

Making a Movie/Slideshow

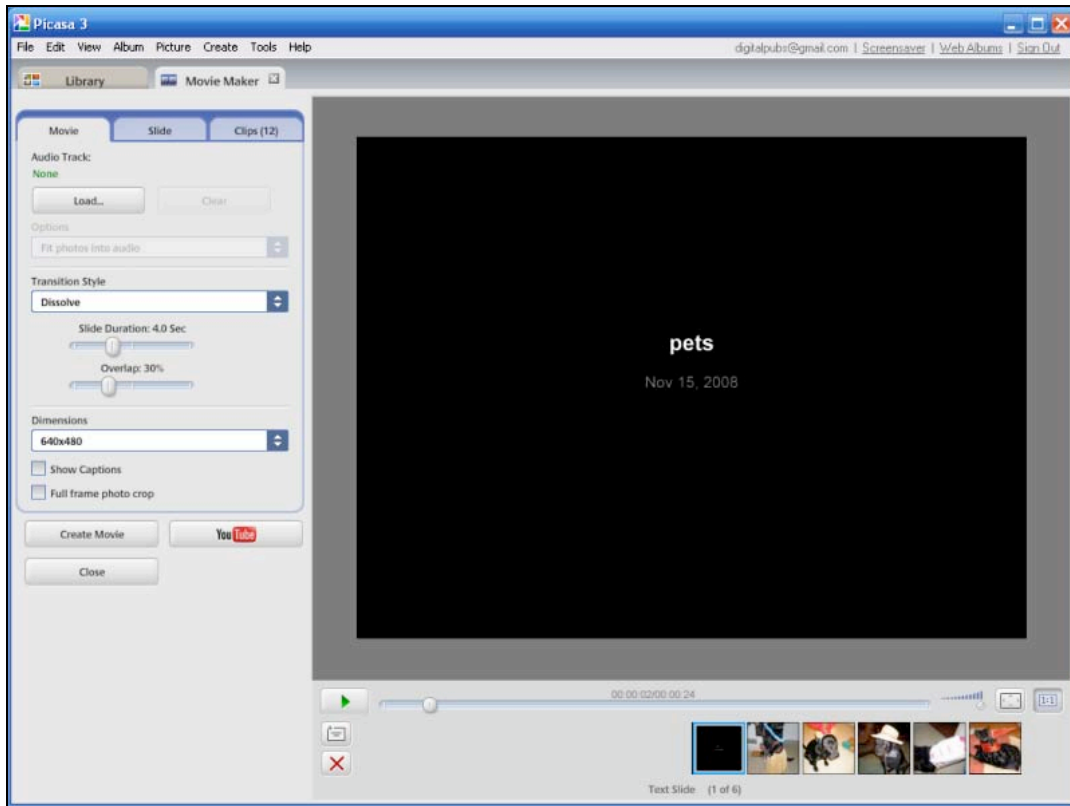

Ctrl click the photos you want in your movie. (Or make a movie out of the whole folder, by clicking the movie button under the Album or Folder name.)

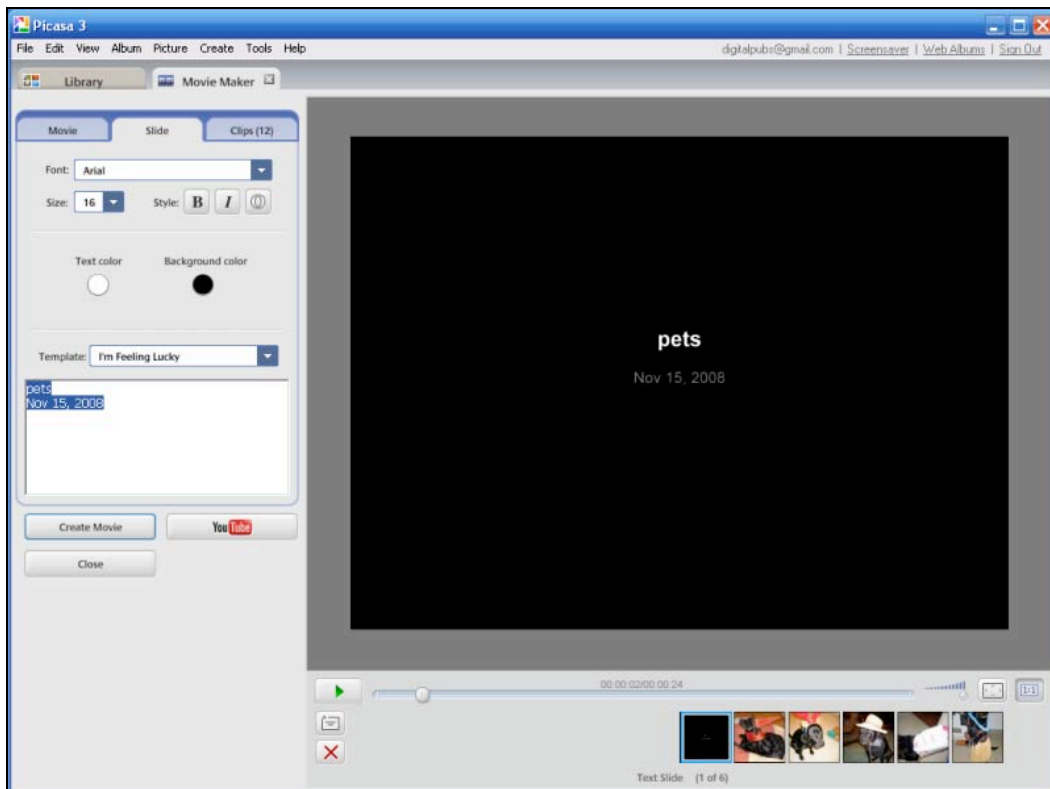

Then click the Movie icon at the bottom of the screen.

This screen appears:

Your movie is automatically named, but you can change it by double clicking on the first frame (at the bottom of the Picasa window.) You can move frames around by click & dragging with your mouse. You can delete frames by right clicking and choosing delete. You can add text frames by right clicking. When you are done editing, click 'Create Movie'.

Back in your Picasa Library, you can right click on the movie, and 'Add to Album'
