MISSION

Portland Community College provides education in an atmosphere that encourages the full realization of each individual’s potential. The College offers students of all ages, races, cultures, economic levels, and previous educational experience opportunities for personal growth and attainment of their goals.

To achieve its mission, Portland Community College offers accessible and affordable education to the residents of its 1500 square mile district and to the residents of its service districts. As a public, comprehensive, post-secondary institution, this multi-campus college offers lower division college transfer programs, occupational and technical programs, basic skill education, and community education programs. Partnerships with business, industry, labor, educational institutions, and public sector agencies provide training opportunities for the local work forces and promote economic development.

Through effective teaching and supportive student services, Portland Community College prepares students for success as individuals, members of a democratic society, and citizens of a rapidly changing world.

VISION

Building futures for our students and communities.

STATEMENT OF VALUES

We believe that certain fundamental values characterize the institution in which we work and guide us in the accomplishment of our mission and goals. As a college community, we value:

- The dignity and worth of each individual
- Effective teaching
- Open and honest communication
- Teamwork and cooperation
- An environment that encourages the expression of original ideas and creative solutions
- Effective and ethical use of public funds

President
Executive Director
THE PRESIDENT'S BUDGET MESSAGE
Introduction

As required by Chapter 294, Sections 294.305 to 294.520 of the Oregon Revised Statutes, and Board Policies B213 and B214 as amended, I hereby present the Adopted Budget of the Portland Community College District for the 2007-2009 Biennium. On April 19, 2007, the Board of Directors of the District, acting as a budget committee, approved the budget and the proposed tax levy for submission to the Multnomah Tax Supervising and Conservation Commission (TSCC). On May 15, 2007, after due notice and public hearing, TSCC approved and certified the District’s budget for the 2007-2009 Biennium. On June 21, 2007, the Board passed the resolution to adopt the budget and authorized the property tax levy for the Biennium Fiscal Years 2007-09 as follows:

Subject to the Education Limit
$0.2828 for the 1st year of the biennium period July 1, 2007 to June 30, 2008

Outside of the Education Limit (for payment of maturing principal and interest on voter approved General Obligation Bonds)
$19,119,182 for the 1st year of the biennium period July 1, 2007 to June 30, 2008

Subject to the Education Limit
$0.2828 for the 2nd year of the biennium period July 1, 2008 to June 30, 2009

Outside of the Education Limit (for payment of maturing principal and interest on voter approved General Obligation Bonds)
$19,880,622 for the 2nd year of the biennium period July 1, 2008 to June 30, 2009

Since its formation in 1961, the College has prepared, submitted, approved and adopted its budget on an annual basis in accordance with the requirement of the Local Budget Law. In 2001, the State Legislature amended the Local Budget Law (ORS 294.305-294.565) allowing municipalities to prepare, approve and adopt a budget for a period of 24 months (a biennial budget). On January 18, 2007 the Board passed Resolution 07-044 amending Board Policies B213 and B214 granting the District President the authority to prepare and submit a budget based on a 24 month period commencing July 1, 2007. This Budget has been prepared for a 24 month period. It balances the College priorities and will continue to meet the College mission of offering accessible and affordable education to the residents of the district. This budget identifies the following focus areas for the 2007-2009 biennium:

- Restore budget cuts to instructional programs and support services that were made over the past few years to address the growing demand for additional classes
- Growth: Provide funds for programs where there is opportunity to increase enrollment and for programs that are FTE - reimbursable
- Provide resources to develop a new bond construction program
- Technology: Keep the college infrastructure (equipment and support) reasonably funded to provide better access to students
- Enhance access and student success
- Keep PCC Programs affordable
After several years of economic challenges, the economy in the State of Oregon has finally rebounded and is looking at a stronger financial future. This puts PCC and higher education in Oregon in its best position in at least the last six years. While the outlook is brighter, we must still continue to make sound budget decisions that support our mission and maximize our utilization of available funds.

The development of this budget took into consideration the long-term financial health of the College. We have proactively managed our financial resources and have adopted budgetary principles that address a variety of College new initiatives, revenue enhancement and the impact of our current actions on the future financial health of the College. This budget continues to adhere to the principles contained in the College Educational Master Plan and the Board values. I have adopted the following budget development principles for this budget process with the help of the Cabinet and the internal Budget Advisory Committee (BAC):

**Principles for Developing the 2007-2009 Biennium Budget**

- We will strive to maintain and improve access and student success.
- We will develop the budget in a way that supports the Core Values of our College.
- We will balance funding restorations with funding new ideas.
- We will prepare a budget that maintains a balanced curriculum between career and technical education (formerly PTE), community education, pre-college education and lower division transfer.
- We will foster the development of civic responsibility and engagement with our community.
- We will balance between instructions, student support services and administrative functions.
- We will examine proposals and ideas carefully to ensure that those ideas we recommend are funded at levels that cover the “full cost” of the idea.
- We will be entrepreneurial and continue to explore alternate resources including, but not limited to, foundation, partnership and grant opportunities.
- What we do we will do well, meaning:
  - strong enrollment
  - appropriate levels of staffing
  - good facilities/infrastructure
  - sufficient marketing
  - continuous improvement including staff development

I have always advocated an open and participatory process to bring greater transparency knowledge and accountability to the budget process and as part of the development of this budget, I have continued to meet and consult with the internal Budget Advisory Committee—its membership includes students, faculty, academic professionals, classified staff and managers, the college District Planning Council, and the President’s Cabinet. These groups, as well as various citizen groups, have continued to provide me with insights, perspectives and ideas concerning budget priorities and have
provided me with advice and suggestions on possible alternative approaches to budget challenges. Last year, I placed priority in restoring faculty positions that were cut in the prior years, added faculty positions in programs and disciplines that could increase student FTE, provided increased funding for student support, and expanded support for diversity-related initiatives.

Based on the prospect of a significant increase in state support, the College started developing proposals for new initiatives in December 2006. I am pleased to report that this budget includes a number of them. Some of the initiatives will restore budget cuts while others create new programs, services and workforce development opportunities at the college. I believe that this Biennium Budget addresses our ever changing needs and opportunities as we seriously explore and consider funding new programs and finding new ways of serving our mission.

**Revenue Projections and Assumptions**

Last December, the Governor proposed a Community College Support Fund (CCSF) of $483 million for allocation through the formula approved by the State Board of Education two years ago. At that level, PCC would get an additional $7.3 to $7.6 million in state support respectively for each year of the biennium. Since the Board met on March 15, 2007, the Co-Chairs of the Ways & Means Committee of the Legislature released a budget that contains only $459 million for the CCSF. However, the adopted budget was based on the Governor's proposal of $483 million as this is still the most solid figure we can use for our budget. If the Co-Chairs' budget were to prevail at the end, we would need to significantly reduce the initiatives that we have augmented in this Budget. State support accounts for 43% of the General Fund operating resources.

On June 28, 2007 the Legislature approved a CCSF budget at $500 million, $17 million more than the assumption made in the budget adopted by the Board on June 21, 2007. The new funding level will increase the District’s share of the CCSF by approximately $5 million or $2.5 million in each year of the biennium. I am committed to work the Cabinet, the Budget Advisory Committee and other staff to determine the strategic priorities of how to deploy these additional funds.

We are projecting flat enrollment (absent new initiatives) for the next 2 years with an average enrollment of approximately 22,800 full-time equivalent (FTE) student counts per year of the biennium period. We have factored small, regular and predictable increases in student tuition that match the pace of inflation. The Adopted Budget includes a tuition fee increase of $1 for the first year of the biennium and $2 for the second year of the biennium. The tuition rate for the first year of the biennium period will be $68 per credit hour and will increase to $70 for the second year of the biennium period. Tuition and fees account for approximately 38% of the General Fund operating resources. The increase in tuition is consistent with the Board’s direction to not radically increase tuition charges to students. With the new initiatives, we expect that enrollment will increase approximately 300 FTE in the first year of the biennium and another 300 FTE for the second.

We are also projecting that property tax revenues will increase by 3.5% each year of the biennium. Property tax revenues account for 15% of the General Fund operating resources. However, this revenue will roll into the total public resources pool which is then re-distributed via the funding allocation formula. We do not expect any change in the current community college funding allocation formula which was adopted in FY 2005-06 by the State Board of Education. We expect the timber tax revenue to go away and not be replaced with State funds, but the impact of this loss to PCC is not material (approximately $40k each year).

This budget does not include any changes to Parking and Technology fees. Discussions are continuing on an increase to the Student Activity Fee of at most $0.10 per credit hour. The Student Activity fee is used to fund various student sponsored programs and activities including child care, student government, intramural activity and the Phi Theta Kappa student scholarship program. In addition, we continue to explore the scope and the funding
needs of the athletic programs at PCC. The Blue Ribbon Panel that I commissioned last summer has made recommendations to me. We have also conducted a student poll. The next step is to consider the recommendations together with the poll results. Within the next few months, I will formulate a proposal for the Board’s consideration.

Hereunder is a brief summary of the major resources:

State Resources: The general state support to community colleges is based primarily on student enrollment. As mentioned earlier, the estimated College’s share of the state support is based on the Governor’s proposed State budget of $483 million for community colleges for the biennium 2007-09. After running through the allocation formula, our share of this is $127.3 million for the biennium, $63.5 million for the first year and $63.8 million for the second.

Additionally, the state provides resources that are restricted to certain programs. These state-supported, program-specific resources are estimated at $13.9 million for the biennium and are budgeted in the Contracts and Grants Fund. Some of the large state-funded contracts and grants include the Public School Dropout Recovery Program and Steps to Success.

Tuition and Fees: Tuition and fee revenue accounts for approximately 38% of the total General Fund operating resources. The total revenue from tuition and fees (absent new initiative impact) is estimated at $99.7 million for the biennium ($49.3 million for FY 2007-08 and $50.6 million for FY 2008-09) and includes an approved increase of $1 beginning July 1, 2007 and $2 for the second year of the biennium beginning July 1, 2008.

Differentiated tuition and fees for self-improvement courses, continuing education units and community education classes are estimated at $15.3 million for the biennium. These revenues are accounted for in the CEU/CED fund and are assessed to pay for the programs and non-credit classes offered under this division. The CEU/CED fund is designated as a self-supporting operation. However, starting July 1, 2007, I have designated $490,000 in the General Fund to support these programs by moving the cost of some of the administrative staff to the General Fund, in recognition of the reimbursable FTE generated by these programs.

Property Taxes: The estimated property tax levy subject to the education limit set by Measure 5 (1990) and Measure 50 (1998) to support ongoing operation for the 2007-2009 biennium is estimated at $45.9 million ($22.6 million in the first year and $23.3 in the second, net of uncollectible taxes and discounts). This amount accounts for approximately 15% of the General Fund operating resources and is calculated based on the college permanent rate of $0.2828 per $1,000 of assessed value subject to tax for each year of the biennium.

PCC also levies property taxes to pay for the maturing principal and interest on voter approved General Obligation bonds and this levy is outside the limit set forth by Measure 5. These taxes are estimated at $36.6 million for the biennium ($17.9 million for the first year and $18.7 million for the second, net of uncollectible taxes and discounts) and average approximately $0.22 per $1,000 of assessed value for each year of the biennium period.

Federal and Other Resources: The College receives federal funds in support of student aid. This fund is budgeted in the Student Financial Aid Fund and is estimated at $53 million for the biennium. Additionally, sponsored program revenue from federal sources, estimated at $41 million is budgeted in the Contracts and Grants Fund. Continuing grants that account for the majority of the federally funded programs include Steps to Success, Dislocated Worker’s program, Vocational Education, Perkins Title I and grants from the Department of Education, National Science Foundation and
the Department of Health and Human Services to fund special education programs. It also includes the Hispanic Head Start program, the low income, first generation migrant, underrepresented student groups and disabled worker’s programs.

Enterprise and Internal Service Operations: The College Bookstore operation is estimated to generate a sales figure of approximately $21.5 million for the biennium with a net profit projected at 3.8% of sales. The Food Services operation is projected to generate a sales figure of about $7.16 million for the biennium with a net profit projected at approximately 0.70% of sales. This is an improvement compared to a net loss of $51,000 in 2006. With no increase in fees, the Parking Operations revenue is estimated at $4.5 million for the biennium and is expected to be at breakeven at the end of the biennium year.

The Print Center, an internal service operation, derives its income mostly from sales of graphic design and copy services to College departments. Revenue from this operation is estimated at $2.2 million for the biennium. Since this is an internal service operation, the charges for services is reviewed annually to eliminate the element of any profit or loss from its operation. It is expected that this operation will be at breakeven at the end of the biennium fiscal year.

The Adopted Budget

The Budget for the 2007-2009 Biennium includes selective restoration of funding for programs and support functions that were reduced or eliminated in the last few years and provides funds for new initiatives that intend to grow our student enrollment gradually over the next 2 years. The augmentation for new initiatives averages $7.0 million in each year of the biennium. In summary, the Budget includes funding of the following new initiatives:

- A total of 17 full time faculty positions is added:
  - Restores one FT faculty position in Computing Information Services (CIS) and two FT faculty positions in English Speakers of Other Languages (ESOL)
  - The creation of 13 new full-time faculty positions in various disciplines
  - A counselor position in the Office of Student with Disabilities Program
- Eight new full-time and nine part-time academic professional positions for student support programs (a total of 14.75 FTE), including restoration of two support staff positions in the student support services
- Five new full-time classified and 2 half-time classified support staff positions
- Six new full-time administrative and 1.5 FTE confidential positions, and
- Approximately 10.18 budgeted full-time equivalent positions in the part-time faculty and casual help pools.

As part of our plan towards maintaining “non-bond funded capital expenditures”, I propose to increase the General Fund contribution to the Capital Projects Fund by $400,000 (from $2.6 million to $3.0 million) to keep our deferred facilities maintenance backlog at a manageable level. The contribution is increased by another $400,000 in the second year of the biennium to $3.4 million. We have also allocated approximately $848,000 in the first year of the biennium for the development and finalization of the plan for a new bond construction program for voters’ approval in 2008. This amount is reduced to $674,000 and that includes $250,000 to cover the cost of the bond election in the second year of the biennium. The budget also includes a one-time allocation of approximately $600,000 to replace the enterprise administrative (Banner) servers.

While the labor agreements with the Faculty and Classified Federations will not expire until 2009, they both contain a wage and benefit re-opener clause for which the collective bargaining will soon commence. Because of this, the budget details do not include salary adjustments for cost of living
and step increases nor changes in benefit coverage. The budget will be updated for this cost after the College and the Federations have reached an agreement on this matter.

While PERS costs continue to be an ongoing challenge, we believe that we have provided, thanks to the selling of pension obligation bonds in 2003, enough resources in the PERS reserve fund to cushion any future impact of rate increases that may be caused by bad market times and/or PERS Board actions. In fact, this budget includes using the reserve fund to buy down the PERS rate by 1.5% each year of the biennium generating a saving in the fringe benefit cost of approximately $1.3 million and $2.3 million respectively for the first and the second year of the biennium.

Construction projects financed by the general obligation bonds approved by District voters in November 2000 have been completed with only close-out procedures to be finished. The College Services Building at Sylvania Campus, the only remaining project in 2006-07, was opened in Fall 2006. As I noted in my earlier comments, the budget includes the first year of a 5-year plan to replenish the capital maintenance budget transfer. We expect to increase this transfer by at least $400,000 per year for each of the next 5 years.

The Comprehensive Budget

The budget contained in this document has been prepared and presented in accordance with the requirements of the Oregon Budget Law. The College operates 18 funds to account for its operations. The General Fund is the primary operating fund of the College that finances the general instructional programs and the services that support these programs. The other funds receive and expend resources in support of their specific programs. The following is a snapshot of the budget for the Biennium Fiscal Year 2007-2009:

### SIGNIFICANT COLLEGE ACCOMPLISHMENTS

PCC continues to maintain its single-minded focus on our Mission. Even in the uncertain times of the past few years, PCC people lead the creation and achievement of bold new ideas and goals. A sampling of these accomplishments includes:

#### Instruction and Student Support Programs

The Art Department at Rock Creek and the Film Department at Sylvania are completing their first film together. The film will be an interview with Eunice Parsons and include a working documentation in her studio. It will be ready during fall term for faculty, the libraries, and PCC TV. (This will be the first in a series of films they plan to create and are breaking new ground with documenting studio work.)

The Automotive Technology Program at Sylvania celebrated the opening of a new training facility in the AM Building. It meets the program’s needs as they provide upgrade training for incumbent workers who are already technicians in the automotive industry and for high school and community college automotive instructors in the region. During the past eight years 6,422 technicians have participated in these technician upgrade classes, generating direct revenue, grants and contracts of $1,250,000.

The Business Department at Rock Creek will be offering the new Retail Management Certificate in conjunction with Career Pathways for the first time in spring term 2007.
The Early Talent Search Grant (ETS/TRiO) program continues to serve over 600 students in the Beaverton and Forest Grove school districts. Program targets first generation/minority college students currently in middle schools and high schools. The funding for the program was successfully reauthorized with a 5-year extension through August 31, 2012. The program met or surpassed all of our performance objectives, including graduation and college enrollment rates for our seniors (90.2% and 80.4% respectively). 61% (45 students) of our college-going seniors chose PCC as their destination. The graduating seniors have cumulatively been awarded over $400K in scholarships since inception of the grant. 98.9% of our middle school students were promoted to the next grade level as were 99.6% of our 9th-11th graders.

College Assistance Migrant Program (CAMP): October 2006 PCC Rock Creek became one of two recipients in the nation to be awarded this Federally Funded Program. This $1.5 million five year grant will provide outreach and recruitment to 45 area High School, GED program students to enter college (43 for PCC and 2 for Colombia Gorge Community College). The CAMP program is designed to assist students who come from migrant or seasonal farm working families to pursue a post-secondary education. It also provides students with both financial assistance and support services, with the goal of preparing them to continue their education at a four-year college or university.

A Simulated Mannequin Lab (SIM Lab) was created in Sylvania to serve Nursing students. The SIM Lab enables students to perform assessments and procedures on a robotic patient who has been programmed by the Nursing faculty to react in various ways. This prepares students to work eventually with living patients in clinical settings. The lab will be used as the first of multiple access points in the District, to be integrated into other Health Professions programs such as those in Dental Sciences, Emergency Medical Technology and Radiography. 92.6% of graduates from the Nursing Program passed the NCLEX for the two year period from October 1, 2004 through September 30, 2006. The first-attempt pass rate was up from 89% from the last 2 year period (03-05). Graduates are required to pass this national exam in order to be licensed by the state.

The Nursing Program housed in Sylvania, in collaboration with the Oregon Health Career Center, completed planning for a new incumbent worker nursing cohort to be launched in July, 2007. This cohort will comprise health care industry workers who have qualified for entry into the nursing program and are being sponsored and supported by their employers in a contract education format. Partners include Kaiser, Oregon State, Tualitin and Willamette Falls Hospitals. In addition, the Program is partnering with Providence Health Systems, the University of Portland and Saturday Academy (PUPS) in a simulation lab on the grounds of Portland Providence Medical Center. This lab provides simulation experiences for PCC nursing students within the context of actual hospital operations.

The newly established Gerontology Department, through a district-wide collaboration with Customized and Workplace Training, created career management workshops for direct care workers in assisted living facilities, funded by grants through the Robert Woods Johnson ($437,000) and Hitachi ($63,000) foundations. Industry partners care facilities, hospitals and other organizations devoted to the development of career pathways in long-term care and assisted living.

The Engineering, Math and Industrial Technology Division at Sylvania has negotiated a two-year extension to the current Raytheon/General Motors contract (April 2007-March 2009). Using GM teaching materials, faculty trains incumbent workers through a combination of hands-on-training and certification. GM provides PCC with a fleet of up to 12 latest model cars for student practice. Contract revenue increased by 23% to $156,900/year as a result of the renegotiation.

The Sylvania Machine Manufacturing Technology Department participated in the Manufacturing 21 Coalition, a statewide network of organizations committed to supporting Oregon’s manufacturing economy through common action and the creation of a manufacturing agenda for the state.
The Medical Laboratory Technology Statewide Distance Learning Program at the Cascade Campus is now in its second year of delivering its curriculum across Oregon. The program has expanded its reach this year by way of collaborative relationships with Lane Community College and Rogue Community College, and through agreements with medical laboratories in Eugene, Grants Pass and Medford. Cascade Campus benefits not only from the increased enrollment generated by these relationships, but also from the use of laboratory space and equipment in these remote locations. The program's capacity was expanded on the basis of an Oregon Bureau of Labor Statistics estimate of 67 statewide job openings for medical lab technicians per year over the next decade. Program administrators hope to add an additional 20 students per year on an ongoing basis, with a goal of eventually doubling the capacity of the existing program, improving career access to medical laboratory technology, especially in rural areas, and creating a measurable response to Oregon workforce needs. Two grants were received in 2006 to support the MLT expansion initiative: The Northwest Health Foundation awarded $40,399; and a $133,000 grant was awarded to Chemeketa Community College to assist in expanding allied health statewide. Cascade Campus is the base for all community college degrees in Oregon for Medical Laboratory Technology.

