New brochures for suicide attempt survivors, their families and emergency department personnel

In collaboration with SPRC (Suicide Prevention Resource Center), NAMI (formerly known as the National Alliance for the Mentally Ill) has published three new brochures for dissemination in hospital emergency departments.

The first two are geared toward survivors of suicide attempts and their families and are also available in Spanish. The third is geared toward emergency department personnel.

To view these brochures, please click on the links below. You can also find the brochures in the SPRC Online:

<<http://library.sprc.org/>> Library or on our home page
<<http://www.sprc.org/>> .

*** Taking Care of Yourself**
