workshops
Electronic Engineering Technology
and its options :**

Biomedical Engineering Technology, Renewable Energy Systems,
Mechatronics, Automation and Robotics, and Wireless and Data Communications

Fall Term 2010

The two-hour workshop will cover general advising, prerequisites,
the day and the evening programs, and assistance with Trade-Act Forms.

Dr. Maniza A. Johnson, the academic adviser for the program, will conduct these
sessions. If you have taken the placement test, please bring a copy of your test scores.
You may bring a copy of your transcript if you have taken college level courses from
an accredited institution.

Advising sessions will be offered on Tuesdays at 2:00 p.m. at the Sylvania campus in
SS 108, beginning October 19th and ending on November 30th.