Cascade Campus’ Criminal Justice Department has designed a new course to meet the needs of current students as well as law enforcement professionals. Hillsboro Police Chief Ron Louie will be the first instructor of CJA 244: Tactical Communication in Critical Incidents. The course, which debuts in Spring Term 2007, focuses on resolving hostile encounters with distraught individuals by bringing the incident to a successful close without the use of deadly force.

PCC Cascade Campus’ Paralegal Department celebrated the grand opening of the new Law Library in Fall 2006. The addition of the 6,000-volume library – valued at approximately $50,000 – makes Cascade Campus the first community college campus in the state to have a law library, and only one of a handful in the nation. As a result, paralegal students will no longer have to leave campus to study at the county law library in downtown Portland. Cascade Campus now joins Lewis and Clark College as the only college campuses in the Portland area with their own law libraries. The library will support the paralegal and related educational programs and will be open for use by the general public. An article about the law library was featured in the November 3 edition of The Oregonian on the front page of the Metro section.

PCC launched the Weekend College at the Cascade Campus for the Spring Term 2007, a pilot program that offered a range of courses to students on weekends. Subject areas to be covered include Multimedia, Biology, Chemistry, Art, History, Economics and Math, among others. The program was promoted at the District level with a comprehensive marketing campaign that included radio and newspaper advertisements, an announcement in the Spring 2007 edition of PCC’s Kaleidoscope, direct e-mails, banners on the Cascade Campus Library and along Killingsworth Street and Albina Avenue, and Weekend College flyers distributed inside copies of the College’s Spring Term credit schedule. This campaign was augmented at the Cascade Campus level by expanded distribution of schedules and flyers, both by a professional courier and by Cascade Campus faculty and staff. If it proves popular, the program – aimed at working people, full-time parents and others who have trouble attending classes during regular hours – could be replicated at the College’s other campuses.

A committee of English for Speakers of Other Languages (ESOL) consisting of faculty department chairs and administrators from each campus is responsible for offering ESOL courses in the eight levels of the newly designed ESOL program. This committee adds and cancels ESOL courses sections using a district-wide approach to respond to student demand. On a policy level, the ESOL Division Deans at each campus and the Dean of Instruction and Student Development for the Extended Learning Campus meet regularly to discuss and problem solve issues that have surfaced as a result of merging the ESL and ENL programs into the ESOL program. This district-wide collaboration has worked very well in maintaining consistency and high quality programming for non-native English speakers across the PCC district.
The Credit programs at the Southeast Center have met the enrollment target since it opened three years ago. Student demand for classes at the Southeast Center continues to grow. We have already outgrown our new facility, especially for evening courses. Enrollment at the Southeast Center has increased by 45% over the last three years.

PCC received a third round of funding in the amount of $3,000,000 for a “Scaling with Quality” proposal from the Bill and Melinda Gates Foundation. These funds will support additional replication of PCC’s Gateway to College program and program enhancements. Through three grants from the Bill & Melinda Gates Foundation, more than $13,000,000 has been awarded to PCC for the national replication of Gateway to College.

PCC’s Alternative programs received a $2,100,875 contract from Portland Public Schools to serve at-risk and high school dropouts ages 16 – 20 through three programs: Gateway to College (high school completion), Youth Empowered to Succeed (GED preparation) and Multicultural Academic Program (educational services for Limited English Proficient youth).

Volunteer Tutoring Program (VLT) of Adult Basic Skills: VLT’s success in using volunteers to supplement the work of paid teachers in English-as-a-second-language (ESL) classes has earned itself a role in a national project funded (National ProLiteracy Award) by The UPS Foundation and ProLiteracy America, the U.S. program of ProLiteracy Worldwide. During the next 18 months, VLT and nine other adult education and literacy programs will share their exemplary experiences to create a national promising practices guide that will help publicly-funded adult education programs recruit, manage, and support volunteers.

In addition, PCC is involved in Oregon Pathways for Adult Basic Skills (OPABS) at the Extended Learning Campus (ELC). The purpose of this project is to build a pipeline for Adult Basic Skills learners to enter postsecondary education, training programs, and high-demand career areas. Three occupational cluster areas have been identified for Oregon:

- Health Services
- Industrial Engineering – Construction
- Hospitality and Tourism

The initiative consists of three components:

- Sequential basic skills courses for different skill levels of learners that includes occupational information
- Career/college readiness course that addresses "soft skills" as well as basic skills
- A process for coordinating with One-Stop Services

A new linked course designed to teach participants how to find and successfully apply for scholarships received high marks from students. The first class was timed to prepare students for Oregon Student Assistance Commission scholarship applications.

Student Learning Centers around the District have undertaken a number of initiatives designed to improve student performance. These Centers have increased the number of instructors who work as volunteers in the Center. Instructors are having direct contact with students outside the classroom, and student feedback has been overwhelmingly positive. Increased contact between students and instructors has been shown to be one of the best strategies for improving student retention and success, and, by extension, for keeping students off of academic alert and probation. In addition to instructors, the Centers have increased the number of paid student tutors, who must obtain the endorsement of an instructor in a given subject before he or she may tutor fellow students.
**Workforce and Economic Development:**

PCC was one of nine institutions nationally to receive a Robert Wood Johnson Foundation grant. PCC’s Customized and Workplace Training staff will work with Assisted Living Facilities in the region to provide work-based learning opportunities to Direct Care workers that may lead to an industry recognized certificate and college credit from the PCC Gerontology program.

Customized and Workplace Training staff in partnership with the local Workforce Investment Board, Portland Development Commission, the Oregon Employment Department and Mt. Hood Community College worked together to bring a large biotech company, Genentech, to our region. The college will provide Work Keys Assessment on specific jobs for Genentech with pre-employment training and customized credit training to individuals to prepare the local workforce for high paying jobs at Genentech.

The Institute for Health Professionals (IHP) engaged in a collaborative E-Learning project with Oregon’s Department of Health Services Agency. The project focuses on Public Health Emergency Preparedness and the best practices for healthcare interpreting. This project will be delivered statewide to teach healthcare professionals and healthcare interpreters about how to use interpreters in interviews and clinic appointments and how to teach healthcare interpreters their Scope of Practice and Code of Ethics. PCC was chosen for this project due to its long standing relationship with the Department of Human Services by providing in-class instruction to public health professionals. The on-site education is now being converted to an E-Learning project as to increase its ability to train health professionals statewide. The project will use a variety of learning modalities including video clips of healthcare interpreting.

Community Education, in partnership with the non-profit Green Empowerment, launched a new series of courses that provide classroom and hands-on training to give students the basic skills required for working on community-based renewable energy projects in developing countries. The groundbreaking series has attracted twenty-five students from the Portland area and beyond.

PCC’s Small Business Development Center, in collaboration with the Food Innovation Center at Oregon State University and New Season’s market, brought an advanced food business training program for startups that lasted 15 weeks. It concluded this winter with a competition where class participants pitched their products to New Seasons. It also provides a seed-money award of $2000 and a guarantee placement of one New Seasons product on the market’s shelves. First place was awarded to Laurel’s Sweet Treats, a gluten free mix company that is already selling 16 items. New Seasons Market is interested in carrying all of their products!

The Skill Center’s Trades Preparation course, TE-9000, was certified by the State of Oregon as a direct-entry pre-apprenticeship program during Fall 2006, meaning that course completers are automatically and immediately qualified to apply for skilled apprenticeships, instead of having to apply during regular application periods (usually twice yearly).

**International Education:**

The International Education Office for the District is housed at the Rock Creek Campus. PCC currently has 425 students from 50 countries (greatest numbers come from Japan, Korea and Viet Nam). Recently, the Office of International Education announced the group of 17 PCC staff from the FT bargaining unit, PT faculty with assignment rights and Management to attend an overseas CIEE International Faculty Development Seminar during the summer of 2007. Returning participants will use their experience to internationalize their curriculum and assist with international grant proposals to expand opportunities for the college. The Summer 2007 Seminar Destinations & Topics are as follows:
An update on the kindergarten through 12th grade (K-12) partnerships with area school districts notes an increase in participation numbers. Early College High School: ECHS with Beaverton School District (BSD) allows students to complete their high school credits and an Associate’s degree or up to two years of college credit through this specialized dual credit program. 142 BSD high school students enrolled this past fall, 80 of which qualify as EOP/Senate Bill 300 students. All ECHS students take classes full-time at RC for 2 years. BSD provides 4 positions (program director, counselor & 2 part time staff) to support this program housed at the RC Campus.

In February 2007, the Beaverton School District signed on to the Portland Teachers Program, joining Portland Public Schools, Portland Community College and the University of Portland in their ongoing effort to recruit people from historically underrepresented communities into the teaching profession. The Beaverton district’s participation will attract new students to the program each year, and will add expanded graduate school and job opportunities for program participants. Implemented in late 1989 as a response to the critical shortage of culturally and ethnically diverse teachers, the program has graduated 100 teachers, most of who continue to teach in Portland schools. Several have also become principals and vice principals.

The Albina-Killingsworth Safe Neighborhood Commission, a collaboration between Cascade Campus, the PCC Public Safety Department, Jefferson High School, the Portland Police Bureau, TriMet, the North Portland branch of the Multnomah County Library, area businesses and other local groups began meeting in December 2006, to address the problem of criminal activity in the area surrounding the Campus and to improve the area’s general livability. The group meets monthly, and works on common goals that require the neighbors to work closely together. The Commission’s activities – including graffiti removal and the installation of “smart” surveillance cameras along North Killingsworth Street – will help cultivate a more welcoming atmosphere, and thus increase student retention and enrollment.

CAPITAL Center High School Technology Institute (CCHS): Approximately 55 students have enrolled in this option, primarily from Beaverton and some from the Hillsboro School District. This program can lead to post-secondary educational opportunities at community colleges and four-year institutions as well as career opportunities in industry. It is designed to give students a solid background in the academic area of study, career exploration, employability skills, job shadows and structured work experience.

PSU leases an office and classrooms at the Rock Creek Campus to offer upper level courses so area residents may complete a bachelor’s degree. This partnership yielded 88 students pursuing a bachelor’s in Liberal Arts through five upper level course offerings in both the fall and winter terms.
Also, in Summer 06, Sylvania opened its new University Center, hosting its first OUS partner, PSU, as a regular associate in advising students in their next steps after completing their work at PCC.

For 2006-2007, Columbia County residents wanting to attend classes at the PCC Rock Creek campus were given the opportunity to via the creation of a new shuttle route partly financed through an intergovernmental agreement between PCC and the Columbia County Commissioners. At least 25 regular riders now take advantage of this service to attend classes at the Rock Creek Campus. PCC plans to continue this experiment for another year.

On September 29, 2006 a dedication ceremony was held with PCC Rock Creek and five Caterpillar dealerships to provide education and training needed for a career as a CAT Dealer Service Technician for 24 students. This partnership allows PCC Rock Creek to train students from the five Pacific NW states of Oregon, Washington, Montana, Idaho and Alaska as Caterpillar technicians to help fill the industry labor shortage. It integrates the CAT curriculum and dealer internships, to furnish students with a well-rounded knowledge of Caterpillar equipment and their high-tech systems, along with the PCC general education core courses to provide the program graduate with a two year Associate of Applied Science degree. As part of our ThinkBIG partnership, the five participating Caterpillar Dealerships donated $150,000 towards the initial program start-up. On top of this, each dealership will donate $3,000 per student to the PCC Foundation to help off-set the overall program costs (total this year of $75,000).

A partnership between Cascade Campus and Ferguson Plumbing Supply to offer customized certificates of completion resulted in the awarding of the first two Employment Skills Training Certificates, or ESTs, in February 2007 at Ferguson's annual meeting of its Shared Accounting Center. Ferguson covered all the costs of education, including tuition and fees, as well as books and parking. In addition, successful certificate completers received a $500 bonus from Ferguson.

Service Learning is a way to enrich course curriculum while emphasizing Civic engagement. It is also a way to bridge the transition from classroom to real life experience. All campuses at PCC have engaged with the college community’s employers to encourage participation of students. These programs have been very successful. Hundreds of students complete thousands of hours of service learning projects under faculty members. PCC will continue to engage the employers in the community to enrich the students’ educational experience at PCC.

Sustainability

The Sustainability Center is created by the District in 2005 and is housed at the Rock Creek Campus. The Center co-locates with the Environmental Science Center (Rock Creek Campus wetlands and woodlands preserve for student study), Landscape Design Program, Veterinary Technology Assistant Program (the only one in Oregon) and the Building Construction Trades Program. Major events include:

- Receipt of a NSF grant during Spring 2006 to create the Learning Garden. Over the summer the garden produced over 140 lbs of vegetables for the Oregon Food Bank and also introduced the children in the Rock Creek Child Care Center to basic gardening techniques.
- Partnering with Washington County to apply for DEQ (Dept Environmental Quality) grant to develop a comprehensive waste reduction system.
- Connecting PCC with free resources to help meet regional goals – waste reduction, commute alternatives & energy conservation.
Grants Activities:

PCC’s innovative Gateway to College program, which assists high school dropouts in getting both a high school diploma and an associate’s degree, received a third round of funding from the Bill & Melinda Gates Foundation. The Foundation awarded $3 million to replicate Gateway to College in three more community colleges across the country, for a total of 20 replication sites, and to continue to improve student outcomes by replicating model enhancements. This award follows two earlier grants by the foundation, bringing the total amount received for this project to more than $13 million.

Rock Creek’s Student Development Division is offering a new College Assistance Migrant Program (CAMP) designed to meet the needs of migrant and seasonal farm workers. The Division received a five-year $1,388,622 grant from the US Department of Education to implement the program which provides academic, student and financial support to migrant and seasonal farm workers and migrant education students pursuing a college degree.

The Rock Creek Campus received a $1,032,000 grant from the US Department of Education TRiO Talent Search program to assist 600 low-income and potential first-generation college students in the Beaverton and Forest Grove School Districts to graduate from high school and succeed in post-secondary programs.

The Extended Learning and Sylvania Campuses are collaborating to respond to our community’s need for well-trained direct care workers in long-term healthcare settings. PCC received $436,697 from the Robert Wood Johnson Foundation and $65,698 from the Hitachi Foundation to enhance skill and career development for unlicensed, non-certified direct care workers in assisted living facilities. This program is implementing standardized work-based training specifically geared toward these workers.

The Extended Learning Campus is providing family literacy services for mothers who are incarcerated at the Coffee Creek correctional facility and their young children. The Oregon Department of Education awarded PCC a $240,000 Even Start grant to support this program.

PCC was awarded a Ford Foundation grant of approximately $100,000 to create a campus environment where controversial topics can be discussed in an atmosphere of open academic inquiry with respect for diverse people and perspectives. With the Ford Foundation’s support, PCC is developing new curriculum and coursework opportunities, facilitating campus dialogues, offering faculty development, and extending our exciting interactive theater-based Illumination Project to additional campuses and other colleges and universities. The Illumination Project also received a grant of $2,000 from the Equity Foundation to support its 2006-07 theater season.

PCC is collaborating with partners from education and industry to meet the growing demand for a workforce that understands, adopts, and supports sustainability practices related to built environments. PCC received a $70,000 grant from the National Science Foundation to support strategic planning of a regional training center focused on sustainability education for technicians.

PCC’s Distance Education program received a $20,000 grant from the Oregon Community Colleges and Workforce Development Department to address the demand for and challenges of delivering science labs outside of the traditional classroom environment. With the support of grant funding, PCC hosted the Expanding Access to Science Education (EASE) Conference – Providing Support to Faculty in the Development of Learning Science Labs, featuring national leaders in the field and attended by 80 science faculty and administrators from Oregon community colleges.
PCC also received a series of small grants in various areas:

1. Sylvania’s Early Education and Family Studies Department and the PCC Foundation received $18,000 in grant funds from the Oregon Community Foundation to provide scholarships to PCC students pursuing a credential in early childhood education.
2. The Cascade Festival of African Films received grant support from the Regional Arts and Culture Council ($5,000) and the Oregon Council for the Humanities ($5,000). Grant funds provided travel funds and stipends for top African and African-American film directors to present their work at the 2007 Film Festival.
3. PCC’s Service Learning program was recognized as an exemplary national program and received a $5,000 grant from the American Association of Community Colleges’ Horizons Service-Learning Mentors program. One PCC’s Service Learning Partnership Coordinator was one of four individuals selected through a national competition to serve as a service-learning mentor to colleges implementing new service-learning programs.
4. Rock Creek received an $8,645 grant from US Bancorp to help Spanish-speaking single parents and displaced homemakers who reside in Washington County to develop job-readiness skills, explore careers and make an educational and career plan leading to financial self-sufficiency.
5. PCC Sylvania hosted the first PCC Science Expo, a state at-large high school science fair with the support of a $7,500 grant from the Intel Foundation. Winners compete at the Northwest Science Expo to be held as part of the Intel International Science and Engineering Fair.

Other areas:

As reported in the budget message last year, the $11 million partnership project with the Tualatin Hill Park & Recreation District (THPRD) broke ground June 29, 2006 and will be ready for use by Fall 2007. This unique partnership is one in which PCC furnishes THPRD with a long term lease of 32 acres at its Rock Creek Campus on which to build six tennis courts, four baseball fields, two large artificial turf practice fields, almost 300 parking spaces, a play area, a concession stand and a walking trail surrounding the beautifully landscaped complex. PCC will have use of all facilities during the weekday 8:00 am – 5:00 pm timeframe for credit and non-credit courses and THPRD will use the facilities in the evenings and weekends. Future plans involve building a large gymnasium and swimming complex.

PCC shuttle ridership continued to increase after a 35.3% increase last biennium despite flat enrollment. This demonstrates that alternative transportation continues to play an increasingly important role for PCC students in support of their educational goals. In addition, this improvement aligns well with College’s new adopted board policy on sustainability.

The College continued its emergency and business continuity planning activities, with a few table top exercises to test our readiness. The fruitful feedback from these exercises allows the College to understand what areas need to be improved in the planning efforts. In addition, the College has initiated the pandemic planning process so that it could eventually be incorporated as part of the business continuity plan.

Despite unfavorable economic times and turbulent college funding environment for the past six years, PCC was recently awarded its sixth consecutive Distinguished Budget Presentation Award by the Government Finance Officers Association (GFOA). In addition, for fifteen years in a row, PCC has been awarded the Excellence in Financial Reporting for its Comprehensive Annual Financial Report by the GFOA. The College prides itself in maintaining full disclosure of its budget and audited financial information and in being a good steward of public funds.
Completed construction and renovation work for the 2000 Bond program of over $166 million. The College Services Building on the Sylvania Campus, the last major building of the program, went on line in Fall 2006. The College only has the close out procedures to finish. The Minority Women Emerging Small Business (MWESB) participation of this program has been a phenomenal success. About $14.5 million of the construction and renovation contracts were awarded to MWESB contractors. These efforts have made PCC the leader in MWESB contracting in the State.

Significant improvement has been made to the College’s portal, MyPCC, so that the service interruptions in the first week of each term have been minimized. Registrations and other enrollment related activities could go on much more smoothly and students could get these administrative tasks out of the way so that they could focus on the course work sooner.

Electronic delivery of paycheck stubs for those employees who elected to have their funds direct-deposited to their bank has been successfully implemented. It saved the postage cost of $15,000 a year. In addition, the electronic W-2 forms are now available in MyPCC. Starting 2007, employees can now elect to not receive a mail copy of the W-2 form. If enough employees participate, PCC could save a few thousand dollars more in postage a year.

**BUDGETING, ACCOUNTING AND FINANCIAL REPORTING METHOD**

The basis of accounting used for purposes of financial reporting in accordance with generally accepted accounting principles (GAAP) is not the same basis used in preparing the budget document. The timing of revenue and expenditures may be different under the GAAP basis of accounting than under the budgetary basis of accounting. For example, in GAAP accounting, revenues are recognized when earned regardless of receipt of cash whereas revenue recognition under the budgetary basis of accounting may be deferred until amounts are actually received in cash.

For accounting and entity-wide financial reporting purposes, the college utilizes the GAAP basis of accounting. Under this method, revenues are recognized in the accounting period in which they are earned and become measurable and expenses are recognized in the period incurred. Also, under this method, receipt of long-term debt proceeds, capital outlays and debt service principal payments are not reported in operations but rather are classified as “other financing sources” and “other financing uses” and are reported as liabilities and assets respectively on the balance sheet. Likewise, depreciation and amortization are recorded as expenses.

For budgetary purposes, the term “basis of accounting” describes the timing of recognition when the effects of transactions or events are recognized. For example, property taxes are recognized as revenues in the years for which they are levied, and grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the grantor have been met. Also under the budgetary basis, long-term debt proceeds are reported as revenues while debt service payments and capital outlays are reported as expenditures. Depreciation and amortization are not recognized as expenditures under the budgetary basis of accounting.

