Request for Quotes (RFQ)
for Public Safety After hours Alarm Response and Monitoring of Blue Phones

Dated: April 23, 2018

Description:

The PCC Public Safety Department is seeking informal competitive quotes for the following scope of work: to provide after-hours response to building alarms as well as monitor incoming telephone calls made from our blue light phones outside of regular college business hours.

It is the College’s intent to enter into a one (1) year agreement beginning July 1, 2018 (or as soon as possible thereafter) and ending June 30, 2019, with an option to renew on an annual basis (at the sole option of the College) for two additional one-year periods, through June 30, 2021. The decision to renew the Contract shall be based upon the satisfaction of the College with Contract performance, the financial advisability of continuing the Contract without re-issuing the solicitation, and subject to the availability of funds. The total term of the contract shall not exceed three (3) years.

Proposers should read the entire RFQ before taking any action. It could be very misleading to review only limited sections of the document.
