How did you learn about this program? \_\_\_\_\_

- Admissions to these programs are limited. Once admitted, a student is expected to successfully complete each term's courses prior to going on to the next term.
- Math and English placement may be demonstrated by appropriate test scores on COMPASS placement tests or by accepted evidence of recent college level transfer courses obtained from official transcripts.
- Qualified applicants not accepted into the program each year (due to enrollment limits) will automatically be placed on a waiting list for the following year. These applicants will be given first consideration among new students for admission.

**I have read and agree to the application and admission policy stated on this application. My statements in this application are true and complete to the best of my knowledge.**