Various transfers occur between the different funds of the College. Transfers to the General Fund are generally to reimburse the fund for costs incurred in providing support services to programs accounted for in the other funds. For example, Contracts and Grants, College Bookstores and Parking Operations reimburse the General Fund for various services provided to those operations. Transfers from the General Fund are for specific purposes required by contract or management decisions.
ACKNOWLEDGMENTS

Finally, I would like to thank the Board of Directors for their continued support, leadership, and focus on doing “what is right” so that the College can continue to provide a strong learning environment for the citizens of the district. I also want to extend my gratitude to the members of the District Planning Council, the BAC, to all faculty and classified employees, and to the management team, for their dedication, commitment and professionalism, especially to those who have put a considerable amount of time, energy, and patience into the development of this budget. With the College mission and priorities in mind, they have extended their unconditional support, cooperation and suggestions, and have resolved difficult questions that inevitably arise whenever the College must deal with budgeting constraints.

Dr. Preston Pulliams

Comparative General Fund Expenditures By Category
Fiscal Years 2005 to 2009

FY2005 Actual: 80.67% Personal Services, 14.31% Materials & Services, 0.04% Capital Outlay, 0.1% Fund Transfers
FY2006 Actual: 79.78% Personal Services, 15.57% Materials & Services, 0.53% Capital Outlay, 0.12% Fund Transfers
FY2007 Adopted: 80.46% Personal Services, 15.25% Materials & Services, 0.89% Capital Outlay, 0.3% Fund Transfers
Biennium 2007-2009: 78.84% Personal Services, 16.38% Materials & Services, 1.07% Capital Outlay, 3.71% Fund Transfers
Auxiliary Sale Revenues per FTE
(Adjusted for inflation based on Portland CPI; 2005 is the base)

Note: Auxiliary Services are not available in campuses/centers during all hours of operation; therefore, correlation between sales revenues and total student/staff FTE is not absolute. The projected decrease in Bookstore Revenues in 2007 was a result of providing for the effect of the 3 to 4 hours credit conversion that is due for implemented in the fall term 2006.
10-Year Student Headcount and Total FTE Trends

2006-07 Headcount = 86,164
% Change:
9 yr = 0.3 %
5 yr = -18.3 %
1 yr = -2.4 %

2006-07 FTE = 23,011
% Change:
9 yr = +18.0 %
5 yr = -9.4 %
1 yr = 0.9 %

% Change are based on the following comparisons: 9yr = 97-98 to 06-07, 5yr = 01-02 to 06-07, 1yr = 05-06 to 06-07

Timing of significant state funding decline and revised/restricted definition of "reimbursable" courses

College headcounts are unduplicated and do not equal to the sum of campus headcounts.
Campus 6 is included in College totals.

Data Source: http://www.pcc.edu/ir/reports/annual.htm, Office of Institutional Effectiveness, September 2007, lm:FTEEnrollment10yrGraphs0607
College FTE reached a record high in 2002-03. Since that time, FTE has declined in all areas; the least decrease occurred in Lower Division Transfer FTE.

% Change
02-03 to 06-07 = -11.7%
04-05 to 06-07 = -1.7%
05-06 to 06-07 = 0.9%

*Includes 1,023 non-reimb FTE (out of state = 507, non-reimb courses = 516). In comparison, 2005-06 non-reimb FTE = 966 (out of state = 409, courses = 557).

College FTE by Program Area

% Change
02-03 to 06-07 | 04-05 to 06-07 | 05-06 to 06-07
Lower Division Transfer | -2.4% | -0.4% | 1.6%
Career Technical | -14.1% | -3.3% | -0.4%
All Others Combined | -37.1% | -20.0% | 0.2%

Since College FTE includes campus codes 6 and K, these figures do not equal the sum of SY, RC, CA, and ELC FTE. Data from 2005-06 and forward reflect post-audit FTE.

Prepared by PCC Office of IE, Sept 2007, lm:AFTEGraphsAllPCC0607.doc
Lower Division Transfer, Career Technical and Developmental Education FTE remain below 2002-03 levels. Recent FTE increases are attributed ESL.

(1) District population for fiscal year 2006-07 and per capita income for fiscal years 2006-07 and 2005-06 are not available at the present time. District population includes all of Washington and Columbia Counties and parts of Multnomah, Clackamas and Yamhill Counties.

(2) FTE represents Full Time Equivalency enrollment. This FTE includes reimbursable and non-reimbursable FTE.
SYLVANIA CAMPUS:
Located at 12000 S.W. 49th Avenue, Portland, Oregon in suburban southwest Portland between Lake Oswego, Tigard and Portland, Sylvania is the largest campus, serving approximately 24,000 students annually. The following instructional programs are exclusively provided at Sylvania Campus:

Allied Health  Graphic Design
Architectural Design, AUTOCAD and Drafting  Machine Manufacturing Technology
Automotive Services  Nursing
Building Inspection Technology  Dental Programs
Early Education & Family Studies  Most Languages
Electronic Engineering Technology  Real Estates
Foods and Nutrition  Sign Language Studies
Interior Design  Theatre Arts

CASCADE CAMPUS:
Located at 705 N.E. Killingsworth, Portland, Oregon in an urban setting with easy access to public transportation, the campus serves approximately 9,000 students each year. The campus has become a focal point for rebirth in the neighborhood and it offers the following program unique to the campus:

Alcohol and Drug Counselor  Multimedia
Emergency Medical Technology  Music (Professional)
Emergency Telecom-911 program  Ophthalmic Medical Technician
Electrical Trades  Para-Legal courses
Facilities Maintenance Tech.  Skills Center

ROCK CREEK CAMPUS:
Located at 17705 N.W. Springville Road, Portland, Oregon in a rapidly growing area, is approximately 15 miles west of downtown Portland serving the Beaverton-Hillsboro area of Washington County and serves almost 10,000 students annually. The 256-acre campus provides a beautiful setting for college transfer and professional and technical programs. Programs uniquely in Rock Creeks are:

Aviation Science  Building construction technology
Aviation Maintenance Technology  Horticulture program
Auto Collision Repair  Landscape Technology
Biotechnology  CAT Dealership (Think Big Program)
Chicano Latino Studies  Microelectronics
Diesel Service Technology  Sustainability
Veterinary medicine  Welding Tech

EXTENDED LEARNING CAMPUS:
The 94,000-square-foot Southeast Center at Southeast 82nd Avenue and Division Street opened to students in 2004. The center also serves as headquarters for PCC’s Extended Learning Campus, which offers a wide array of programs throughout the metropolitan areas including:

Workforce training  Community education
High School Completion program (GED)  Continuing education programs
Adult basic education  Management and supervisory development
English as a second language (ESOL)  Center of Business & Industry
Professional Skills

GENERAL FUND

The General Fund is the College’s primary operating fund. It accounts for all major instructional programs and services supporting these programs. Principal sources of revenue are property taxes, tuition, and community college funding from the State of Oregon. For budgetary compliance, expenditures are budgeted by Campuses, the Office of the President and the Administrative Services Division. For reporting purposes, expenditures are further categorized into instruction, instructional support, student support, college support, physical plant and transfers to other funds.

Note:
(a) After the budget was adopted, the State Legislature allocated additional funding to community colleges. PCC's share of the additional funding allocation is estimated at $3.3 million. On October 2005, the Board approved a supplemental budget to include this money in the FY 06 budget. As such, the final allocation from the State for FY 06 is estimated at $54,103,939.

Property Taxes: In fiscal year 2004-05 and for this year only, the State FTE formula distribution was changed whereby community college taxing districts were allowed to retain 100% of the property tax property tax revenues collected within their district. Beginning 2006, this revenue is added to the State formula funding allocation (see subsequent note).

State Formula Funding: Beginning 2006, the Community College Revenue Distribution formula adopted by the State Board of Higher Education combines State Funding with 100% of the property taxes collected by community Colleges within their district. For the biennium fiscal year 2007-2009 the College share of the state support revenues is estimated at $127.3 million or approximately 44.53% of the total General Fund operating revenues.

Tuition: Tuition revenue accounts for approximately 34.93% of the total General Fund operating resources. Tuition is calculated at $68 per credit hour for the 1st year of the biennium period and at $70 per credit hour for the 2nd year of the biennium period. hour over last fiscal year. The estimated revenue is based on a projected average enrollment figure of about 22,800 per biennium period. It includes technology fees estimated at $5.06 million and general lab fees of $2.9 million.

Transfer Revenues: Transfer revenues which totals $6.5 million for the biennium fiscal year are charges to other funds for overhead reimbursement. This revenues accounts for approximately 2.2% of the total resources.

SPECIAL REVENUE FUNDS

The Special Revenue Funds account for revenue sources that are legally restricted to expenditures for specific purposes. Funds included in the Special Revenue Fund category are:

**Auxiliary Fund:**
This fund accounts for a variety of pilot programs and other College sponsored activities which cannot be accounted for in other funds or in the General Fund. Major sources of revenue include facilities usage charges, a variety of campus activities and advertising and subscription revenues from the Bridge newspaper. Major program expenditures include the publication of the Bridge newspaper, management of campus facility rental activities and other College sponsored activities.

**CEU/CED (1900) Fund:**
This fund was established to provide a separate accounting of revenues and expenditures for self-improvement classes and non-traditional credit courses. Programs in this fund are to be self-sufficient. Registration fees and other charges provide the majority of revenue in this fund.

**Contracts and Grants Fund:**
This fund accounts for Federal, State, and Local grants and contracts that fund various training and literary programs, the development and operation of experimental programs, and the improvement and enhancement of existing programs. This fund is dependent on grants and contract awards that will be received during the fiscal year. The major source of revenue is from federal, state, and local contracts and grants.

**Student Activities Fund:**
This fund was established to account for programs and activities related to student functions. The resources for this fund come from student fees and from fund raising activities. Programs under this fund are Child Care, Student Government, intramural activities, other student activities and membership in Phi Theta Kappa National Honor Society.

**Student Financial Aid Fund:**
This fund was established to provide for a separate accounting of student financial assistance. Federal and state student aid programs provide the majority of revenue in this fund.

CAPITAL PROJECT FUNDS

These funds account for the College’s major capital expenditures relating to the acquisition, construction, and remodeling of capital facilities. Revenue sources to finance the expenditures include the sale of General Obligation Bonds and Certificate of Participation Bonds, sale of property and transfers from other funds. Funds included in the Capital Project Fund category are:

**Capital Projects Fund:**
This fund was established to account for expenditures for minor construction projects, remodeling, major maintenance of facilities, and replacement of major equipment. The major source of funding is transfer from the General Fund.

**Capital Construction Fund:**
This fund accounts for all activities relating to major construction projects not accounted for in the Capital Projects Fund. This fund was established in 1992 to account for projects provided for by the voter approved bond authority.

ENTERPRISE FUNDS

These funds account for operations that are financed and operated in a manner similar to private business. Funds in this category are:

**Bookstore Fund:**
The College Bookstore operation provides students and staff with books and instructional supplies needed to carry out their educational programs. The principal source of revenue is from sales of merchandise.

**Food Services Fund:**
This fund accounts for the operation of the cafeterias and related food services. The principal source of revenue is from food sales.

**Parking Operations Fund:**
This fund accounts for the College parking program. Resources are expended for alternative transportation options and maintenance of the parking lots. The major sources of revenue are from parking permits and parking fines.

* Estimated adjustments against Financial Statement Fund Balance

There are differences in the State of Oregon budget law reporting requirements and financial statement presentation requirements for Enterprise and Internal Service Funds. For example, budget law requires all cash outflows to be recorded as expenses, including the acquisition of capital assets and repayment of debt. These transactions are classified as balance sheet additions and liability removals, respectively, for financial statement presentation. Also, depreciation of assets is not recorded for budget purposes but is recognized as an expense for financial statement presentation. This section provides a reconciliation of the fund balance as reported for budget purposes and the fund balance as reported in the audited financial statements.

Also, depreciation of assets is not recorded for budget purposes but is recognized as an expense for financial statement presentation. This section provides a reconciliation of the fund balance as reported for budget purposes and the fund balance as reported in the audited financial statements.
INTERNAL SERVICE FUNDS

These funds account for the financing of goods or services provided by one department to other departments on a cost-reimbursement basis. Funds in this category are:

**Print Center Fund:**
This fund was established to account for the College’s expenses relating to printing and photocopying. The primary source of revenue is from charges for services to the College’s operating funds.

**Internal Service-P.E.R.S./Reserve Fund:**
This was established to centrally manage and account for the additional P.E.R.S. employer rate. The primary source of revenue is from charges to the College’s operating funds on all salaries subject to P.E.R.S. Primary expenditure is a transfer of accumulated charges to the P.E.R.S. Bond Fund.

**Risk Management Fund:**
This fund accounts for the expenses relating to the College’s management of its self-insurance operation which includes property, casualty, unemployment and worker’s compensation insurance. The primary source of revenue is from charges to the College’s operating funds.

* Estimated adjustments against Financial Statement Fund Balance

There are differences in the State of Oregon budget law reporting requirements and financial statement presentation requirements for Enterprise and Internal Service Funds. For example, budget law requires all cash outflows to be recorded as expenses, including the acquisition of capital assets and repayment of debt. These transactions are classified as balance sheet additions and liability removals, respectively, for financial statement presentation. Also, depreciation of assets is not recorded for budget purposes but is recognized as an expense for financial statement presentation. This section provides a reconciliation of the fund balance as reported for budget purposes and the fund balance as reported in the audited financial statements.

**NOTE:** Fund Balance for budget purposes and Fund Balance as reported in the audited financial statement are the same. Therefore, a statement of reconciliation of fund balance is not necessary.
FIDUCIARY FUND

Fiduciary funds account for assets held by the College in a trustee capacity or as an agent on behalf of others. The fund in this category is:

Pension Trust Fund: Early Retirement
This fund was established to account for the accumulation of resources to meet future obligations on the College’s early retirement program. Principal sources of revenue are a transfer from the General Fund and interest earnings from investments.

- **Ending Fund Balance**: 1,186,641, 1,345,830, 1,061,926, 1,509,765, 1,509,765, 1,509,765
DEBT SERVICE FUNDS

The Debt Service Funds account for debt activities relating to the College’s bonded debt obligations. Funds in this category are:

**Debt Service-General Obligation Bond Fund:**
This fund was established to account for the accumulation of resources for the payment of principal and interest on the general obligation bonds. The principal source of revenue is from property taxes.

**Capital Lease/Purchase Fund:**
This fund was established to account for the accumulation of resources for the payment of principal and interest on the non-enterprise portion of the Certificate of Participation Bonds issued in 1992. The primary source of revenue is a transfer from the General Fund.

**P.E.R.S. Debt Service Fund:**
This fund was established to account for the accumulation of resources for the payment of principal and interest on the taxable Bonds issue. The primary source of revenue is a transfer from the Internal Charge-P.E.R.S./Reserve Fund.

APPROVAL OF THE PORTLAND COMMUNITY COLLEGE

PREPARED BY: Odie Sarmiento, Budget Manager

APPROVED BY: Wing-Kit Chung, Vice President of Finance
Randy McEwen, District Vice President
Dr. Preston Pulliams, District President

REPORT: The President has delivered his budget message and the
budget document for the 2007-2009 biennium to the Board
of Directors of Portland Community College District. The
Board, acting as the Budget Committee, has reviewed and
completed the public input process on the Proposed Biennial

RECOMMENDATION: That the Board of Directors, acting as the Budget Committee
of the College, approves the Portland Community College
District Proposed Budget for 2007-2009 Biennium, including
the property tax levies for the next 2 years as outlined below,
for submission to the Multnomah County Tax Supervising
and Conservation Commission.

For the 1st year of the biennium period July 1, 2007 to June
30, 2008:

*Amount Subject to the Education Limitation:*
- General Fund $0.2828* per $1,000 of assessed value
  *constitutionally established by Ballot Measure 50

*Amount Excluded from the Limitation (to repay G.O. Bonds):*
- Debt Service Fund $19,119,182

For the 2nd year of the biennium period July 1, 2008 to June
30, 2009:

*Amount Subject to the Education Limitation:*
- General Fund $0.2828* per $1,000 of assessed value
  *constitutionally established by Ballot Measure 50

*Amount Excluded from the Limitation (to repay G.O. Bonds):*
- Debt Service Fund $19,880,622
07- 073  APPROVAL OF THE PORTLAND COMMUNITY COLLEGE PROPOSED BUDGET FOR THE BIENNium 2007-2009- continued

APPROVED BY THE GOVERNING BOARD OF THE PORTLAND COMMUNITY COLLEGE DISTRICT THIS 19th DAY OF APRIL 2007.

ATTEST:  
Dr. Preston Pulliams  
District President

APPROVED:  
Jaime Lim  
Chair, Board of Directors
07-115

RESOLUTION ADOPTING THE PORTLAND COMMUNITY COLLEGE BUDGET FOR THE 2007-2009 BIENNium COMMENCING JULY 1, 2007, MAKING APPROPRIATIONS AND DETERMINING AND DECLARING AD VALOREM TAX LEVIES

PREPARED BY: Odie Sarmiento, Budget Manager

APPROVED BY: Wing-Kit Chung, Vice President of Finance
Randy McEwen, District Vice President
Dr. Preston Pulliams, District President

REPORT: On April 19, 2007, the Board of Directors of Portland Community College District, acting as the Budget Committee, approved the Biennium 2007-2009 budget.

On May 15, 2007, the Multnomah County Tax Supervising and Conservation Commission (TSCC), after due notice and a public hearing on the budget and by a majority vote of members of the Commission, certified the Biennium 2007-2009 budget with no objection and to be in substantial compliance with the requirement of the Oregon Budget Law.

There were changes made to the budget after TSCC’s certification. The information was not available at the time the budget was approved. These changes are described and listed in Attachment “A” of this resolution.

The budget changes are within the scope and limitation allowed by ORS 294.435 and will not change the property tax levy as approved by the Budget Committee on April 19, 2007.

RECOMMENDATION: That the Board of Directors approve this resolution adopting the budget of the Portland Community College District for the Biennium 2007-2009 commencing July 1, 2007 in the total sum of $624,144,147 for the following funds and appropriations as set forth as follows:
RESOLUTION ADOPTING THE PORTLAND COMMUNITY COLLEGE BUDGET FOR THE 2007-2009 BIENNUM COMMENCING JULY 1, 2007, MAKING APPROPRIATIONS AND DETERMINING AND DECLARING AD VALOREM TAX LEVIES—continued

BE IT RESOLVED that the Board of Directors of the Portland Community College District hereby adopts the budget for the Biennium 2007-2009 in the total amount of $624,144,147.

BE IT FURTHER RESOLVED that the amounts for the fiscal year beginning July 1, 2007 and for the purposes shown below are hereby appropriated.

Note: Unappropriated ending Fund Balance is not an appropriation.
NOW THEREFORE BE IT RESOLVED, that the Board of Directors of the Portland Community College District hereby imposes the taxes provided for in the adopted budget and that these taxes are hereby imposed and categorized for the tax year 2007-2008 and for 2008-2009 upon the assessed value of all taxable property within the Portland Community College District of Clackamas, Columbia, Multnomah, Washington, and Yamhill Counties, of the State of Oregon. The following allocation and categorization, subject to the limit of Section 11b, Article XI of the Oregon Constitution make up the aforementioned levy:

For the 1st year of the Biennium period 2007-2009 beginning July 1, 2007:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Education Limitation</th>
<th>Excluded from Limitation</th>
</tr>
</thead>
<tbody>
<tr>

<td>$0.2828 per $1,000</td>
<td></td>
</tr>
<tr>
<td>DEBT SERVICE FUND</td>
<td></td>
<td>$19,119,182</td>
</tr>
</tbody>
</table>

For the 2nd year of the Biennium period 2007-2009 beginning July 1, 2008:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Education Limitation</th>
<th>Excluded from Limitation</th>
</tr>
</thead>
<tbody>
<tr>
<td>GENERAL FUND</td>
<td>$0.2828 per $1,000</td>
<td></td>
</tr>
<tr>
<td>DEBT SERVICE FUND</td>
<td></td>
<td>$19,880,622</td>
</tr>
</tbody>
</table>

AND, that the President of the Portland Community College District be hereby authorized and directed to file with the County Assessor of each County in which the Portland Community College District is located, a notice of tax levy and a true copy of the budget as finally adopted in accordance with the provisions of ORS 310.060 and ORS 294.555.

*This is a district-wide service.
*District-wide scheduling of pre-college basic skills and direct supervision of these programs for Extended Learning.
OVERVIEW OF PORTLAND COMMUNITY COLLEGE
Portland Community College is the largest institution of higher learning in the state, serving an estimated 1,182,385 residents in a five-county, 1500-square mile area in northwest Oregon. The district includes the state’s largest city, Portland, and the most rapidly growing population areas in the state. The college has three comprehensive campuses which provide lower-division college transfer courses, two-year associate degree programs and professional and technical career training. The Open Campus provides job training, adult education and life-long learning, including welfare-to-work and alternative high school programs. Classes are offered at training centers and approximately 150 other locations throughout the district. PCC enrolls almost 100,000 students and serves more students than any other college in Oregon.

