21-166 APPROVE CONTRACT INCREASE FOR GEOTECHNICAL

SERVICES FOR THE SYLVANIA CAMPUS HT BUILDING

AND RELATED PROJECTS

PREPARED BY: John MacLean, Finance and Procurement Manager,

Planning and Capital Construction

FINANCIAL

RESPONSIBILITY: Linda Degman, Director, Planning and Capital Construction

APPROVED BY: Sylvia Kelley, Executive Vice President

Mark Mitsui, President

REPORT: As part of the 2017 Bond Program the College is underway

with a renovation of the HT Building on the Sylvania Campus. The scope of work includes a complete

modernization and renovation of the HT Building, renovation

and adaption of swing spaces, a comprehensive site improvement, safety and security, maintenance, and

information technology upgrades.

In September 2019 the College identified a need for Geotechnical services for this project. College procurement rules allow the direct award of Architectural/Engineering and Related Services contracts with an expected value of up to \$100,000. At that time the expected cost of these services would not need exceed \$100,000 the contract was awarded to Central Geotechnical Services.

Since that award the need for these services has grown and the current contract value is \$149,571. Considering future contract amendments, the College now expects this contract to reach \$200,000. College procurement rules allow for this type of contract to cross procurement thresholds without the need to rebid.

Authorization is requested to enter into contract amendments with Central Geotechnical Services up to a maximum of \$200,000.

Central Geotechnical Services are registered as both an Emerging Small Business and a Service-Disabled Veterans Business Enterprise with the Oregon Certification Office for Business Inclusion and Diversity.

RECOMMENDATION: That the Board of Directors authorize PCC to approve and execute amendments to the contract with Central Geotechnical Services for up to \$200,000. Funding will be from 2017 Bond funds.
