The Department of Business at Linfield College is the largest department on campus: nearly one-third of Linfield students major in a subject taught by business faculty.

The department shares the college's strong commitment to the liberal arts and the courses and programs reflect this commitment. Students receive a sound education in business with a hands-on emphasis and find a faculty dedicated to preparing them for a career in the business world through the one-on-one attention that is Linfield's hallmark.

Each class in the business curriculum has its own personality due to the variety of faculty interests, perspectives and approaches. In accounting and finance courses, students become skilled at working with numbers and learn the relationships they reveal. In marketing and business policy courses, students learn by examining real company cases and preparing oral and written presentations. Business majors will understand not only how to calculate figures, but how to present them effectively to an audience of peers. Simulations and other computer-assisted learning tools allow for both the practical application of theory and the development of critical thinking skills. Internships allow students to apply their education at Linfield to a practical working environment.

Students may major in Accounting, Business Administration (Marketing or Management concentration), Finance, or International Business.

PCC endeavors to create accurate transfer guides for students; however, requirements may change without notice. Students are responsible for working with PCC advisors and their transfer institution to ensure that their academic plan will meet requirements and timelines.

PCC DEGREE/TRANSFER INFORMATION:

Associate of Arts/Oregon Transfer (AAOT) Degree or Associate of Science/Oregon Transfer Degree-Business (ASOTB) – The courses listed above may be included in the AAOT and the ASOTB degrees. Students who complete either of these degrees and are accepted at Linfield College, will, at a maximum, have to take two Linfield Curriculum courses.

Associate of Science (AS) Degree – The courses listed above may be included in the AS degree. The degree does NOT guarantee that students will be accepted as having completed all lower division comprehensive and General Education requirements for a baccalaureate degree. Student should work with an Academic Advisor to plan for transfer to the school and major of their choice.

Transfer without a PCC Degree – Students may elect to earn credits and transfer to a four-year institution without earning a PCC degree. Please meet with an Academic Advisor for an individualized plan of study.