**TYPE OF COLLEGE:** Two-year public institution

**GOVERNANCE:** The College is governed by a seven-member Board of Directors elected by zones for a four-year term. The Board selects the President, approves the hiring of other staff and faculty, approves the college budget and establishes policies which govern the operation of the college.

**CAMPUSES:**

- **CASCADE CAMPUS:** Located at 705 N.E. Killingsworth, Portland, Oregon in an urban setting with easy access to public transportation, the campus serves approximately 9,000 students each year. The campus has become a focal point for rebirth in the neighborhood and many area residents have turned to Cascade Campus for job training, college transfer credit and self-improvement courses. Numerous community services—child care, legal aid, neighborhood associations and job referral services—are located either on the campus or within easy reach.

- **ROCK CREEK CAMPUS:** Located at 17705 N.W. Springville Road, Portland, Oregon in a rapidly growing area, is approximately 15 miles west of downtown Portland serving the Beaverton-Hillsboro area of Washington County and serves almost 10,000 students annually. The 256-acre campus provides a beautiful setting for college transfer and professional and technical programs, including Aviation Science and Maintenance Technology. The campus is a model for successful partnerships with area high schools. The science-technology building, completed in 1995, ensures continuing excellence of laboratory and classroom instruction.

- **SYLVANIA CAMPUS:** Located at 12000 S.W. 49th Avenue, Portland, Oregon in suburban southwest Portland between Lake Oswego, Tigard and Portland, is the largest campus, serving approximately 24,000 students annually. Sylvania is home for the PCC Nursing and Dental Programs, which have national reputations for excellence. Sylvania also provides college transfer, professional and technical programs, and developmental education.

- **EXTENDED LEARNING CAMPUS:** The 94,000-square-foot Southeast Center at Southeast 82nd Avenue and Division Street opened to students in 2004. The center also serves as headquarters for PCC’s Extended Learning Campus, which offers a wide array of workforce training, adult basic education, personal interest and continuing education programs. Located in diverse and growing Southeast Portland, the modern and airy new facility was built with bonds approved by district residents in 2000. The center allows students to complete the first year of a college transfer degree and courses range from art, history and writing to math, business administration, economics and general science. Students can study professional-technical training programs like Computer Applications and Office Systems, Management and Supervisory Development, and Industrial Occupations (trades).

  The Southeast Center also houses the college’s alternative high school program, Gateway to College. English as a Second Language, plus a variety of non-credit courses through the Community Education program. A dance studio, fitness center, ceramics and painting studios and a photography darkroom are available to students.

  The campus is made up of two buildings, Mt. Tabor and Mt. Scott halls, which were designed to bring in natural light using skylights and bays. A great hall with an atrium ceiling banked by a wall of glass windows looks out to a circular plaza. The center’s grounds and facilities utilize sustainable design and existing resources when at all possible. The Southeast Center is home to approximately 11,500 students.
PCC’s Open campus operates in locations throughout the district and provides job training, life-long learning, professional development for managers, literacy education and contracted short-term training for business and industry. More than 55,500 people annually participate in Open Campus programs at about 150 locations.

Central Portland Workforce Training Center: 1626 S.E. Water Avenue, Portland, Oregon. The center is located near the Oregon Museum of Science and Industry (OMSI) building in central eastside Portland. It offers courses in management and professional development, computer training, life enrichment, small business development, English as a second language, senior studies and distance learning.

Washington County Workforce Training Center: 18624 N.W. Walker Road, Beaverton, Oregon. Located in Washington County, the Center provides computer education, customized training for industry, English as a second language, microelectronics, life long learning and welfare-to-work training program.

Portland Metropolitan Workforce Training Center: 5600 N.E. 42nd Avenue, Portland, Oregon. The Center provides customized training for industry, English as a second language, welfare-to-work training program and houses the Northeast Skill Center Program.

Other Sites: PCC also offers small business development and counseling through the Small Business Development Center at Montgomery Park, 2701 N.W. Vaughn Street and the Small Business International Trade Program at One World Trade Center, 121 S.W. Salmon Street in downtown Portland. Other PCC offices are in Newberg at 1505 N.E. Portland Road and in St. Helens at 1510 St. Helens Street.

PORTLAND COMMUNITY COLLEGE
BIENNUM 2007-2009 BUDGET
COLLEGE OVERVIEW-continued

GENDER OF STUDENTS:

- Female: 56.5%
- Male: 43.5%

DEMOGRAPHICS:

- African American: 2,987 (43.2%)
- American Indian/Alaskan Native: 764 (1.1%)
- Asian/Pacific Islander: 6,303 (9.0%)
- Caucasian: 51,877 (73.8%)
- Hispanic: 7,757 (11.0%)
- International: 635 (0.9%)

TUITION AND FEES:

- In-State (1ST Year of Biennium 2007-2008): $69 per credit hour
- In-State (2ND Year of Biennium 2008-2009): $71 per credit hour
- Out-of-State (2005-2006): $200 per credit hour
- Student Activity Fee: $1.30 per credit hour—maximum of 15.00 credit hours
- Technology Fee: $4.50 per credit hour—maximum of 15.00 credit hours

COLLECTIVE BARGAINING AGREEMENTS:

- Full-Time Faculty (Teaching Faculty, Counselors, Librarians, ETS): 2005-2007
- Part-Time Faculty: 2005-2007
- Classified Staff: 2005-2007

PROGRAM AREA DEFINITIONS:

- **Lower Division Transfer**: Courses designated as transferable to most public and private colleges and universities. Courses may be applied to specific program requirements for Associate of Applied Science and Associate of General Studies degrees.

- **Professional Technical** (formerly Vocational Education): Includes courses designated as Vocational Preparatory (concerned with entry-level skills), Vocational Supplementary (concerned with skills upgrading), and Apprenticeship.

- **Developmental Education**: Represents enrollment in Post-secondary Remedial and Self-improvement courses, most of which are offered for credit.

- **Adult Education**: Includes Adult Basic Education (ABE), General Education Development (GED), English as a Second Language (ESL) and Adult High School. Most of these courses are non-credit.

- **Community Education**: Includes Self-improvement courses and courses (comprised largely of hobby and recreational classes) that do not qualify for State FTE reimbursement.

City of Portland Disclosure Information, March 2007
FINANCIAL MANAGEMENT POLICY
BUDGETARY POLICY
DEBT MANAGEMENT POLICY
INVESTMENT POLICY
GOAL: To ensure the integrity of the college financial accounting and budgetary system and records; to prevent the unauthorized use and disposition of the college assets and resources; to ensure compliance with all existing laws, regulations and guidelines governing the accounting and budgetary operations of the college.

OBJECTIVES: To provide a solid and reliable foundation for financial planning and decision making by the Board of Directors, Budget Committee, the President and the college staff.

- The college will maintain an accounting and financial reporting system that conforms to Generally Accepted Accounting Principles (GAAP) adopted by the Government Accounting Standards Board (GASB), the National Association of College and University Business Officers (NACUBO) and the Oregon Local Budget Law.

- The college will issue an audited Comprehensive Annual Financial Report (CAFR) that conforms with GAAP and GASB requirements and the standards and reporting guidelines of the Government Finance Officers Association (GFOA) of the United States and Canada.

- The college will utilize a basis of accounting designed for governmental operations in the General Fund, Special Revenue Funds, Capital Projects Funds and Debt Service Funds.

- The college will utilize a basis of accounting designed for proprietary fund type to account for operations that are financed and operated in a manner similar to a private business enterprise—where the intent is that costs (including depreciation) of providing goods or services on a continuing basis be financed or recovered primarily through fees and charges; or that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

- The college will maintain an adequate cash balance equivalent to the total of the first three months of the fiscal year’s expenditure requirements and shall provide a means to maintain the reserve through short-term borrowing, if necessary, in the event the goal is not achieved at the beginning of each fiscal year.

- The college will provide projections of operating revenues and expenditures, capital expenditures and debt service requirements comprised of the current fiscal year’s projected results of operation and forecasts for the next two to three fiscal years.
GOAL: To present a balanced budget that complies with the requirements of the state budget law; to provide a budget with a financial base sufficient to support high quality and innovative educational programs that are accessible and affordable to the residents of the district. To help the college administrators make informed choices about the provision of educational services and capital assets and to promote stakeholder participation in the process.

OBJECTIVES: To provide incentives to use financial resources wisely, to give responsibility for budget management to cost centers, and to increase flexibility to address changing needs.

- The college will maintain a balanced revenue portfolio including establishing tuition, fees, charges and an indirect costs rate that are sufficient to recover the cost of providing the services.

- The college will maintain an unappropriated balance in the General Fund equivalent to a minimum of 7% of the total operating expenditure requirements for the fiscal year.

- The college will establish a General Fund base budget for each cost center by taking the adopted budget for the current year and adjusting it for all policy level decisions that impact the budget. Policy level decisions are changes that affect the base budget and include, but are not limited to; budget augmentations as a result of granting cost of living increases, contractual salary requirements, changes in benefit costs, and other augmentations authorized by the President and the Board.

- General Fund operating surplus, if any, will be used first to bring the fund balance to a minimum 7% level and any excess will be allocated to enhance instructional programs including allocating resources to finance critical equipment needs and technological infrastructure.

- The college will maintain a contingency account to meet unanticipated requirements that may occur during the budget year.

- The college will maintain and update a multi-year capital maintenance project list. This list will be the basis in budgeting for the annual capital maintenance requirements. The college will also maintain a Capital Projects Fund to account for capital expenditures, including the annual appropriation of resources to finance the capital maintenance requirements. In the event that available resources are not sufficient to fund the annual capital maintenance requirements, projects in the lists will be prioritized based on the following criteria: a) maintenance projects to correct safety and health issues, b) maintenance projects to correct potential liability issues including compliance with the ADA (Americans with Disabilities Act) requirements, and c) energy saving projects.

- The college will seek to maximize the use of one-time resources for those programs and projects that would generate future benefits/savings and will not use them to fund on-going commitments.

- The college will annually review the results of the operations of the Proprietary Funds to ensure that fees and charges are set at the level sufficient to recover the cost of providing the services.

- The college will strive to provide maximum flexibility to cost center managers in budgeting for experimental programs.
GOAL: To ensure compliance with the requirement of the Oregon Revised Statute governing public borrowing and issuance of bonds. To provide sufficient funds to meet current and future debt service requirements on all indebtedness and to ensure full compliance with the terms and conditions outlined in the bond resolution.

OBJECTIVES: To provide the most efficient means of financing the College’s short-term and long-term capital needs and to provide sufficient resources to pay for the College’s obligations when they mature.

1) The College shall issue bonds and other obligations in accordance with the guidelines and limitations set forth in Chapters 287 and 288 of the Oregon Revised Statutes (ORS) and Chapter 170, Divisions 55, 60, 61, 62, 63 and 71 of the Oregon Administrative Rules (OAR).
   a) LIMITATION ON INDEBTEDNESS:
      i) The College’s outstanding debt at anytime shall not exceed 65 percent of the Colleges’ legal debt margin. (The legal debt margin of the College is currently at 1.5% of the total real market value of properties within the assessment district.)
      ii) Obligations issued in anticipation of taxes (TAN) and other revenues (TRAN) shall not exceed 80 percent of the amount budgeted to be received for the fiscal year and shall not be issued prior to the beginning of, and shall mature not later than the end of the fiscal year in which the taxes or other revenues are expected to be received. The College shall follow the Federal laws and regulations governing this type of obligations at all times.
   b) METHOD OF SALE:
      i) The College shall use the competitive bid process when issuing debt obligations, except for section iii provided below.
      ii) The College shall prepare and make available upon request, to bidders and investors, a preliminary official statement containing all relevant information required by Section 287.018.
      iii) The College may use an alternative method such as negotiated sale, private placement or limited public offering if it can be clearly demonstrated that such method may produce the most cost effective results.
      iv) The College shall maintain a debt rating of no lower than A on all its outstanding indebtedness.
      v) The College may obtain a credit enhancement device providing additional security for the payment of all or any portion of the amounts owing on the bonds or for the purpose of funding, in lieu of cash, all or any portion of the debt service reserve. Credit enhancement may be in the form of letter of credit, line of credit, municipal bond insurance or other device or facility used to enhance the creditworthiness or marketability of the obligations.

2) The College shall maintain a debt service fund to account for property tax revenues levied to pay for the maturing principal and interest of general obligation bonds and to establish an adequate fund balance to meet the cash outlay requirements until property tax revenues are received.
   a) FINANCIAL ACCOUNTABILITY:
      i) The College shall establish a debt service fund to account for the revenues and other financing sources for payment of the maturing principal and interest on its outstanding obligations.
      ii) The College shall maintain adequate funds in the debt service account to meet the cash outlay requirement for payment of maturing principal and interest until property tax revenues and revenues from other financing sources are received.
3) General obligation indebtedness shall only be used to finance major capital construction, acquisition and maintenance projects.

   a) **FINANCING PROPOSALS:**
      i) Financing proposals or other extensions of College credit through sale of securities, execution of loans or making of guarantees directly or indirectly, or the lending or pledging of the College credit, shall be referred to the Associate Vice President of Finance who shall be responsible to secure the approvals of the Vice President of Administrative Services and the President.
      ii) The College shall consider seeking voter approval on all general obligation bond issues for major capital improvement projects before considering other financing options.
      iii) The College may consider using certificate of participation bonds to fund capital and other major projects if sufficient revenues are available to pay the obligation in the future. In addition, the College may consider other types of lease arrangements if deemed beneficial to the College.

4) The College shall periodically monitor the changes in interest rates and where feasible and beneficial, refund the existing debt in accordance with the guidelines, procedures and policies of the Office of the State Treasurer.

   a) For advance refunding, a minimum of 3.00% in present value savings shall be achieved before proceeding.
   b) For current refunding, the College shall review on a case-by-case basis the benefits that the refunding in question would generate.

5) The College shall employ professional, technical and legal services to ensure the most cost effective method of selling the bonds. These services may include legal services (bond counsel), financial advisory services and paying agents. The College shall avoid, when appropriate, employing the services of financial advisors who can also be underwriters in order to avoid conflicts of interest and to achieve the best benefits for the College.

6) The College shall secure ratings from Moody's, Standards and Poor's and/or other rating agencies on all sales of indebtedness when it is deemed to be beneficial to the College.

7) Debt service reserves for non-voter approved obligations:

   Indebtedness under this category includes, but is not limited to, certificate of participation (COP) bonds, revenue bonds, limited taxable general obligation bonds, pension obligation bonds and certain long-term lease financing.

   a) Unlike voter approved obligations where the payment for debt service is made through an annual property tax levy, the resources to pay the debt service on non-voter approved obligations come from the general operating resources of the College. It is a good financial practice to set aside a reserve to pay the debt services of these obligations to prevent default in time of financial difficulties.
   b) As a guide, the College shall consider maintaining a debt service reserve equal to 100% of one year’s debt service requirement. This is to allow the College to have more time to implement measures due to contractual obligations. The exact level will be determined on a case by case basis by the President, based on recommendations from the Vice President of Administrative Services and the Associate Vice President of Finance.
   c) Exception—exceptions can be made if the annual debt service payment on the indebtedness is under $250,000 or as directed by the President when such an exception is warranted.
Scope

This Policy applies to activities of PCC with regard to investing all corporate cash. Even if not expressly referenced or cited, this Policy is intended to comply with Oregon Revised Statues, Chapter 294, or other regulations governing Oregon public agencies. Investment of any tax-exempt borrowing proceeds and of any debt service funds will comply with section 148 of the 1986 Tax Reform Act, and related amendments.

The PCC Board adopted the Oregon Public Contract Guideline 125-310-090 under which the College may, without competitive bidding, contract for the purpose of the investment or borrowing of funds when such investment or borrowing is contracted pursuant to duly enacted statute.

Objectives

The primary objectives of investment activities shall be:

1. Preservation of capital - Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective will be to mitigate default risk and interest rate risk.¹

   A. Default Risk - The risk of default may be mitigated by investing in high grade securities, and diversifying the investment portfolio so that potential losses on individual securities will be minimized.

   B. Interest Rate Risk - The risk that the market value of securities in the portfolio will decline due to changes in general interest rates shall be mitigated by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations.

2. Liquidity - Investments shall be undertaken in a manner that seeks to ensure sufficient liquidity to meet all operating requirements which might be reasonably anticipated.

3. Diversification - Investments shall be taken in a manner that seeks to avoid incurring unreasonable and avoidable risks by concentration in specific security types, industries or financial institutions.

4. Yield - The investment office shall strive to maintain a maximum rate of return throughout budgetary and economic cycles given the constraints and spirit of these Guidelines. Performance of the investment portfolio shall be measured against the yield of the 13-week Treasury Bill, and/or the monthly net yield of the Local Government Investment Pool.

¹ The portfolio will assume some risk by allowing investment in non-government obligations. Sovereign and exchange risk are not a factor as the College is prohibited from investing in foreign assets.
Delegation of Authority

The Associate Vice President of Finance shall function as the Investment Officer and shall maintain the right to approve staff members to authorize transactions on behalf of PCC, subject to the investment policies contained herein. The Investment Officer and staff members approved to authorize transactions must be bonded individuals.

PCC will hold the investment officer, staff and PCC officials harmless from personal liability for losses that might occur pursuant to administering investments while acting in accordance with these Investment Guidelines.

Prudence

Funds of the College shall be invested only in eligible investments specified in ORS 294.035, and based on policy approved by the Board of Directors. In choosing among eligible investments, the Investment Officer shall be governed by the “Prudent Investor” rule, which states, “Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the safety of their capital as well as the income to be derived.” The prudent investor rule shall be applied in the context of managing the overall portfolio.

Investment Maturity

Maturity limitations will depend upon whether the funds being invested are considered short-term or long-term. Funds required for current operating expenses will be considered short-term, all other funds will be considered long-term. Investments will be limited to those which, based on PCC’s then-current projected cash requirements, can be held to maturity. Investments shall not be made predicted upon selling the security prior to maturity. However, the Investment Office may adjust the contents of the portfolio based on the available markets and the relative values of competing instruments. Investment maturities for operating funds shall be scheduled to coincide with projected cash flow needs. Unless matched to a specific cash flow, the College will not invest in securities maturing more than three (3) years from the date of purchase. Investment of capital project funds will be timed to meet projected contractor payments.

Monitoring and Adjusting the Portfolio

The Investment Office shall routinely monitor the contents of the portfolio comparing the holdings to the markets, relative values of competing instruments, changes in credit quality, and benchmarks. If there are advantageous transactions, the portfolio may be adjusted accordingly.

Guidelines Review

These Guidelines shall be reviewed and readopted annually by PCC’s Board of Directors to ensure it is updated to reflect any changes from the legislature. Prior to adoption, the Guidelines will be submitted to the Oregon Short-Term Fund Board for comment in accordance with ORS 294.135a.
Accounting Method

PCC shall comply with all required legal provisions and Generally Accepted Accounting Principles (GAAP). The accounting principles are those contained in the pronouncements of authoritative bodies including but not necessarily limited to, the American Institute of Certified Public Accountants (AICPA); the Government Accounting Standards Board (GASB); and the Financial Accounting Standards Board (FASB).

Reports

A quarterly report of outstanding investments will be prepared at the direction of the Associate Vice President of Finance and distributed to the Vice President of Administrative Services.

Total Prohibitions

Purchase of standby commitments, or forward commitments in excess of 14 days (in accordance with ORS 294.145(1)) are specifically prohibited.

Securities not specifically addressed by these Guidelines are prohibited for investment purposes.

Diversification by Security Type and Institution

Authorized U.S. Securities - The following U.S. Government and Federal Agency securities are authorized for purchase (Obtain a periodical update from State Treasury):

<table>
<thead>
<tr>
<th>Investment Instrument</th>
<th>Maximum Percent of Portfolio</th>
</tr>
</thead>
<tbody>
<tr>
<td>U.S. Treasury Obligations</td>
<td>100%</td>
</tr>
<tr>
<td>Securities of U.S. Government Agencies and Instrumentalities</td>
<td>100%</td>
</tr>
<tr>
<td>Bankers' Acceptances and Bank Deposits - Demand deposits, certificates of deposit, or bankers' acceptances issued by approved commercial banks which have obtained a rating of A1 (Standard and Poor's) or A2 (Moody's), or an equivalent rating by any nationally recognized rating agency, must meet the same asset requirements as those discussed under Repurchase Agreements. Bank deposits must be FDIC Insured, and collateralized at 25%.</td>
<td>50%</td>
</tr>
</tbody>
</table>

Exception to the yield objective and asset requirements (discussed under Repurchase Agreements) may be made for deposits in financially sound community banks and savings & loan associations for up to $100,000 if it is deemed by the President to be pertinent to the College's financial and operational interests.
No more than 25% of the total portfolio shall be invested in instruments which represent the liability of a single commercial bank, bank holding company, or savings & loan association.

