Subject Area Committee Name: Interior Design	
SAC Contact's Name: Amanda Davis	*Contact's e-mail:* amanda.davis12@pcc.edu

CTE SACs have the responsibility to assess their degree and certificate outcomes. Outcomes for each degree and certificate can be found here.

In the table below, list each outcome, all the relevant degree(s)/certificate(s), the Core Outcome(s) each maps to, and the schedule for summary data assessment*. If you have questions about how to complete the form, consult the Help Guide to Completing the Multi-Year Assessment Plan or consult with your LAC coach.

We recognize some SACs have more outcomes than can realistically be comprehensively assessed on a two-year cycle. If this is the case for your SAC, contact your LAC coach to develop an alternative assessment cycle

*Summary data is defined as the information relevant to understanding student outcome attainment (e.g., totals, averages, percentages, etc.) for all the degree/certificate outcomes assessed that year. This data can come from various types of assessments (e.g., TSAs, external exams/assessments, internal exams/assessments, and employer assessments).

‡PCC Core Outcomes Codes

Communication (**C**)	Cultural Awareness (**CA**)	Community and Environmental Responsibility (**C&ER**)	Professional Competence (**PC**)	Self Reflection (**SR**)	Critical Thinking and Problem Solving (**CT&PS**)

Multi-Year Plan *The expectation is that most SACs will be able to complete their outcome assessment cycle in two years and then repeat the cycle. If your SAC needs more time, please consult with your coach to work out an alternate plan (4 years probably representing the maximum length), and add more columns for the additional years. (These plans may need to be reviewed and corrected after two years.)*

Outcome (add additional rows if required)	Applicable Degree	Core Outcome Code(s) ‡	TSA*	Every Year	2013-2014	2014-2015
Apply the principles and concepts of color and design throughout the creation of residential client-based projects	AAS Interior Design	CT&PS C				
Produce architecturally accurate drawings by applying correct architectural graphics and drafting standards	AAS Interior Design	PC C	F	F		
Incorporate and articulate appropriate historical perspectives in creating residential projects.	AAS Interior Design	CT&PS SR				
Apply research and evaluation skills in the selection and use of products/ materials including sustainable design applications	AAS Interior Design	C&ER			√	√
Apply building codes and an understanding of the Americans with Disability Act to residential design projects	AAS Interior Design	PC, CA				
Utilize an understanding of professional practice methodology, ethics, selling techniques, and communication/ listening skills	AAS Interior Design	PC				
Apply skills in leadership, negotiation, interpersonal and teamwork communication	AAS Interior Design	C,PC,SR				√

*TSA Column: If this outcome is fully assessed by a TSA, mark 'F' (fully) here. Mark 'P' if a TSA partially assesses this outcome and indicate in the appropriate column when the other aspects of the outcome will be assessed. Leave this cell blank if a TSA is not used with this outcome.

Kitchen and Bath Design Certificate: One Year

Outcome (add additional rows if required)	Certificate	Core Outcome Code(s) ‡	NKBA re-accreditation 2014	TSA very year	2013-2014	2014-2015
Identify aesthetic and spatial requirements for a project, by observation of space and client interview; create design solutions using elements and principles of design.	K & B	CT&PS C	√		√	
Apply universal and accessible design criteria to meet client needs	K & B	CA	√		√	
Incorporate environmental considerations, using knowledge of sustainable building practices and specification of sustainable products, materials and appliances.	K & B	CT&PS SR C&ER	√		√	
Prepare contract documents, using industry standards for written and graphic communication	K & B	C, PC	√	F	√	

Design for Accessibility and Aging in Place Certificate: One Year

Outcome (add additional rows if required)	Certificate	Core Outcome Code(s) ‡	2013-2014	2014-2015
Identify design criteria required for universally-designed residential interiors	DAAP	PC CA		
Consult with other designers, builders and architects on design requirements for interiors that do not discriminate based on ability of clients and users	DAAP	PC CA		

Interior Furnishings Certificate: less than one year

Outcome (add additional rows if required)	Certificate	Core Outcome Code(s) ‡	2013-2014	2014-2015
Source and specify interior furnishings that include furniture, finishes, floor coverings, light fixtures, and window treatments	IF	PC		
Apply skills associated with the sales industry side of the interior design and decorating professions	IF	PC		
Guide interior design and decorating clients in procuring appropriate finishes	IF	PC, C
