

**Credit for Prior Learning Committees Phase 1 Implementation
Recommendation to the EAC
June 2008**

- | | |
|--|--------------------------------------|
| 1. Better web presence and advertising | \$1,200 |
| 2. Better alignment in Catalog—more organized | \$0 (current staff time) |
| 3. Pilot Portfolio in eager departments | \$0 (current staff time) |
| 4. Track CPL usage/outcomes in departments | \$2,500+(currents staff time) |

Additionally:

- **Would like to look at this issue in a broader perspective—how we are serving the changing demographics and needs of our students (they are getting older—and come to us with experience and previous education) and our community (economic downturn—need to skill up the current and emerging workforce to meet employer’s needs).**
- **Would like some consideration given to having the FTE for challenge exams and portfolios go directly to the departments.**
- **Would like consideration of using the faculty special projects rate for current challenge and portfolio examinations.**