Corporate Indebtedness  
35%
Commercial paper must be rated A1 by Standard & Poors or P1 by Moody's, or an equivalent rating by any nationally recognized rating agency. Corporate notes, bonds and debentures must be rated AA or better by Standard & Poor’s or Aa or better by Moody’s, or an equivalent rating by any nationally recognized rating agency.

Corporate indebtedness is subject to a valid registration statement on file with the Securities and Exchange Commission (SEC) or issued under the authority of section 3(a)(2) or 3(a)(3) of the Securities Act of 1933 as amended. Corporate indebtedness must be issued by a commercial, industrial or utility business enterprise, or by or on behalf of a financial institution.

Investment in corporate indebtedness shall be limited to a maximum of 5% for one corporate entity.

Repurchase Agreements -  
25%
In accordance with ORS 294.035(11), investments in repurchase agreements must be for no more than seven (7) days and must be at least 102% collateralized by direct U.S. Government or U.S. Government agency securities. Banking institutions from which repurchase agreements are purchased must have holding company assets of at least $5 billion and execute a master repurchase agreement with the College. PCC will not enter into any reverse repurchase agreements.

Regional, State and Municipal Debt Obligations -  
25%
PCC will limit its purchase of debt obligations to municipalities which have obtained a rating of A (Standard and Poor's) or A2 (Moody's) or better on Revenue Bonds, or an equivalent rating by any nationally recognized rating agency, or a BBB+ (Standard and Poor's) or Baa-1 (Moody's) rating or better on General Obligation Bonds or an equivalent rating by any nationally recognized rating agency.

Investment Pools - PCC is allowed to participate in the following pools:

- Local Government Investment Pool (LGIP), up to the legal limit according to ORS 294.810.  
- Oregon Arbitrage and Investment Management Program (OAIM) established by ORS 902.107 & 108, with the consent of the Board.

* Bond proceeds only.
Safekeeping and Collateralization

All securities purchased other than the Pools pursuant to these Guidelines will be held in safekeeping. The purchase and sale of securities will be on a delivery versus payment basis. Securities will be held in the custody of PCC’s relationship banks. The custodian shall issue a safekeeping receipt to PCC listing the specific instrument, rate, maturity and other pertinent information. In the event that a security delivery fails, the primary investment agent shall issue a “due bill” and shall not collect the settlement proceeds until the security is duly delivered in accordance with ORS 294.145(4). Repurchase agreements will be subject to the safekeeping requirements. Demand and time deposits shall be collateralized through the state collateral pool as required by statute for any excess over the amount insured by an agency of the United States government.

ORS 294.145 (11) requires repurchase agreement collateral to be limited in maturity to three years and priced according to percentages prescribed by written policy of the Oregon Investment Council or the Oregon Short-Term-Fund (OSTF) Board. On March 12, 1996, the OSTF Board adopted the following margins:

- US Treasury Securities: 102%
- US Agency Discount and Coupon Securities: 102%
- Mortgage Backed and Other: 103%

Primary Investment Agents

Primary investment agents should be licensed securities dealers and financial institutions who are financially sound and have a good reputation in the community. The Investment Officer shall maintain a list of authorized investment agents and will be responsible for ensuring that all investment agents are presented with a copy of these Guidelines prior to entering into any transaction. On an annual basis, the firms performing investment services shall provide their most recent financial statements or Consolidated Report of Condition (call report) for review. Further, there should be in place, proof as to all the necessary credentials and licenses held by employees of the broker/dealers who will have contact with PCC. PCC shall conduct an annual evaluation of each firm to determine if it should remain on the list. The authorized agent must acknowledge that all investments transactions entered into with PCC will be made in accordance with the Guidelines. Any firm is eligible to make an application to PCC to be added to the list of authorized investment agents, and upon due consideration and approval may be added to the list. If a primary agent does not comply with the Guidelines, they will be removed from the list and will not be considered for future services.

Investment Guidelines Adoption

These Investment Guidelines are adopted by the PCC Board this 21st day of August, 1997.
SCHEDULE OF 5-YEAR CAPITAL IMPROVEMENT AND EQUIPMENT NEEDS

SCHEDULE OF 10-YEAR FACILITIES MAINTENANCE PLAN
CAPITAL IMPROVEMENT AND MAINTENANCE PROGRAM

Buildings, infrastructure, technology, and major equipment are the physical foundation for providing services to the students and to the community. The procurement, construction, and maintenance of capital assets are critical activities, and therefore require careful planning.

Capital planning is critical in providing essential services. Capital facilities and infrastructure are important legacies that serve current and future generations. It is extremely difficult for the college to address the current and long-term needs without a sound multi-year capital plan that clearly identifies capital and major equipment needs, maintenance requirements, funding options and operating budget impacts.

The multi-year capital plan identifies and prioritizes expected needs based on the college strategic plan, establishes project scope and cost, details estimated amounts of funding, and projects future operating and maintenance costs. The plan covers a period of at least 5 years, and the maintenance plan is projected for 10 years.

The capital improvement projects and facilities maintenance plan included in the schedule were developed as a guide in formulating and prioritizing projects that are essential in meeting the long-term facilities needs of the college. Because of limited resources, not all of the capital projects and items in the facilities maintenance plan were funded during the budget year. However, there are items in the list that may not be completed during the year but because of their importance it was included in the lists so that resources can be allocated to these projects when funding becomes available.

Factors considered in developing the comprehensive capital improvement plan:

- Identify present and future needs
  - Capital assets that require repair, maintenance, or replacement to manage higher costs in future years.
  - Capital projects that are in the facility master plan.
  - Infrastructure improvements that needs to support new and existing needs.
  - Capital projects with revenue-generating potential (i.e. parking structure)

- Determine the costs. Cost issues considered:
  - Scope and timing of a planned project/s.
  - For projects beyond 1 year, the cost projection is adjusted based on anticipated inflation.
  - Identify any on-going operating costs associated with each project including source of funding.
  - Provide a clear estimate of all of the major components of the project, including land acquisition needs, design, construction, contingency and post construction costs.
  - Recognize the non-financial impacts of the project.
• Prioritize capital requests: Prioritizing capital project request is a critical step in the development of a capital improvement plan. The following were considered in evaluating the projects:
  ✓ The relationship of project submittals to the facility master plan.
  ✓ Input and participation from major stakeholders.
  ✓ Adherence to legal requirements and/or mandates.
  ✓ Impact on operating budget.

• Develop financing strategies: Financing strategies should align with expected project requirements while sustaining the financial health of the college. The capital financing plan includes but not limited to:
  ✓ Expected revenue and expenditure trends, including the relationship to the multi-year financial plan.
  ✓ Timing of the capital financing.
  ✓ Recognizing the appropriate legal constraints.
  ✓ Reliability and stability of identified funding sources.
  ✓ Affordability of the financing strategy, including the impact on debt ratios and taxpayers.

The 10-year Facilities Maintenance Plan is funded by the General Fund and is included as part of the Physical Plant budget. Capital Equipment and Replacement needs for vehicles and for computer related equipment are funded by the General Fund. Not all of the items listed in the schedule were funded during the budget year however, a complete lists of what was submitted by the departments was included in the lists so that when funds becomes available, they can be considered when determining the allocation of the additional resources. Enterprise operation (Food Services, Bookstore and Parking Operations) provides the fund for their capital improvements. Major capital improvement projects are funded by the Capital Projects Fund.

Continuous Improvement: 2005-06 Strategic Planning
Updates and Revisions

During the 2005-06 academic year, attention was focused on reviewing and updating various components of the College’s Strategic Plan. This year long process resulted in minor revisions to some areas and more significant enhancements to others. The following description of the outcomes of this process is accompanied with corresponding attachments.

Areas of Institutional Focus 2005-07
Background: The original *PCC Educational Master Plan, Strategic Directions and Action Areas*, was developed in 2001-02 and consisted of both strategic and operational strategies. This comprehensive document, referred to as the EMP, contained seven key areas, nineteen strategic directions and sixty-two action areas.

To help the college community prioritize the numerous strategic directions and associated action areas in the EMP, areas for institutional focus were identified the following year which included a planned two year review cycle. This resulted in the *EMP 2003-05 Areas of Institutional Focus* consisting of seven key areas, twelve strategic directions and nineteen action areas.

Implications for 2005-06: An activity report (Attachment A) based on the *2003-05 Areas of Institutional Focus* was used to help identify which areas to include for continued focus in the 2005-07 cycle. Under the leadership of the District President, discussions among the Board of Directors, President’s Cabinet and District Planning Council resulted in the *2005-07 Areas of Institutional Focus* detailed in Attachment B. Three strategic directions and two action areas from the original EMP as well as two new action areas were added to the 2005-07 focus. Discussions also led to the EMP seven key areas being collapsed into four by combining College Workforce, Fiscal Affairs, Technology, and Facilities under the umbrella of “Teaching and Learning Infrastructure.”

PCC Board Mission, Vision, Values and Goals
The PCC Mission, Vision, Values and Goals as defined by the Board of Directors, were also reviewed during the 2005-06 academic year. Input collected from the President’s Cabinet, District Planning Council, Educational Advisory Committee, Deans of Instruction and Deans of Students was shared in draft form as a resource for subsequent Board discussions.
The final document, formally approved by the Board in September 2006 (Attachment C), includes updated terminology yet maintains the overall intent of the original Board mission, vision, values and goals. One formatting modification of note was the regrouping of the eleven goals to six goals by placing General Education, Professional Technical Education, Transfer Preparation, Readiness and Community/Continuing Education under the goal of Student Success.

**Institutional Effectiveness Reporting Cycle and Key Measures**

Background: The Institutional Effectiveness Report, produced annually, was presented to the Board of Directors at a regular Board meeting or Board retreat. The document (Attachment D) included more than eighty measures and was generally sixty-five to seventy or more pages in length.

The comprehensive document was also used internally as a resource for College-level budget and planning discussions. However, data were not collected or tracked by campus and the College trends did not always reflect the unique characteristics of each campus.

Implications for 2005-06: In order to better keep the Board informed on an on-going basis of College progress toward the Board goals, it was decided that reports generated as part of an Institutional Effectiveness Reporting Cycle will replace the Annual Institutional Effectiveness Report beginning in 2006-07. Each report will address one of the six Board goals, with one or two reports presented to the Board each term. In addition, these reports will be available to the internal College community throughout the year. A summary report, prepared at the end of the academic year, will capture the highlights of each report and serve as an introduction to the next year’s reporting cycle.

The eighty plus previously reported measures have been edited into a group of twenty *key measures* (Attachment E). When appropriate, data for these measures will also be collected at the campus-level and available for campus use. Various *supporting measures* will be identified and trended on an as needed basis.

In conclusion, a sample report format (Attachment F) was reviewed and approved by the Board during the summer. The year long review of the College’s Strategic Plan and associated reporting was complete and in place for the 2006-07 academic year.
Key Area: **Educational Programs and Services**

**Strategic Direction 1:** The college will fund and offer a well-defined mix of transfer disciplines and professional technical programs as the core of its educational programs and services.

- **Action Areas**
  - Design and implement educational pathways that offer students multiple avenues to transfer and employment and facilitate student progress toward their educational goals.
  - Strengthen relationships and improve coordination with our strategic partners in K-12 districts and four-year schools to better serve students and ensure that they are well prepared to move from high school to community college and from community college to university.

**Strategic Direction 2:** The college will support programs that teach developmental education and adult basic skills for students who need to prepare for college and/or employment.

- **Action Area**
  - Create stronger links between developmental education and college-level coursework to support student success in next-level transfer and professional technical programs.

**Strategic Direction 3:** The college will provide opportunities for students to acquire knowledge and skills that enable them to be productive, contributing members of an increasingly complex world community.

- **Action Areas**
  - Integrate instruction and assessment of core outcomes (communication, community and environmental responsibility, critical thinking and problem solving, cultural awareness, professional competence, and self-reflection) across the curriculum.
  - Offer courses and services that facilitate access to education for an increasingly diverse community.

**Strategic Direction 4:** The college will operate as a single district—that is, it will deliver a consistent message to students and ensure that policies, procedures and curriculum reflect District-wide approaches based on PCC’s common purpose and values.

- **Action Area**
  - Utilize district-wide academic planning as the driver for decisions regarding educational programs, services, facilities and other key areas of the EMP.

---

Key Area: **Student Access and Development**

**Strategic Direction 1:** The college will focus on student development services that facilitate student success and continuous, lifelong learning.

- **Action Areas**
  - Implement an effective, comprehensive, and integrated college student development plan.
  - Provide class schedules built with students’ needs foremost in mind.
  - Provide an effective skills assessment program district-wide.
  - Simplify and clarify the processes that support student access to programs and services.
  - Promote student participation in the life of the college with opportunities to provide feedback on programs and services and input into college decision-making.

**Strategic Direction 2:** The college will remain a low-cost provider of higher education.

- **Action Areas**
  - Set tuition/fees to be sensitive to students’ ability to pay, availability of financial aid and the cost of operating programs.
  - Increase financial support to students through scholarships and grants.
Key Area: **Community and Economic Development**

**Strategic Direction 1:** The college will take the leadership role in establishing a regional workforce development system.

**Action Area**
- Interact with leaders of business, government, education, and community organizations to ensure participation in decisions and initiatives that enhance commerce and the preparation of a competitive workforce.

Key Area: **Teaching and Learning Infrastructure**

**Supporting Area:** **College Workforce**

**Strategic Direction 1:** The college will recruit, hire, retain, and promote a skilled and diverse workforce that is committed to the mission and values of PCC.

**Action Area**
- Strengthen recruitment and internal development processes that will improve the college’s ability to attract, hire, and retain a diverse faculty and staff.

**Strategic Direction 2:** The college will support the continuing development of employees so that they can contribute to student success and to our strategic directions.

**Action Area**
- Implement a professional and organizational development plan that enables staff to grow both personally and professionally and to increase leadership capability for the college.

**Supporting Area:** **Fiscal Affairs**

**Strategic Direction 1:** The college will develop a fiscal plan that is driven by the Educational Master Plan (EMP) and the effective and efficient use of available resources.

**Action Area**
- Use the EMP as a basis for determining fiscal priorities.

**Strategic Direction 2:** The college will broaden the revenue base to support programs and services.

**Action Area**
- Coordinate college-wide resource development efforts in order to secure more non-state resources.

**Supporting Area:** **Technology**

**Strategic Direction 1:** The college will develop a comprehensive plan that aligns technology related to instruction, student support and administrative systems.

**Action Area**
- Develop mechanisms to identify, adopt, and fund future technology needs.

**Strategic Direction 2:** The college will use technology in ways that enhance teaching and learning and improve the delivery of student services.

**Action Areas**
- Adopt technologies that enhance student learning and facilitate student-faculty interaction in the classroom and via distance learning.
- Adopt technologies that give students on-line access to enrollment and student development services.
Supporting Area: Facilities

**Strategic Direction 1:** The college will ensure that educational programs and services are fully supported by continued development of the three existing PCC campuses.

- **Action Area**
  - Complete campus expansion specified in the master plan.

**Strategic Direction 2:** The college will continually review the district’s network of educational centers and explore alternative delivery systems to meet changing community needs.

- **Action Area**
  - Continue to develop the Southeast Center and assign full-time faculty, staff, and support services in order to ensure effective operation and meet community needs.
### PCC Educational Master Plan – Institutional Focus 2003-05

**Key Area: Educational Programs and Services**

**Strategic Direction 1:** The college will fund and offer a well-defined mix of transfer disciplines and professional technical programs as the core of its educational programs and services.

**Action Area 1:** Design and implement educational pathways that offer students multiple avenues to transfer and employment and facilitate student movement toward their educational goals.

</thead>
</table>
| • Analyze pathways that currently exist at PCC and develop multiple pathway models such as Employment Skills Training (EST) certificates, pathways for Basic Skills students, etc.  
- Look at systems/barriers/policies that need to be addressed to accomplish this action (ie, consider how credits are awarded, etc.). | Accomplishments  
• 13 career pathways established in a variety of occupational areas  
• More than 30 Employment Skills Training (EST) certificates awarded for pathways training  
• Training for ESL Direct Caregivers developed in partnership with the Assisted Living Facility industry; pilot program implemented Spring 2005  
• Funded (with four other CCs) by Governor’s Employer Workforce Fund to develop visual ‘roadmaps’ for professional technical and ESL career pathways  
• Funded to develop a cohort pathway for students who need to bridge from Dev Ed course work to college level credit for occupational training  
• Outreach regarding pathways to youth providers, HS guidance counselors and PCC advisors/counselors  
• Test preparation workshops for students taking college placement exams; expanded curriculum for pathways training re: career planning  
• Leadership in Oregon Pathways Academy and Pathways to Advancement Team | Continue focus for 2005-07 |

**Next steps**

• Implement action plan developed for 2005-06; involve EAC chair and faculty in implementation  
• Establish/implement a resource development plan that includes Worksystems Inc, Governor’s Employer Workforce Fund, PCC New Initiatives Fund, local and national foundations
### Strategic Direction 1: The college will fund and offer a well-defined mix of transfer disciplines and professional technical programs as the core of its educational programs and services.

### Action Area 2: Strengthen relationships and improve coordination with our strategic partners in K-12 district and four-year schools to better serve students and ensure that they are well prepared to move from high school to community college and from community college to university.

</table>
| • Focus on curriculum development, particularly for transfer programs  
  - Implement 3 to 4-credit conversion to re-align with OUS and improve transfer articulation | Accomplishments  
  • Most course conversions completed for Fall 05  
  • EAC reviewed/revised general education requirements for degrees  
  Next steps  
  • Remaining courses converted for Fall 06  
  • Assess impact of change: cost to students, degree completion, student satisfaction w/transfer articulation | Bulk of conversion work is done; discontinue focus for 2005-07 |
**PCC Educational Master Plan – Institutional Focus 2003-05**

**Key Area: Educational Programs and Services**

**Strategic Direction 2:** The college will support programs that teach developmental education and adult basic skills for students who need to prepare for college and/or employment.

**Action Area 1:** Create stronger links between developmental education and college-level coursework in order that students will be successful in next-level transfer and professional technical programs.

</thead>
</table>
| • Evaluate the need for General Education course prerequisites to ensure better-prepared students.  
  - Ensure that students have the foundation skills necessary to succeed in college level courses.  
  - Begin policy discussion and decisions regarding DE enrollment.  
  - Address funding issues, evaluate pre-requisites, etc.  
  - Study the role of DE in preparing students for success in college-level courses. | Accomplishments  
  • Policy to establish pre-requisites in reading, writing and mathematics for all general education courses was recommended by EAC and approved by district president.  
  • Implementation committee formed to oversee change process  
  • Preliminary model developed by IR staff to estimate demand for DE courses when policy goes into effect | Continue focus for 2005-07 |
| Next steps  
  • SAC decisions to accept, opt-out, or lower pre-req requirements for courses in their disciplines  
  • Assess need for curriculum change in DE and other prep courses  
  • Develop plan to assess impact of change on student success  
  • Implement policy no later than Fall 07 | |

</table>
| • Establish an initiative to connect developmental education and college-level programs so that Subject Area Committees (SACs) can learn more about what skills students acquire/develop in DE and create new prerequisites for college-level courses if needed to improve student success.  
  - Align exit level skills of pre-college and other preparatory courses (in math, reading, writing, and English communication) with entry level skills for lower division transfer writing and math courses.  
  - Develop sequence models and design courses for basic skills students wanting to take content courses concurrently with basic/developmental and/or ESL/ENL classes. | Accomplishments  
  • Agreement to use Compass and Compass/ESL as placement instrument for all English language learners at PCC; cut scores established to place students into appropriate ESL or ENNL classes  
  • Two subcommittees of Basic Skills Coordinating Council formed to 1) address alternative systems for placement of non-native speakers and 2) identify exit skills for pre-college English students  
  • Developed pre-college cohort model w/ wraparound services for students who test into DE: mandatory advising, specialized FA assistance, cohort groups that take CG courses (study skills, life skills, career placement) in combination with basic academic skills (math, writing) | Continue focus for 2005-07 |
| • Increase access to English language classes by using proven technology to diversify the approach to instruction and by being smarter about how we use available resources. | Accomplishments  
  • Implementation of CALL (Computer Aided Language Learning) initiatives to integrate technology with classroom instruction; language learning labs established on campuses and software selected/purchased for use in labs  
  • ESL waiting list decreased from 900 to 500; students access services in language labs while on waiting list  
  • Enrollment in Level A declined, possibly because students are improving skills via technology while waiting to enroll  
  • ESL students pay minimal tech fee to access student computer labs  
  • CALL curriculum available on ESL web site for use by all instructors  
  • Interest in replicating model at other CCs in Oregon  
  • Pilot program to charge ESL students regular PCC placement fee; students utilize college admissions/advising centers and receive ID cards which allow them to access Library, obtain parking permits, etc. | Continue focus for 2005-07  
  • Retain as adjunct to Basic Skills Coordinating Council work re: ESL/ENNL |

|          | • Continue to fund/use campus language labs  
|          | • Expand access to student computer labs  
|          | • Expand staff development opportunities for faculty to acquire and use technology skills in classroom |       |
PCC Educational Master Plan – Institutional Focus 2003-05

Key Area: **Educational Programs and Services**

**Strategic Direction 5**: The college will provide opportunities for students to acquire knowledge and skills that enable them to be productive, contributing members of an increasingly complex world community.

