Resources on the Cascade Campus

The Computer Information Systems Department on the Cascade campus invites you to take advantage of the resources provided for CIS students.

Computer Labs on the Cascade Campus

The Computer Resource Center located in Terrell Hall, Room 218 is available for students to use. Find out about the hours of operation for the CRC.

Collette Keele can provide tutoring help in the lab. For her hours and more information visit her website or stop Terrell Hall, Room 218.

Advising

All students are encouraged to meet with a CIS faculty advisor from time to time in order to make an academic plan. New courses are added and coursework revised; it is important that students keep in touch with an advisor in order to stay up-to-date and on track towards their goals. Contact Glen Jenewein by phone at 503.978.5404 to make an appointment or visit his website for more information.

CIS Department Website for the Cascade Campus

Please visit the Cascade Campus CIS department website for more information about the CIS program, faculty, and staff on the Cascade Campus.
