PURCHASE OF VIRTUALIZED SERVERS FOR PUBLIC SAFETY STORAGE NEEDS

PREPARED BY: John MacLean, Finance and Procurement Manager,
Planning and Capital Construction

FINANCIAL RESPONSIBILITY: Linda Degman, Director, Planning and Capital
Construction

APPROVED BY: Eric Blumenthal, Vice President, Finance and
Administration
Sylvia Kelley, Executive Vice President
Mark Mitsui, President

REPORT: The 2017 Bond includes an initiative for Public Safety electronic security upgrades. One of the projects that has been identified as a priority is the replacement of old analog security cameras and the addition of video analytics. These upgrades will require increased storage capabilities for our current servers.

At the October 2019 Board Meeting BA 20-054 was approved for the purchase of a Dell/EMC VxRail system for IT. To maintain compatibility, it is recommended that the same system is used for the Public Safety storage needs.

The Dell EMC VxRail is available through the State of Oregon Price Agreement 5603. Utilizing a State of Oregon contract is allowed as outlined in the 2020 PCC Rules of Procurement section CCR.205. CDWG is a provider of hardware products through ORPIN contract 5603 which is valid through 12/30/2020. The cost for the system is \$700,312.

The price above includes 5 years of extended warranty. Maintenance costs will come from the general fund.

This contract was competitively awarded by the State of Oregon using a standard "OMWESB Outreach Plan". No COBID certified firms are on the price agreement.

RECOMMENDATION: That the Board of Directors authorize the College to purchase the Dell EMC VxRail for a total cost of \$770,343 including 10% contingency. Funding will come from the 2017 Bond. Maintenance costs will be from the General Fund.