**Action Area 1**: Integrate instruction and assessment of core outcomes (communication, community and environmental responsibility, critical thinking and problem solving, cultural awareness, professional competence, and self-reflection) across the curriculum.

<table>
<thead>
<tr>
<th>Activity</th>
<th>Status</th>
<th>Recommendation</th>
</tr>
</thead>
</table>
| Address core outcomes in the program review process.  
- Subject Area Committees (SACs) identify which of the core outcomes are addressed by course, program, degree or certificate.  
- Train faculty and staff in learning outcomes assessment. | Accomplishments
- SACs completed core outcomes mapping; staff from IR have developed preliminary ‘maps’ for recent PCC graduates
- Faculty continue to focus on course learning outcomes
- Initial steps to connect program review with college planning and budgeting processes
- Assessment Committee on hold during most of 2004-05
- IR renamed Office of Institutional Effectiveness | Expand focus for 2005-07 to address accreditation recommendations re: assessment

Next steps
- Reconstitute the college Assessment Committee
- Share results of core outcome mapping with SACs
- Provide more faculty training re: outcomes assessment
- Respond to accreditation recommendations re: assessment
- Integrate assessment processes into planning and budgeting cycles
**Strategic Direction 1**: The college will focus on student development services that facilitate student success and continuous, lifelong learning.

**Action Areas 1-2-3-5-6**: Implement an effective, comprehensive, and integrated college student development plan; provide class schedules build with students’ needs foremost in mind; provide an effective skills assessment program district wide; simplify and clarify the processes that support student access to programs and services, promote student participation in the life of the college with opportunities to provide feedback on programs and services and input into college decision-making.

<tr>
<td>• Implement an integrated enrollment management plan that coordinates district activities related to: Marketing, Admissions, Testing, Advising, Orientation, Scheduling, Registration, Support for learning (services such as tutoring), Transition to next steps (transfer, placement, etc.)</td>
<td><strong>Accomplishments</strong>&lt;br&gt;- Enrollment Management (EM) Committee formed to increase access and improve student retention/success at PCC; developed 7 major goals for EM plan.&lt;br&gt;- Enrollment Management Summit held to increase staff awareness of EM and draft objectives and activities related to EM goals&lt;br&gt;- Solicited input from all PCC employees re: their role in student success&lt;br&gt;- Committee formed to develop recommendations to improve retention and success for students on academic probation&lt;br&gt;- Adopted consistent mission, service standards and learning outcomes for cooperative education and student employment services on all campuses; adopted common software for job placement services&lt;br&gt;- ACT Compass and Compass/ESL placement tools now in use at CA, RC and SY campuses</td>
<td>Continue focus for 2005-07</td>
</tr>
<tr>
<td>• Provide consistent service across the district&lt;br&gt;• Use student feedback throughout their PCC experience to continually improve services</td>
<td><strong>Next steps</strong>&lt;br&gt;- Review advising for new degree-seeking students using a lean business process improvement model&lt;br&gt;- Implement degree audit system for staff and student use&lt;br&gt;- Examine and modify intake/enrollment process for new and returning students&lt;br&gt;- Implement use of Compass placement tools at SE Center and resolve issues testing issues related to Adult Basic Education programs</td>
<td></td>
</tr>
</tbody>
</table>
**PCC Educational Master Plan – Institutional Focus 2003-05**

**Key Area:** **Student Access and Development**

**Strategic Direction 1:** The college will focus on student development services that facilitate student success and continuous, lifelong learning.

**Action Area 4:** Provide easy access to information about everything related to educational opportunities at PCC.

<table>
<thead>
<tr>
<th>Activity</th>
<th>Status</th>
<th>Recommendation</th>
</tr>
</thead>
</table>
| • Provide “high tech” and “high touch” options for informing students about educational options, steps in the enrollment and graduation process, and how to design a “roadmap” to reach their goals.  
- Utilize tools such as web portals, statewide web-based advising, etc.  
- Implement an on-line orientation process while continuing to improve and offer in-person orientation.  
- Provide admissions/intake specialists for in-person advising when the student is considering applying for admission to clarify the steps in the process admission, assessment and advising.  
- Improve and disseminate information about programs, degree requirements, and admissions procedures in a standardized format. Clarify advising procedures and contacts within each program.  
- Organize Campus Resource Fairs at the beginning of each term, with display/information tables showcasing each department’s services and offerings. | Accomplishments  
• MyPCC web portal was launched in Sept 04 and now serves as the primary point of contact for students to register, access on-line course tools and obtain information about college programs, services and events.  
• Ask the Panther (implemented Fall 04) provides online answers to FAQs about enrollment processes and frees up staff time to work with students who need more specialized assistance.  
• District advising materials have been updated  
• Various campus initiatives focus on improving services to students: develop one-stop centers, add computer stations to access on-line services, contact non-returning students, utilize student peer advisors, provide Financial Aid information, hold student services fairs. | Continue focus for 2005-07 |

Next steps  
• Extend on-campus hours of operation for core services (admission, advising, counseling, business office) effective Sept 05  
• Continue expansion of services via MyPCC, particularly degree audit, My Academic Plan and other resources to aid students in completing educational goals.  
• Continue to develop campus initiatives  
• Adopt MyPCC email and announcements as primary tools for communication among faculty, staff and students |

</thead>
</table>
| • Establish a ‘corporate college’ to re-organize how PCC does business with area employers  
  - Establish a single point of contact for employers with workforce training needs.  
  - Coordinate/unify the efforts of departments that focus on business and industry training.  
  • Promote/seek additional partners who are key to area employment and training. | Accomplishments  
  • PCC Center for Business and Industry (CBI) established to provide a single point of contact for business  
  • Extensive business plan and preliminary marketing materials developed  
  • ‘Launch’ breakfast attend by 40+ CEOs and business leaders  
  • General funds authorized for 3 years; $500,000 congressional set-aside requested  
  Next steps:  
  • Hire director for Center for Business and Industry  
  • Conduct industry focus groups to better understand needs  
  • Hold forum (similar to CEO breakfast) for government leaders  
  • Complete task force work and operationalize the Center | Continue focus for 2005-07 |
| • Provide on-going labor market and trend information to all PCC managers. | Accomplishments  
  • Links to labor market information established on IR web page  
  • Results of information forums posted on Planning web page | Initiative accomplished; discontinue as a focus area for 2005-07 |
| • Strengthen links between credit and non-credit programs that provide workforce training.  
  - Continue the President’s quarterly meetings with internal stakeholders working on workforce and economic development issues. |  
  **2005-07:** Move this under Educational Pathways and refocus to look at how PCC ‘credentials’ learning  
  • explore options for awarding credit based on alternative educational experiences, prior learning/life experience, etc.  
  • retain bullet point re: quarterly meetings  
  • Include work of ‘barrier busters’ group | Refocus to emphasize articulation between credit and non-credit programs |
### Activity

- Identify and inventory key external groups and initiatives in which PCC participates (or should participate) for purposes of policy formation and other initiatives related to workforce development.
  - Identify or make known existing PCC "point persons" for each group or initiative.
  - Set up mechanisms for internal communication and feedback regarding each group or initiative.

**2005-07: Establish PCC as a key player in regional economic development and workforce training**

- Ensure that PCC is a presence at the table for planning and policy formation
- Promote broader understanding in the community re: what PCC does/can do in terms of regional econ deve/worker training

**Keep bullet point re: inventory of external groups/ initiatives in which PCC participates; need this for internal coordination and communication**

<table>

</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Accomplishments**

- College representation on key groups: Workforce Investment Board (Pulliams), Youth Council (Poppe), Manufacturing 21 Coalition (Hill), OAME and Urban League (Gatewood)
- Campus admins are engaged with a variety of business and community groups to promote PCC programs; ELC has developed an inventory of key groups in which staff participate
- Accomplishments during 2004-05 were somewhat limited by budget cuts that affected ELC Campus President and Dean of Instruction positions; Campus President reinstated and ELC Dean for Workforce and Economic Development position funded for 2005-06

**Next steps**

- Bring new focus to these efforts under direction of ELC campus president and Dean for Workforce and Economic Development

**Accomplishments during 2004-05**

- PCC leadership of Region 2 Workforce Response Team (Pamela Murray, Paul Wild)
- Two rounds of grant making completed in 2004-05

**2005-07: ADD focus on K-20 educational continuum, establishment of regional consortium – either here or under Educational Programs and Services**
### Strategic Direction 1
The college will recruit, hire, retain, and promote a skilled and diverse workforce that is committed to the mission and values of PCC.

### Action Area 2
Strengthen recruitment and internal development processes that will improve the college’s ability to attract, hire, and retain a diverse faculty and staff.

<table>
<thead>
<tr>
<th>Activity</th>
<th>Status</th>
<th>Recommendation</th>
</tr>
</thead>
</table>
| • Establish a task force (ad hoc) to identify areas of concern related to recruitment and retention of staff and to recommend measures to address these issues.  
  - Conduct a review of the recruitment process (screening committees, 1:1 interviews, initial evaluation of applicants, personal contacts for outreach).  
  - Review methods for recruitment of part-time faculty pool.          | Accomplishments  
  • Internal Diversity Advisory Committee established to design internal structures that facilitate recruitment, hiring, retention and promotion of a diverse workforce.  
  • External Diversity Advisory Committee established to help convey image of PCC as an institution that is actively seeking students and staff of color.  
  • Initial recommendations presented to PCC Board.                     | Refocus on implementation of task force recommendations |
|  
| 2005-07: Implement recommendations of Diversity Advisory Committees  
  • Outreach/response to needs of diverse PCC communities  
  • Promote cultural understanding/cultural competence of college staff in terms of dealing with diverse constituencies | Next Steps  
  • Cabinet review of recommendations; development of action plan for implementation  
  • Implement Faculty Internship Program in Fall 05                      | |

→ Refocus this under Action Area 1: Strengthen the college so that it is attractive to and supportive of a culturally sensitive, culturally competent, and diverse workforce.
Key Area: **College Workforce**

**Strategic Direction 2:** The college will support the continuing development of employees so that they can contribute to student success and to our strategic directions.

**Action Area 1:** Implement a professional and organizational development plan that enables staff to grow both personally and professionally and fosters growth in leadership capability for the college.

<table>
<thead>
<tr>
<th>Activity</th>
<th>Status</th>
<th>Recommendation</th>
</tr>
</thead>
</table>
| • Develop a comprehensive, districtwide (i.e., a "real") plan for staff development that clearly delineates areas of responsibility and accountability.  
  - Activate a joint staff development committee to evaluate current staff development programs and training opportunities. | Accomplishments  
  • Funding guidelines approved by District President and Cabinet  
  • Affirmed relationship between organizational and staff development in terms of increasing institutional effectiveness and capacity.  
  • Clearer understanding of what is funded by district staff development office  
  • Initial meetings to coordinate district and campus efforts related to staff development  
  Next steps  
  • Increase emphasis on organizational development | Plan completed; discontinue as focus area for 2005-07  
• Incorporate next steps re: org development in implementation phase below |
| • Implement a comprehensive, districtwide plan for staff development.  
  - Create mentor/internship programs for interested employees (e.g., career paths, growth opportunities, minority outreach).  
  - Support professional development opportunities that enable faculty to remain current in their disciplines and in the field of teaching | Accomplishments  
  • Internal Grant Program revised to align more closely with funding guidelines; increased number of applications  
  • Development and Training channel established for employees on MyPCC  
  • Career Development Program revised; 6 classified/AP participants in internship pilot program  
  Next steps  
  • Establish Staff Development coordinator as a FT, permanent position and determine most appropriate place in college organizational structure  
  • Continue implementation of revised funding guidelines/timelines for Internal Grants  
  • Institutionalize Career Development Internship Program and inform managers about this development opportunity  
  • Review minimum experience requirements for PCC jobs and update Career Development Plan document  
  • Update Development and Training channel on MyPCC | Continue focus for 2005-07  
• Add focus re: addressing prof development needs of faculty |
### Key Area: College Workforce

Next steps – None listed
### Strategic Direction 1
The college will develop a fiscal plan that is driven by the Educational Master Plan (EMP) and the effective and efficient use of available resources.

### Action Area 2
Use the Educational Master Plan as a basis for determining fiscal priorities.

<table>
<thead>
<tr>
<th>Activity</th>
<th>Status</th>
<th>Recommendation</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Develop a process to base budgeting decisions on priorities determined by the Educational Master Plan. - Identify the decision-making process—who makes decisions, annual timetable for budget allocations, input and review opportunities. - Develop an evaluation process to review the progress made on current priorities before new allocations are made for the next fiscal year. - Establish a rolling three-year perspective on institutional goals and objectives as part of the budget process.</td>
<td>Accomplishments • Initiated budget development two months earlier to provide more time for input and identification of alternatives • Budget Advisory Committee expanded to include key EAC leaders • Continued to fund investments called for in the EMP, particularly instructional technology, student access (portal) technology and inter-campus networking • New initiatives proposed for FY06 were screened based on relevance to the EMP • Continued to ‘marry’ bond and General funds to support elements of EMP related to technology and student access.</td>
<td>Continue focus for 2005-07</td>
</tr>
</tbody>
</table>

### Next steps
- Increase effectiveness of links between budget realities and opportunities for input/comment on investment strategies
- Continue regular analysis of academic programs from a districtwide perspective
- Implement plans in FY07 that result from budget preparation and academic planning in FY06
PCC Educational Master Plan – Institutional Focus 2003-05
Key Area: Fiscal Affairs

**Strategic Direction 2:** The college will broaden the revenue base to support programs and services.

**Action Area 2:** Coordinate resource development efforts throughout the college in order to secure more non-state resources.

<table>
<thead>
<tr>
<th>Activity</th>

<th>Recommendation</th>
</tr>
</thead>
</table>
| - Support the mission of self-supporting, entrepreneurial college departments.  
  - Tie these programs to the fiscal priorities determined by the Educational Master Plan (see SD1-AA2 above).  
  - Provide responsive student and general operating services that meet the unique needs of these departments and create better mechanisms for distributing funds generated by these programs to cover necessary costs associated with these services.  
  - Clearly designate the entrepreneurial role of these programs in serving the business community.  
  - Provide for better coordination/communication and more focus on internal partners.  
  - Centrally coordinate/broker service delivery and determine who will be responsible. | Accomplishments  
- Good progress in achieving self-support for 1900 Fund programs; less duplication and more integration among ELC programs, which are operating much more cost effectively  
- Formative work to bring a variety of entrepreneurial programs together under the CBI umbrella  
- Formation of innovative partnerships such as “Think Big” with Caterpillar  
- Aggressive development of new networking arenas and opportunities  
- Aggressive lobby for appropriate levels of State funding | Continue focus for 2005-07  
- See note at end of this section re: adding an area of focus on ‘entrepreneurs’ |

Next steps  
- Re-examine funding formula to find a basis that works for the college and each individual program
### Activity | Status | Recommendation
--- | --- | ---
- Establish a Director of Institutional Advancement as key staff for resource development<br>  - Move Grants Office and coordinate efforts with PCC Foundation | Accomplishments<br>  • Director appointed January 2005<br>  • Grants Office works closely with PCC Foundation but will continue to report to VP, Academic and Student Affairs<br>  • Draft of PCC Marketing Plan to focus messages to the public; research included 2 telephone surveys of district residents during 2005 | Initiative accomplished; discontinue as focus area for 2005-07<br>  • OR re-focus on implementation of marketing plan

Next steps<br>  • Board review/approval of marketing plan<br>  • Strategic initiative to conduct a 5-year, $10 million capital campaign (via PCC Foundation)
# PCC Educational Master Plan – Institutional Focus 2003-05

**Key Area:** Fiscal Affairs

<table>
<thead>
<tr>
<th>Activity</th>

<th>Recommendation</th>
</tr>
</thead>
</table>
| • Tie grant priorities to the Educational Master Plan.  
  - Establish a clearinghouse for information about grants currently in place.  
  - Widely disseminate information from the Grants Office to the college community about possible funding opportunities.  
  • Feed information from departments and Subject Area Committees (SACs) to the Grants office. | Accomplishments  
  - Continued emphasis on pursuing grant opportunities that support EMP and EMP/Areas of Institutional Focus  
  - Submitted 32 grants in FY05 requesting more than $18.5 million in funds for PCC; 26 out of 37 (70%) of proposals submitted in FY04 were funded.  
  - Up-to-date list of funded grants posted on Grants Office website; regular distribution of Grants Office activity reports and announcement of newly funded grants  
  - Created guidelines re: use of Grant Office funds for faculty release time to develop grants  
  - Information and training for faculty and staff on a variety of topics related to grant seeking and grant administration  
  - Participation on various college/departmental committees by Grants Staff to increase knowledge about college programs and services, decisions, trends, etc.  
  - Support to planning team charged with development of business plan for CBI  
  - New Initiative proposal to hire an additional grants officer funded in FY06 budget | Initiative accomplished; discontinue as focus area for 2005-07  
  • See note at end of this section |
| | Next steps  
  • Publicize guidelines re: use of Grant Office funds for faculty release time  
  • Continue information dissemination and training/information sessions; survey faculty awareness of/interest in grants  
  • Hire new Grants Officer  
  • Continue to pursue grants that support EMP | |
| • Expand role of PCC Foundation.  
  - Seek out donations; increase Foundation fundraising ($500K for scholarships in FY05)  
  - Ensure the PCC Foundation is self-supporting.  
  - Tie Foundation priorities to the Educational Master Plan.  
  - Increase staff development funding. | Accomplishments  
  • Foundation assets eclipsed $3 million mark; gifts ahead of last year by large margin  
  • Foundation endowment fund has grown to $1.7 million  
  • Faculty/Staff Annual Campaign participation increased to 30%; increased donors and giving in response to direct mail campaigns  
  • Increases in major gifts and planned giving  
  • Increased number of scholarships awarded  
  • Event development: 1st Annual PCC Challenge Golf Tournament; | Continue focus for 2005-07 |
### Key Area: Fiscal Affairs

<table>

</tbody>
</table>

Accomplishments
• Initial phases of portal implementation completed
• On-line course tools ‘turned on’ for more than 600 class sections in

Continue focus for 2005-07
## Key Area: Technology

### Spring 05
- Training, support and funding for hybrid courses
- Funding and support for course re-design projects; current programs include ESL, Spanish, Anatomy and Physiology, Nursing, Art History
- Language labs completed at Rock Creek and Sylvania; planning underway for lab at Cascade
- Development of on-line course evaluation system

### Next steps
- Activate on-line course tools for all classes in Winter 06
- Complete language lab at Cascade
- Continue development of hybrid courses
- Continue course re-design projects
- Implement on-line course evaluation system
### Strategic Direction 2: The college will use technology in ways that enhance teaching and learning and improve the delivery of student services.

### Action Area 2: Adopt technologies that give students on-line access to a full range of enrollment and student development services.

<table>

PCC Educational Master Plan – Institutional Focus 2003-05
Key Area:Facilities

**Strategic Direction 1:** The college will ensure that educational programs and services are fully supported by continued development of the three existing PCC campuses.

**Action Area 2:** Complete campus expansion specified in the master plan for each of the comprehensive campuses.

<table>
<thead>
<tr>
<th>Activity</th>
<th>Status</th>
<th>Recommendation</th>
</tr>
</thead>
</table>
| • Develop mechanisms for identifying goals for expansion in each campus master plan. **Change wording to focus on ‘vision’ rather than ‘master plan’ for each campus**  
  - Establish guiding principles to ensure coherence among plans districtwide; build campus master plans based on district goals.  
  - Periodically evaluate how campus master plan goals fit with institution needs.  
  - Develop mechanisms to identify adequate funding for expansion project(s).  
  - Identify and publish necessary steps and timeline to implement campus expansion as specified in each master plan.  
  - Establish mechanism for disseminating progress of expansion activities. | Accomplishments  
• Current bond projects completed on time and to high quality standards; 6 new/renovated buildings delivered in 2004-05  
• Projects achieve coherence between campus autonomy related to building purpose and design and district standards and initiatives related to infrastructure (power distribution systems, networks, etc.)  
• Completed projects are consistent with both campus plans/visions and regulatory agency requirements  
• Monthly bond status reports distributed to relevant constituencies  
• Continued development of Tualatin Hills Parks and Recreation District project at Rock Creek  
• Positioning real estate acquisitions at Cascade  
• ‘Lessons learned’ from current bond cycle and very preliminary ideas on key investment needs for the future | Continue focus for 2005-07 |

**Next steps**
• Fully complete the existing bond program; assess lessons learned, unmet needs, unsolved problems  
• Develop initial points of focus for next facilities investment cycle  
• Develop detailed and fully inclusive process for planning the next investment cycle
### Strategic Direction 2: the college will continually review the district’s network of educational centers and explore alternative delivery systems to meet changing community needs.

