

Policy on Credit Hour

Federal Definition of Credit Hour

In accordance with federal regulations effective July 1, 2011, both institutions and accrediting agencies are required to come into compliance with regulations regarding the definition and assignment of credit hours under Section 600.2 and 600.24.

Federal regulations mandate that all candidate and accredited institutions comply with the definition of the credit hour as set forth in Section 600.2, which defines the credit hour as:

Except as provided in 34 CFR 668.8(k) and (l), a credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than:*

- (1) One hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks for one semester or trimester hour of credit, or ten to twelve weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time; or*
- (2) At least an equivalent amount of work as required in paragraph (1) of this definition. For other academic activities as established by the institution, including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.*

Institutional Fulfillment of this Policy

As required by Section 600.24, the Commission will evaluate as part of the *Resources and Capacity* (Year Three) evaluation the extent to which the institution meets the federal definition by reviewing:

- (1) The adoption of a policy on credit hour for all courses and programs at the institution;
- (2) The processes the institution employs to review periodically the application of its policy on credit hour across the institution to assure that credit hour assignments are accurate and reliable; and
- (3) Any variations in the assignment of credit hours to assure that these variations conform to commonly accepted practices in higher education.

In implementing this policy, evaluation committees will review institutional documentation including the institution's policy on credit hour and expectations at each degree level, evidence of the implementation of institutional review processes to assure the consistency and accuracy of credit hour assignments in all courses and programs, and through sampling, a variety of course credit assignments

based on degree level, academic discipline, delivery modes, and types of academic activities. Evaluation committee findings will be included in reports to the Commission and where deficiencies are found, they shall be so noted, and the Commission will act to assure that these deficiencies are addressed through follow-up reporting. If the Commission finds systematic non-compliance with the policy regarding one of more programs at the institution, the Commission will promptly notify the Secretary of Education in addition to any follow-up required by the Commission.
