Resources on the Sylvania Campus

The Computer Information Systems Department on the Sylvania campus invites you to take advantage of the resources provided for CIS students.

Computer Labs on the Sylvania Campus

The Computer Resource Center located in CC 206 is available for students to use. Students must complete a short on-line orientation in order to use the lab. Upon completion of the orientation a username and id will be assigned. Find out about the hours of operation for the CRC here.

Tutoring for CIS/CS Subjects and Classes at Sylvania

The Department provides tutors for CIS and CS students. Tutors are available at no charge and operate on a drop-in basis in the CRC, Monday through Saturday. Please visit our on-line tutor schedule to find out what hours a tutor is available for a class/subject in which you would like assistance. If you are interested in becoming a tutor, please contact the Department.

Advising

All students are encouraged to meet with a CIS faculty advisor from time to time in order to make an academic plan. New courses are added and coursework revised; it is important that students keep in touch with an advisor in order to stay up-to-date and on track towards their goals. Contact Kaaren Graham by email or call 503.977.4292 to make an appointment.

Student Resource Specialist

The Computer Technologies Division on the Sylvania Campus offers students a personal resource to assist in making their time at PCC a positive, productive experience. Lynn Montoya is our Student Resource Specialist available to assist you to find the resources you need during your time at PCC. From scholarship searches, to day-care options, to assistance in working with instructors, there are resources available to PCC students. Contact Lynn Montoya through email or by phone at 503.977.4096. You can also visit her website for information about certificates, degrees, and resources for students.