### Action Area 1: Continue to develop the Southeast Center and assign full time faculty, staff, and support services in order to ensure effective operation and meet community needs.

<table>
<thead>
<tr>
<th>Activity</th>
<th>Status</th>
<th>Recommendation</th>
</tr>
</thead>
</table>
| • Work with staff, students and community representatives to develop a vision for SE Center.  
  - Include targets for instructional and student FTE, adding/moving professional technical programs suitable for the SE community, and ways to link students with the Cascade campus.  
  - Assign full time faculty in key areas such as MTH and WR, providing transfer opportunities for current full time faculty and necessary support systems and facilities.  
  - Establish SE Center as a place with multiple educational opportunities that meet the needs of the SE community and encourage participation of the center by community members. | Accomplishments  
• Exceeded FTE targets for 2004-05  
• Students can complete the first year of General Education requirements at SE Center  
• Added a FT math instructor  
• Secured additional funds for advising and tutoring  
• Continued favorable community response | Refocus on understanding future educational needs of the SE Community and propose an action plan to meet needs |

Next steps  
• Continue to grow towards ‘comprehensiveness’
Portland Community College

|                    |  - Select a different community based “theme” each year and summarize PCC role/contributions  |
Goal 1: Access Report

We will improve access to quality life-long learning opportunities through the effective use of technology, affordable classes and the strategic location of facilities.

Key Measures
- Distance learning enrollment growth
- Percent of students applying/receiving financial aid
- Competitiveness of PCC tuition with area 2-4 colleges and universities

Report Summary
Increasing numbers of students are accessing PCC instructional offerings through distance learning instruction and/or utilizing financial aid resources to help pay for their education. The cost of that education at PCC is competitive with local community colleges and less than one-half the price of area public universities.

Supporting Detail

Distance Learning Growth
Distance learning (DL) consists of On-Line courses (instruction delivered over the Internet), Telecourses (video classes on cable, DVD, or streamed), TeleWeb courses (telecourses with an interactive Internet component) and Interactive Television Courses (“live” classes broadcast within PCC).

Current Status: In Fall 2005, 4,682 students (19% of all credit students) enrolled in distance learning. Most (61%) DL students also attended on-campus courses although 39% received all of their instruction at a distance.

An additional 1,000 students (6% of non-credit students) enrolled in non-credit distance learning but in contrast, the vast majority of these DL students were enrolled only in distance education.

Trends: (comparison of Fall 2001 to Fall 2005)
Credit Distance Learning:
- Credit distance learning enrollments increased from 3,043 to 4,682 students or 54%.
- The proportion of the total credit student population enrolled in DL increased from 11% to 19%.
- Distance learning credit FTE increased from 387 to 612 FTE or 58%.
- Distance learning FTE as a percent of total credit FTE increased from 6% to 10%.

Non-Credit Distance Learning:
- The number of students taking non-credit DL courses increased from 536 to 1,044 students or 93%.
- As a proportion of the total non-credit student population, students enrolled in DL increased from 2% to 6%.
- While distance learning FTE as a percent of total non-credit FTE increased slightly from 2.3% to 2.7%, the number of DL FTE fluctuated during this time period and no discernable trend was observed.
**Context:** Most (77%) distance learning is delivered in the form of on-line courses while traditional telecourses are now less than 4% of all distance instruction. On-line courses are available in over 40 subject areas. Disciplines with the largest enrollments include Business Administration, Computer Application Systems, Computer Information Systems, Management Supervisory Development, Math and Writing.

**Financial Aid Awards**

**Current Status:** During the 2005-06 academic year, 38% of degree-seeking students applied for financial aid. Among these financial aid applicants, 71% received aid.

**Trends:** (comparison of 2001-02 to 2005-06)
- The number of degree-seeking students varied during this time period.
- Students applying for financial aid increased from 11,141 to 13,496 students or 33%.
- Financial aid recipients increased from 6,634 to 9,622 students or 45%.

**Context:** Award amounts vary based on individual student financial need and full or half-time enrollment status. The estimated average aid received by full-time students for an academic year, with some fluctuation, shows an overall increase of $1,117. The award package for these students generally consists of a combination of both grants and loans.

**Tuition and Fees**

<table>
<thead>
<tr>
<th>2006-07 Tuition and Fees (for a 3 credit course)</th>
<th>Community Colleges</th>
<th>Universities</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Clackamas</td>
<td>PCC</td>
</tr>
<tr>
<td>In-State Tuition</td>
<td>$168</td>
<td>$201</td>
</tr>
<tr>
<td>Fees</td>
<td>$12</td>
<td>$18</td>
</tr>
<tr>
<td>Total</td>
<td>$180</td>
<td>$219</td>
</tr>
</tbody>
</table>

Fees exclude any additional or special costs (i.e. distance learning, lab, etc.)

**Current Status and Context:**
The cost of a three credit course at PCC is $15 less than the corresponding course at Mt. Hood CC and $38 more than the same course at Clackamas CC. In contrast, the additional cost for the corresponding course at PSU or OSU would range from $232 to $436. In recent years, both public community colleges and universities have increased tuition and fees in response to decreased state funding.
Definitions, Notes and Data Resources

**FTE** = a standard method for annualizing enrollment in college courses and is calculated as:
\[ 1 \text{ FTE} = \frac{(# \text{ of students in course})(# \text{ of hours course meets per term})}{510 \text{ hours}} \]

**Full-Time Status** = enrollment in 12 or more credit hours per term.
**Half-Time Status** = enrollment in 6 to 11 credit hours per term.

**Financial Aid**
Applicants and recipient data include only those students who also enrolled at PCC. Average award is estimated from Student Financial Aid IPEDS reports and based on the cohort of first time in college, full-time, degree-seeking students. These averages may be representative of continuing full time students but do not reflect awards of students enrolled half-time.

Goal 2: Student Success

We will promote success for all students through outstanding teaching, student development programs and support services in all that we do: Readiness, Transfer Preparation, Professional Technical Education and Community/Continuing Education.

Key Measures

- PCC Academic Progress
  - Student enrollment and FTE trends
  - Successful course completion rates
  - Retention to next term
  - College-level skill development
  - Degrees/certificates awarded

- Continued Educational and Professional Advancement
  - Pass rates on certificate/licensure exams
  - Student transfers to 4-year universities
  - Academic performance after transfer

Report Summary

Student success encompasses academic progress while enrolled at PCC as well as continued educational and professional advancement after leaving PCC.

PCC Academic Progress

- After several years of declining enrollments following the reduction of state funding in 2002-03, FTE appeared stable in 2006-07.
- Successful course completion rates and term-to-term retention rates were relatively consistent 2002-03 through 2006-07.
- Although many students arrived at PCC under prepared for college, most graduates and almost one-half who became university transfers first acquired the skills needed for college-level success through developmental education.
- The number of degrees awarded increased significantly from 2001-02 through 2005-06 while fewer one-year certificates were completed in recent years.

Continued Educational and Professional Advancement

- Students had high pass rates on national licensing/certification exams.
- The number of students who transferred to the Oregon University System remained relatively consistent 2001-02 through 2005-06.
- PCC university transfer students were academically competitive with other transfers as well as continuing Oregon University System students.
Enrollment

*Full-Time Equivalency (FTE)* is a measure of total student enrollment using a standard definition of full-time. State reimbursement is based on student FTE rather than student headcount.

**Total students** peaked in 2001-02 at 105,000; the recent five year trend showed a decline of -15.4% since 2002-03 and -2.4% since 2005-06.

**Loss of non-credit students** accounted for the majority of the student decrease.

**Total FTE increased slightly** (+0.9%) in 2006-07 from 2005-06 but remained almost 12% below 2002-03 levels. State reimbursable FTE was +0.7% compared to 2005-06 and -13.7% compared to 2002-03.

After a decline in 2003-04, **lower division college transfer FTE** was relatively flat but in 2006-07 exceeded 2002-03 levels.

Fewer enrollments in computer information systems as well as decreases in various other technical subject areas contributed to declining **career technical FTE**.

Decreasing **other FTE** was from elimination of the apprentice program and fewer enrollments in community education, continuing education, adult basic skills and developmental education.

**Enrollment Discussion**

FTE reached a record high in 2002-03. That same year state funding was cut and some non-credit courses (previously state reimbursed) were no longer funded. Significant enrollment declines followed when many non-credit courses were eliminated and fewer credit course sections were available due to budget cuts. Although FTE appears stabilized, neither PCC nor any other Oregon community college has returned to 2002-03 enrollment levels.

Retention

Successful course completion is defined as receiving a grade of A, B, C or P (pass) in a credit course.

**Fall Term Grade Distributions**

The percent of **successful course completions** declined slightly Fall 2005 and 2006.

**Career technical courses** tend to have the highest successful completion rates (82%) followed by college transfer courses (78.7%).

**Developmental education** (which consists of reading, writing and math) lagged other instructional areas with an overall 69.5% successful completion rate.
Fall-to-winter retention rates were relatively consistent; on the average, 71% of fall credit students returned the winter term.

Full-time students had the highest fall-to-winter retention while students taking less than six credits were least likely to enroll the winter term.

Fall-to-fall retention averaged 43%. Full-time students again had the highest return rate (49%) but were closely followed by half-time students (44% retention) and then part-time students (31% retention).

Developmental/pre-college instruction was 20% of total FTE and included adult basic skills (ABS), math, reading, writing and English as a second language (ESOL).

Over 30% of recent high school graduates attending PCC tested below college reading or writing skills; most (85%) did not have college math skills.

Fall 2006 students who completed a developmental course and enrolled Winter 2007 in a related college-level course had higher success rates than those who did not take the fall term developmental course.

Most non-credit ESOL students were Hispanic, enrolled part-time and attended an average of six terms during a five year period.

Credit ESOL students were international students or Asian or Hispanic, enrolled full-time, attended an average of 6.6 terms in five years and progressed into other credit subjects while enrolled.

College Skill Development Discussion
Two credits will be added to Oregon high school graduation requirements in 2010; this could result in better prepared graduates attending college in the future.

Although students may have arrived at PCC under prepared for college, most (67%) PCC graduates and almost half who became university transfers were former developmental education students.
Degrees and Certificates Awarded

The number of degrees awarded increased 42% since 2001-02. Associate of Applied Science (AAS) and Associate of General Studies (AGEN) degrees accounted for the majority of that growth.

The decline in total certificates awarded, which began in 2004-05, followed several years of growth. This decrease occurred in one-year certificate awards and corresponded to declining enrollments in career technical programs.

Of graduates who responded to a survey one year after degree/certificate completion:
- 82% are employed, 12% unemployed, and 6% not in the labor force by choice;
- 38% have since continued their education at a university or college, of which 76% are in a program related to their PCC degree.

Degree abbreviation legend:
- Associate of Applied Science (AAS)
- Associate of General Studies (AGEN)
- Associate of Science (AS)
- Associate of Arts, Oregon Transfer (AAOT)

In 2005-06, 95% of PCC students who took national licensing/certification exams earned a passing score.

</tbody>
</table>

Licensing Discussion
PCC students have historically high pass rates on national exams. Most of the programs which prepare students for these occupations differ from other programs in that only a limited number of students are admitted each year. In addition, some programs are also nationally accredited by agencies such as the Commission on Dental Accreditation, the National Accrediting Agency for Clinical Laboratory Science and the National League for Nursing Accrediting Commission.
An average of 4,700 credit students became Oregon University System (OUS) transfer students the year following enrollment at PCC; 29% of all Oregon community college students who transferred to OUS were previously PCC students.

Most (69%) PCC transfer students attended Portland State University. Oregon State University received the next highest (12%) of PCC transfers.

PCC transfers were academically competitive (university GPA = 3.07) with other community college transfer students (university GPA = 3.02) as well as university students continuing their enrollment (GPA = 3.08). More specifically, PCC transfers had higher success rates in English composition, similar success in social science, arts and science and science subject areas, and lower success rates in foreign languages.

Presented data do not address the complex attendance patterns of students who concurrently attend multiple colleges and/or transfer back and forth between PCC and other colleges sometimes referred to as “swirling.” In addition, students who transfer after more than one year following PCC enrollment or to private or out of state universities are not included.

Conclusion

Student success is multi-faceted. While degree completion or university transfer are common measures of success, both are only possible due to successful course completion, term to term retention, as well as the acquisition of college-level skills for those who arrive lacking the needed college-level reading, writing, math or English language skills.
**FTE:** Full-Time Equivalency (FTE) is a measure of total student enrollment using a standard definition of full-time. For example, a student enrolled for 15 credits (full-time) for 3 terms = 1 FTE; a student enrolled for 9 credits (part-time) for a single fall term = .21 FTE. State reimbursement for FTE is based on a clock hour basis (student contact hours) with 510 hours equal to 1 FTE. This equates to a student enrolled for 15 lecture credits per term for three terms: 15 hours a week times 34 weeks = 510 (12 weeks in fall and 11 weeks in winter and spring terms).

Licensing/Certification Exam Pass Rates collected from corresponding PCC departments
Medical Laboratory credentialing definitions: NCA = National Credentialing Agency; ASCP = American Society for Clinical Pathology

OUS transfer numbers provided by Oregon Department of Community College and Workforce Development (CCWD) and may not match OUS transfer counts due to differences in transfer student definitions.

Academic performance transfer data provided by OUS–Office of Institutional Research.

PCC Office of Institutional Effectiveness, August 2007, lm:StudentSuccess2006Report.doc
Goal 3: Diversity Report

We will enrich the educational experience by committing to the development of diversity in our student body, faculty and staff.

Key Measures
- Extent student demographics reflect service area demographics
- Extent PCC employees reflect the service area demographics and PCC student demographics
- Diversity of recent/new hires by employee group

Report Summary

The proportion of minority students enrolled at PCC is similar to the proportion of minority residents living in the PCC service area.
The percentage of full-time employees who are minority has increased over the last ten years but does not yet reflect the diversity of the community.

Supporting Detail

Student Demographics

![Fall 2006 Credit Students](chart)

**Current Status:**
The total minority percentage (23%) of the Fall 2006 credit student population mirrors that of the college population service area\(^1\).

Asian representation is slightly higher and Hispanic representation slightly lower than service area proportions. African-American and American Indian student percentages are similar to the community distribution.

The non-credit student population\(^2\) is more diverse (26% minority) than the college service area due to the higher proportion of Hispanic students.

**Trends:**

![Credit Student Trends: Fall 2002-2006](chart)
Comparison of Fall 2002 to Fall 2006:
- Since record high enrollments in Fall 2002, the number of White credit students decreased from 19,734 to 15,570 (21%) and enrollments of minority credit students decreased from 5,452 to 4,777 or 12%.
- Among minority students, declines were greatest for Asians (376 fewer students) with African-American and Hispanic student populations each declining by 110 students. Enrollments of American Indians declined by 78 students.
- Enrollments of International students increased during this time from 497 to 603 or 21%.

Full-Time Employee Demographics
For a comprehensive analysis of full/part-time employees, hiring trends by job group, and labor market availability data, see the annual Workforce Analysis Report produced by the PCC Affirmative Action Office.

Current Status and Employee Trends:
The proportion of full-time employees who are minority has improved over the last ten years from 14% to 18% but does not yet reflect the diversity of the community.

Minority representation increased among all employee groups. The largest minority percent change occurred among administrators and managers and the greatest increase, in absolute numbers, was found in non-admin/faculty job categories.

Hiring Trends:

Comparison of 2002 to 2006:
- The number of administrators/managers hired declined during this time while the diversity of new hires spiked in 2004 compared to prior and later years.
- Faculty new hires fluctuated in number as did their minority representation. Most recent hires (2006) reflected greater diversity (22% minority) than the prior four years.
- The number of new hires among all other employee groups combined remained relatively stable while minority representation increased in both 2005 and 2006.
Definitions, Notes and Data Resources

Student Demographics
1. Estimates of PCC service area demographics:
   White, Non-Hispanic = 75%, Hispanic = 11%, Asian/Pacific Islander = 7%, African-
   American = 4%, American Indian/Alaskan Native = <1%, Other/Multi-Race = 3%
   Source: 2005 American Community Survey, General Demographic Characteristics

2. Fall 2006 Non-Credit Students: White, Non-Hispanic = 71%, African-American = 3.4%,
   American Indian < 1%, Asian/Pacific Islander = 8.7%, Hispanic = 13%, International 3.5%.

   All Fall 2006 student numbers reflect “live” Banner data while Fall 2002 – Fall 2005 data were
   extracted from official end of term reporting extracts.

   Race/Ethnicity percent distributions are based on reported data. Approximately 2,800 of the
   23,774 Fall 2006 credit students do not have race/ethnicity on file.

Employee Demographics
Employee numbers include individuals employed full-time in positions supported by either
General or Non-General Funds.

   “All Faculty” includes Faculty Counselors and Faculty Librarians. These two categories
   represent a total of 24 employees or 5.7% of the “All Faculty” Fall 2006 total.

   “All Staff Combined” includes Secretarial/Clerical, Technical/Paraprofessional, Skilled
   Craft, Service Maintenance and Professional/Non-Technical job categories.
   Source: PCC Workforce Analysis Reports

We will ensure the relevance and quality of all programs and services through planning, assessment and the appropriate distribution of resources.

**Key Measures**
- Highlights of student satisfaction survey results
- Use of satisfaction survey findings for improvement
- Additional measures (under development) will be included in next year’s report

**Report Summary**
Students consider the quality of instruction delivered at PCC, faculty, and PCC facilities to be the College’s greatest strengths. In contrast, course scheduling, registration, textbook costs, advising and financial aid can be challenges for students. The College began (and continues) to address these challenges through the targeted allocation of personnel, technology and financial resources.

**Supporting Detail**
Student satisfaction surveys are one of the tools used by the College to assess services, review programs and provide direction for continuous improvement of the College. A sample of over 1,200 credit students at the three campuses and Southeast Center completed the Noel-Levitz Student Satisfaction Inventory™ in Spring 2005.

The Noel-Levitz Student Satisfaction Inventory™ is a survey comprised of approximately 85 standard items and 10 optional items created by the college. Students assign a level of importance and level of satisfaction to each item based on a seven point scale.

**PCC Strengths and Challenges**
Survey items were analyzed to determine strengths (high importance and high satisfaction) and challenges (high importance and low satisfaction). The following table lists the top five for each group.

| “Top Five” Strengths and Challenges (listed in order of greatest importance to students) |
|----------------------------------|----------------------------------|
| **Strengths**                    | **Challenges**                  |
| 1. Excellent quality of instruction | 1. Classes scheduled at convenient times |
| 2. Good variety of courses provided | 2. Able to register with few conflicts |
| 3. Able to experience intellectual growth here | 3. Cost of textbooks |
| 4. Faculty are knowledgeable in their fields | 4. Advisor knows program requirements |
| 5. Safe and secure campus | 5. Adequate financial aid available |

Many of the strengths students identified focused on the quality of instruction, faculty, and facilities. Policies and procedures related to billing, course selection and course adding and dropping were well received by students. In addition, computer labs, library resources and lab equipment were also viewed favorably.

The greatest challenges for students were classes being offered at convenient times, the ability to register with few conflicts and the cost of textbooks. Advising and financial aid were also critical areas. Students want advisors to be knowledgeable about program/transfer requirements and adequate financial aid be available and awarded in a timely manner.
Use of Survey Findings for Continuous Improvement

The following examples highlight how personnel, technology and financial resources were allocated to address survey findings. While not a comprehensive list, this does address the wide range of activities directed toward continuous improvement at the College.

Financial Aid
- Financial Aid Days have been implemented on all campuses to provide assistance to students and potential students in completing the Free Application for Federal Student Aid (FAFSA) forms needed to apply for financial aid.
- Financial Aid added a new financial aid loan officer position.
- “Old” computers in Financial Aid Offices have been replaced with new computers/technology to improve efficiency.

Academic Advising
- Increased advising opportunities were made available at all campuses through the Mott Grant for developmental education students interested in pursuing a certificate or degree in Professional Technical Education.
- A new general advisor position was created at the Sylvania Campus.
- Increased advising efficiencies are possible due to the purchase and use of a new tracking system (Advisor Trac). College-wide implementation is scheduled to be complete in Fall 2007.

Textbooks
- A textbook committee was formed (active 2005-06) to study how faculty and various administrative and student service areas within the College could work together to create affordable textbook options for students.

Registration/Scheduling
- An automated wait list process was fully implemented which allows students to better manage their schedule. (A wait listed student is automatically enrolled in a previously filled class if an opening becomes available during the registration period.)
- A newly revised block schedule format to help eliminate class scheduling conflicts for students is being piloted at a couple of the campuses.
- The number of courses offered via distance learning (which present no class scheduling conflicts for students) continues to increase each year.

Closing the Loop
The Noel-Levitz Student Satisfaction Inventory™ survey of credit students was repeated in Spring 2007. Once the analysis is complete, the findings will be used to assess the effectiveness of previously implemented strategies and provide direction for future areas of improvement.

Definitions and Data Resources
Strengths and challenges were defined using the following Noel-Levitz methodology.

“Challenges are defined as being above the midpoint in importance and in the bottom quartile of satisfaction and/or the top quartile of performance gaps. . . Strengths are defined as being above the midpoint in importance and in the top quartile of satisfaction.”

PCC Office of Institutional Effectiveness, July 2007, lm:ContinuousImprovement2006Report.doc
Goal 5: Cultivating Partnerships Report:
Grants and Contract Training (Part 1)

We will effectively respond to the educational needs of our students and communities through strategic alliances with business, government agencies and educational institutions.

Key Measures
- Grant revenue and funded proposal trends
- Contract training business partners and revenue trends
- K-16 partnerships and programs (Focus of Cultivating Partnerships Report: Part 2-reporting at June meeting)

Report Summary

Through programs and support services made possible due to funded grant proposals (averaging $8.25 million each year) and by providing customized contract training to businesses and employers (average annual revenue = $774,000), PCC supports students, community, workforce and economic development.

Supporting Detail

Grant Activity
In addition to state support and student tuition/fees, funded grant proposals help the College provide services and programs to meet student and community educational needs. PCC grants include awards by local, state, federal, profit and non-profit agencies. For trending purposes, grants within the purview of the PCC Grants Office are summarized in this report.

Five priority areas drive the College’s grant seeking activities:
- Workforce/economic development,
- Needs of limited English speakers,
- College access and success for disadvantaged/underserved populations,
- Preparation of future teachers and other professionals in education,
- Technology needs ranging from district-wide initiatives to specific program delivery.

Grant seeking activities have increased in recent years as indicated by growth in revenue, numbers of active grants and funded proposals.

- From 2002 to 2006, grant revenue increased 38%.
  Revenue reported per fiscal year includes revenue from new awards as well as grants awarded in prior years with funding continued into the following year(s).

- Active grant counts escalated in one year from 58 to 75 (FY02 to FY03) and leveled off at 77 in FY05. Grants are considered active if grant funds are expended during the fiscal year.

![](image)
Grant Activity (cont.)

- The number of funded proposals increased from 19 (FY02) to 29 (FY06) with an average of $8,250,000 awarded per year. The $8,250,000 represents initial award amounts and does not include additional dollars for grant renewals unless a new proposal is required. However, renewals are included in the reported grant revenue by fiscal year.

Example of an Active Grant

PCC’s Sylvania ROOTS program: Funded by a four-year $942,760 grant from the US Department of Education TRIO Student Support Services funds.

Description: ROOTS is a student support services program at Sylvania for students who demonstrate academic need and are low-income, first-generation and/or who experience a disability. The ROOTS program provides intensive student services, counseling, and other activities for 170 PCC students each year.

Student Outcomes: In 2004-05, 87% of ROOTS students persisted (enrolled at PCC, graduated or transferred), compared to 48% of students in a campus comparison group and 65% of all Sylvania degree-seeking students. ROOTS students were also in good academic standing with a cumulative GPA of 3.11.

Contract Training

Through partnerships with businesses, non-profit agencies, and local and state governments, PCC provides customized training to support workforce and economic development. These partnerships exist to address needs ranging from one-time/short-term workshops to ongoing/long-term skills training and development.

This report highlights PCC’s Customized and Workplace Training (CWT) Department. Other college providers of contract training (i.e. the Institute for Health Professionals, Small Business Development Center, Computer Education Program, and various campus programs) will be the focus of future partnership reports.

Over the last several years, businesses in industries such as agriculture, financial services, manufacturing (i.e. metals, high tech, and semiconductor) apparel, education, utilities, bioscience, local and state governments have contracted with CWT. Integra Telecom, D.R. Horton, General Motors, TriMet, and the City of Portland are examples of businesses clients.

From 2002-2006, CWT contract training efforts
- served an average of 33 businesses/employers each year,
- through an average of 45 contracts per year (225 total contracts) and
- generated average annual revenue of $774,000 ($3.87 million total).

Excerpt from a letter dated Nov 20, 2006

“Overall, we are very proud of and happy of [sic] the program that has resulted from our partnership with CWT. . . We are already reaping the benefits in terms of performance, employee growth and profitability and look forward to the continuing benefits.”

Trish McNamara
Human Resource Director
Precision Wire Components
Contract Training (cont.)
Customer Satisfaction:
The Oregon Department of Community Colleges and Workforce Development requires community colleges to obtain employers’ satisfaction ratings with community college training programs for the state annual performance measures report.

The following reflects the CWT administered surveys (for state reporting purposes) during 2004-05.
- Fifteen out of 50 CWT training businesses/employers responded to a customer satisfaction survey.
- Of those, 87% positively rated their satisfaction level as 4 or higher. (This is based on a scale of 1 to 5 where 5 is highest/best.)
- In addition, 93% of respondents indicated they would contract again with PCC for training.

Cultivating Partnerships: Part 2
In summary, PCC’s strategic alliances help meet student and community educational needs through funded grant proposals and contract training relationships.

Next month in Cultivating Partnerships Report: Part 2, strategic alliances with educational institutions which
- enable high school students to concurrently complete college credits,
- prepare youth no longer in high school to complete their high school diploma or GED, and
- help young adults learn English and work toward their high school diploma or GED will be among the partnerships detailed in the report.

Goal 5: Cultivating Partnerships Report: K-16 Partnerships (Part 2)

We will effectively respond to the educational needs of our students and communities through strategic alliances with business, government agencies and educational institutions.

- Student participation/success in alternative high school completion programs
- High school student enrollments in dual credit courses
- Partnerships supporting student transfer to 4-year universities

Addressed in Cultivating Partnerships Report: Part 1
- Grant revenue and funded proposal trends
- Contract training business partners and revenue trends

Report Summary

Strategic alliances with area school districts help PCC address a wide range of high school age students’ college and pre-college educational needs. The Gateway to College program has helped more than 1,500 students at risk of not graduating from high school improve their academic performance and progress toward and/or beyond high school graduation and subsequent enrollment in higher education. Through Dual Credit, more than 1,600 high school students a year complete college-level credits that also count toward high school graduation. Dual credit students benefit through savings in time (and money) and enroll in post-secondary education with an increased readiness for college-level instruction.

Supporting Detail

Alternative High School Completion Programs

Partnerships with participating area school districts enable PCC to offer a variety of programs which address the educational needs of youth (ages 16-21) who have dropped out of high school and/or may not be “on track” to graduate from high school. Through these programs, students are able to complete their high school credential and pursue college-level learning.

Gateway to College

Since Spring 2000, over 1,500 students have participated in the Gateway to College (GTC) program, completed high school credit(s) and/or college-level classes. These are students who had previously dropped out of high school or were not progressing toward graduation due to poor academic performance or lack of attendance.

Educational Success for GTC students includes

- continued progress in the GTC program,
- completion of a high school diploma, GED, Associate’s Degree (or higher), as well as
- continued education at the secondary or post-secondary level after exiting the GTC program.

A point-in-time look at student progress indicates that 58% of GTC students are classified in one of the above educational success groups.

However, this rate does not capture the

Gateway to College Students

Educational Success = 58%

Based on 740 students (2000-04)
Gateway to College (cont.)

subsequent success of those students reported as “no credential or continued education” who stop out of the program and later return to continue their secondary or post-secondary education.

High School and College Academic Achievement
At entry into the program, Gateway to College students (average high school GPA = 1.7) lagged behind peers in academic achievement. However, by completion or exit from the program
- the GTC high school graduates earned an average of 73 college credits, 88% made academic honor list(s), and 73% continued in higher education,
- the GED completers earned an average of 17 college credits and 63% pursued additional education, and
- students who did not graduate or complete the GED exited the program with an average of 17 college credits and 38% continued their education.

Other High School Completion Programs
For high school age students interested in continuing their education but who do not yet have the reading, writing or math skills to be successful in the Gateway to College program, the following options are available.
- Multicultural Academic Program (MAP) enables individuals who also need to learn and/or improve their English skills, to develop these skills while working toward a GED or high school diploma.
- Youth Empowered to Succeed (YES!) helps students prepare for the GED or participation in the Gateway to College program, and/or enrollment in developmental, pre-college or college-level courses.

Dual Credit Program
The PCC Dual Credit program enables 11th and 12th grade high school students the opportunity to earn both high school and college credit for advanced coursework completed while in high school. These courses are equivalent in content and learner outcomes to the corresponding PCC course but are taught at the high school by qualified high school instructors. In addition, dual credit students pay $35 for all credits earned during the academic year compared to $64 assessed per credit for “typical” PCC credit courses.

During the 2005-06 academic year
- approximately 1,624 high school students participated in PCC Dual Credit,
- earned a total of 11,754 credits (an average of 7.2 credits per students),
- which would have cost each student an average of $428.21 if enrolled in the PCC courses outside of the dual credit program.

Students may complete Lower Division Collegiate credits in areas such as Biology, English, Math, and Writing which apply toward requirements for a two or four-year degree.

Professional Technical dual credit courses prepare students for work and/or continued education in a variety of areas including

**Dual Credit (cont.)**

Interior Design, Fire Protection, Computer Application Systems, Medical Professions, Welding and Auto Collision Repair. In recent years, the number of high schools participating in these programs (and thus dual credits awarded) has declined due to lack of funding within school districts and/or available qualified teachers.

**Subsequent Enrollment in Higher Education**

Dual credit students not only complete college credit while in high school, but are also likely to continue enrollment in college after graduation. Based on a cohort of 1,343 PCC dual credit high school seniors, approximately 70% attended PCC, another community college or university within three years of high school graduation.

**Conclusion**

In summary, Gateway to College and Dual Credit programs (both made possible through partnerships with area school districts) help high school age students take positive steps toward achieving a college education. Next year’s report will address other options available for high school age students (i.e. the Expanded Options Program) and also focus on PCC partnerships with colleges and universities.

**Notes and Resources**

Gateway to College: [http://www.pcc.edu/prepare/head-start/prep/gateway/](http://www.pcc.edu/prepare/head-start/prep/gateway/)

To be eligible a student must:
- be between 16 to 20 years old,
- have left high school before graduation or be at risk of dropping out,
- be behind in high school credits for age and grade (with fewer than 17 credits total),
- have a minimum 8th grade reading level,
- meet other writing and math standards at entry level, and
- live in a participating school district: Portland Public, David Douglas, Beaverton, Hillsboro, Tigard/Tualatin, Lake Oswego, Centennial or Sherwood.

*PCC Dual Credit Program 2005-06 Annual Report*, by PAVTEC Education Consortium

Goal 6: Community Report

We will facilitate growth and development of our district communities by accepting a leadership role and serving as a key educational resource to the community.

Key Measures
- Student participation in Service-Learning Programs
- Dollar value of Service-Learning volunteer hours
- Additional key measures for Community Goal 6 are under development and will be incorporated into next year’s report

“Service-Learning is a teaching and learning strategy that integrates meaningful community service with instruction and reflection to enrich the learning experience, teach civic responsibility, and strengthen communities.”

National Service Learning Clearinghouse

Key Measures
A total of 15,773 volunteer hours, with an estimated value of $284,544.92 was contributed to the local community in 2005-06. These volunteer hours were generated by the 1,221 PCC students who participated in service-learning projects.

Supporting Detail
The Service-Learning Experience
PCC students enhance skills, develop a sense of civic responsibility, and contribute to the community through participation in Service-Learning programs. Various academic courses, from over 40 disciplines, incorporate volunteerism into the learning experience as students serve 5-20 hours at participating non-profit agencies and complete related class assignments.

Quotes from PCC Student Service-Learning Participants:

“As I got talking with the guests, they confirmed what I had always thought. They were people and families not much different from my own, not much different from me. I could have easily been in their shoes if not for the safety net of my family.”

Writing Service-Learning Student, serving at a Goose Hollow Family Shelter

“I learned information that I would not have been able to obtain in any other way...I found that I felt more confident in what I was speaking about because I was a part of what I was speaking about...I honestly almost dropped the class when I found out that I was going to have to volunteer as a part of my grade. But I actually signed up intentionally for a class next term that is a service-learning class because I enjoyed it.”

Speech Service-Learning Student, serving at the Canby Food Bank

“I love doing service-learning projects. I’d like to see them more often in other classes. I don’t really care about the credit as much as getting to do something fun and valuable with classmates who I don’t always see in class (especially telecourse) outside of the classroom.”

Engineering Service-Learning Student, serving at the Community Cycling Center
PCC Community Partners
More than 150 non-profit community agencies offer service-learning opportunities for PCC students. These agencies, PCC Community Partners, collectively address a wide range of community interests and provide volunteer opportunities related to environmental, educational, health, and social service needs.

Quotes from PCC Service-Learning Community Partners:

“Here at Barnes, we have had several volunteers through PCC which have helped in our After-School Program...Yesterday I overheard a 5th grader ask one volunteer if she could become his new adopted sister...Our kids really benefit from having positive role models and the extra academic support.”

Barnes Elementary School

“We’ve had many PCC service learners help us over the years to weatherize homes for housebound senior citizens and people with disabilities. It’s great to see how professors link class theories to grassroots service while the students provide a direct service to members of our community. With the students’ help, we are able to make homes more comfortable and safe, lower utility bills, and conserve natural resources.”

Community Energy Project

“Having Portland Community College students who are working to realize their academic goals work with and role model for the primarily low income students we teach, some in federally failing schools is an invaluable connection...These relationships often inspire students to expand their perception of suitable career options by helping them see the steps to get there...”

Wolftree (Outdoor Environmental Education “Outdoor School”)

In summary, Service-Learning

- Contributes to Student Development through enhanced critical thinking skills, exposure to diverse communities, and increased awareness of societal needs,

- Strengthens the College Community Connection as faculty and agencies act as “co-educators” to students, and

- Supports the Work of Participating Agencies through the contributions of interested volunteers that bring creativity and knowledge to the partnering organizations.

GLOSSARY OF TERMS

**Academic Year** - means the year beginning July 1 and ending June 30 of the following year running concurrently with the fiscal year.

**Adult Basic Education (ABE)** - instruction in fundamental academic and pre-occupation skills for adults with less than the equivalent of ninth grade education. The main focus of instruction is on language arts and computational skills. The curriculum also includes life and citizenship skills.

**Appropriation** - an authorization granted by the Board of Directors to make expenditures and to incur obligations for specific purposes. An appropriation is limited to the fiscal year in which it is approved.

**Basis of accounting** - means the cash basis, the modified accrual basis or the accrual basis.

**Board** - means the Board of Directors of Portland Community College District.

**Cash basis** - means a basis of accounting under which transactions are recognized only in the period during which cash is received or disbursed.

**College Support Services** - means programs and activities related to institutional support including but not limited to executive management, fiscal operations, general administration and logistical services, administrative computing support, public relations and development, human resources activities and auxiliary enterprise operations.

**Community Education** - means courses which are offered to all persons living in the community which will enable them to broaden their educational, vocational and aesthetic horizons. It includes but is not limited to hobby and recreational programs, self-improvement courses, lecture series, seminars and institutes and similar educational and cultural programs.

**Credit Course** - applies to courses offered by the college as part of a lower-division transfer degree or approved occupational preparatory program.

**Credit Enrollment** - means students enrolled only in credit courses or for whom credit classes constitute the majority of their course load.

**Current year** - means the fiscal year in progress.

**Distance Education** - an all encompassing term used to either describe different technologies used to extend the educational capabilities of an institution (e.g., modem education, on-line course, hybrid course) or a means to provide educational opportunity to those incapable of receiving education through traditional classroom settings.

**English as a Second Language (ESL)** - courses designed to help individuals, whose native language is not English, for them to understand, speak and write the English language.

**Enterprise Fund** - a fund established to account for operations that are financed and operated in a manner similar to private business enterprises. It is the intent of the governing body that the cost of providing goods or services on a continuing basis be finance or recovered primarily through user charges and fees and that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control and accountability.
GLOSSARY OF TERMS

**Expenditure**- means, if the accounts are kept on the accrual basis or the modified accrual basis, decreases in net financial resources and may include encumbrances. If the accounts are kept on the cash basis, the term covers only actual disbursement, the drawing of the check or warrant for these purposes and not encumbrances, except that deferred employee compensation shall be included as a personal service expenditure where an approved deferred employee compensation plan is in effect for a municipal corporation.

**Fiduciary Fund** – a trust and agency fund used to account for assets held by a government unit in a trustee capacity or as an agent for individuals, private organizations, other government units and/or other funds.

**Fiscal year**- means a period of 12 months commencing on July 1 and closing on June 30.

**Full-Time Equivalent (FTE) Student**- means a student or combination of several students who carry among them, within a single academic year, a minimum number of clock hours of instruction, in any program. For the purpose of receiving state reimbursement, it means a student who carries 510 clock hours over three (3) terms of instruction. As used in budgeting for the number of employees, FTE means full-time equivalent position.

**Fund balance**- means the excess of the assets of a fund over its liabilities and reserves except in the case of funds subject to budgetary accounting where, prior to the end of a fiscal period, it represents the excess of the fund’s assets and estimated revenues over its liabilities, reserves and appropriations for the period.

**General Education Diploma (GED)**- a review of and instruction in basic academic skills to assist adults who have not graduated from high school to prepare for the five General Education Development tests. An Oregon Certificate of equivalency is issued by the Oregon Board of Education to individuals who earn passing scores.

**Governing body**- means the Board of Directors of the College.

**Grant**- means a donation or contribution of cash by a third party.

**Instruction**- means techniques or procedures used to conduct learning activities. For budgetary purposes, it includes, but is not limited to, expenditures relating to the salary and benefits of instructors, instructional supplies, teaching aides, references and methods of testing and evaluation.

**Instructional Support Services**- means activities and programs that support instruction. It includes, but is not limited to, administrative support, supplies and equipment, and office space.

**Internal service fund**- means a fund properly authorized to finance, on a cost reimbursement basis, goods or services provided by one organizational unit to other organizational units of the municipal College.

**Lower Division Transfer (LDT)**- means courses designated as transferable to most public and private colleges and universities. Courses may be applied to specific program requirements or to General Education elective requirements for Associate of Applied Science and Associate of General Studies Degrees.
GLOSSARY OF TERMS

**Modified accrual basis** - means the accrual basis of accounting adapted to the governmental fund-type measurement focus. Under this basis of accounting, revenues and other financial resource increments, such as bond proceeds, are recognized when they become susceptible to accrual, that is, when they become both measurable and available to finance expenditures in the current period.

**Non-Credit Enrollment** - means students enrolled only in non-credit courses or for whom non-credit classes constitute the majority of their course load.

**Physical Plant** - means programs and activities that are directly associated in providing operation and maintenance of college facilities including, but not limited to, physical plant administration, building maintenance, custodial services, utilities, landscape and ground maintenance and public safety administration.

**Population** - the number of inhabitants in the District according to certified estimates of population made by the State Board of Higher Education.

**Portal** - is a system of integrated programs designed to make it easier for a user to find information. A portal is simply a website that offers a doorway into a world of information. The portal provides access to personal records, business services and advanced communication tools in a collaborative environment. These tools include e-mail, chat, forums, course tools, targeted announcements and more. The purpose of all these integrated programs is to provide convenience and a sense of community to the user. A portal assists the user struggling with the current puzzle of diverse content and services in our journey to offer convenient, streamlined and individualized services.

**Professional Technical (or Vocational Education)** - means courses designed to build skills and knowledge which will qualify the student for employment in business and industry. It includes courses designated as Vocational Preparatory (entry level skills), Vocational Supplementary (skills upgrading) and Apprenticeship.

**Program** - a group of related activities aimed at accomplishing a major service or function for which the College is responsible.

**Publish or publication** - means the method of giving notice or making information or documents available to members of the general public.

**Revenue** - the gross receipts and receivables derived from taxes, tuition fees, state shared revenues and from all other sources, but excluding appropriations, allotments and return of principal from investment of surplus funds.

**Special Revenue Fund** - means a fund authorized and used to finance particular activities from the receipts of revenues that are legally restricted to expenditures for specific purposes.

**Student Support Services** - means programs and activities that support student needs including, but not limited to, student services administration, social and cultural development, counseling and career guidance, financial aid administration, admission, student records, intramurals and athletics and student organizations.

**Unduplicated Headcount** - means the number of students enrolled during a given term/year. A student is counted once for each campus where he/she attends classes; the same individual is counted only once for college-wide data.
