

PORTLAND COMMUNITY COLLEGE BOARD OF DIRECTORS

# **Business Meeting**

October 20, 2022

The Board of Directors meetings are held in accordance with open meeting laws and accessibility requirements. If a person with a disability needs assistance in order to attend or participate in a meeting, please notify the Board of Director's Office at least 48 hours in advance by calling (971) 722-4365 or by email at boardmember@pcc.edu, please use ACCESSIBILITY in the subject line.

#### **Board of Directors Goals 2022-2023**

#### **Belonging**

**Strategic Goal:** Ensure that the Board of Directors and the President both advance Diversity, Equity and Inclusion in measurable and strategic ways.

- Monitor the recruitment, hiring, and retention of employees of color.
- Monitor the awarding of contracts to D/M/W/ESB/SDV companies.
- Integrate diversity, equity, and inclusion into its policymaking processes and all
- board functions.
- Support a people-centered approach to the well-being of students and staff.

#### **Delivery**

**Strategic Goal:** The board holds itself and the college president accountable for improving equitable student success.

- Monitor semiannual performance on access, retention, and completion rates for all students; while reducing and eliminating disparities in these rates for low-income students and students of color.
- Utilize personal and professional networks to establish new strategic partnerships that bring new resources to the goal of improving outcomes for students (e.g., resources that address student housing and food insecurity, the PCC Campaign for Opportunity, etc.).
- Support the president in Workplace Transformation.

#### **Enterprise**

**Strategic Goal:** Through the development of policy, a strong relationship with the college president and effective public advocacy, ensure that Portland Community College is well positioned to meet the current and future needs of the communities it serves:

- Hire and on-board PCC's 8th President and communicate the PCC governance structure.
- Support successful on-boarding of the president.
- Engage in strategic advocacy with city, county, regional, state, and federal governments.
- Support successful passage for the 2022 Bond Measure.
- Engage in Board development by participating in evaluations, professional development, and training.
- Support the strategies around the accreditation recommendations and actively contribute to a successful accreditation cycle.

#### Workforce

**Strategic Goal:** Advocate for workforce development.

- Understand strategic-level workforce data to support the alignment of pathways to close talent and opportunity gaps and move students into quality, livable wage careers, increasing economic mobility.
- Advocate for and support state and federal investments in community colleges to promote equitable workforce development.

#### The PCC Board of Directors Working Agreement:

- Treat each other with respect
- Plan agenda thoughtfully/Conduct effective meetings
- Listen with an empathetic mind and heart
- Be prepared
- Be honest, act with integrity

- Create a positive working environment
- Call in/Call out
- Be aware of impact as well as intent
- Stay true to board goals
- Stay engaged
- Enable/empower all voices

<u>23-060</u> <u>ACKNOWLEDGE FINAL EVALUATION OF USE OF</u>

ALTERNATIVE CONTRACTING METHOD FOR THE

ROCK CREEK CAMPUS DEALER SERVICES TECHNOLOGY BUILDING (DSTB) PROJECT

PREPARED BY: John MacLean, Finance & Procurement Manager,

Planning and Capital Construction

FINANCIAL

RESPONSIBILITY: Rebecca Ocken, Interim Director, Planning & Capital

Construction

APPROVED BY: Eric Blumenthal, Executive Vice President, Finance &

Administration

Dr. Adrien L. Bennings, President

STRATEGIC THEME: Enterprise: Cultivate a long-term sustainable college

enterprise

REPORT: ORS 297C.335 requires the College to obtain Board

approval prior to using an alternative contracting method.

At the October 18, 2018 meeting, the Board, through BA 19-039, approved the use of the Design/Build (DB) contracting method for the DSTB project at the Rock

Creek campus.

At the January 17, 2019 meeting the Board, through BA 19-066, approved the award of a contract to the Robert

Evans Company for this project.

ORS 297C.355 requires an evaluation at completion of

the project that covers the following topics;

(1)The actual project cost as compared with original

project estimates;

(2) The amount of any guaranteed maximum price;

(3)The number of project change orders issued by the

contracting agency;

(4)A narrative description of successes and failures during the design, engineering and construction of the

project; and

(5)An objective assessment of the use of the alternative

contracting process as compared to the findings required by ORS 279C.335 (Competitive bidding).

The evaluation is presented below;

### (1) The actual project cost as compared with original project estimates;

The actual project cost was \$8,606,214 compared to the initial project estimate of \$5,300,000. The initial project budget was based on a high-level, feasibility study. When more detailed programming was completed, it was clear that the initial budget was too low. Funds were added to the project budget rather than reducing the scope of work.

### (2) The amount of any guaranteed maximum price (GMP);

The GMP was \$6,473,299.

### (3) The number of project change orders issued by the contracting agency;

Thirteen change orders affecting the contract amount were issued totaling \$1,425,983. The bulk of these were owner requested changes, including increases in scope identified after the design phase was completed.

#### (4) A narrative description of successes and failures during the design, engineering and construction of the project;

The Dealer Services Technology Building (DSTB) project delivered on a unique industry partnership and custom program needs despite a number of setbacks due to the pandemic and associated issues with global supply lines and labor shortages. The project experienced delays due to shortages and extended lead times for all materials and equipment. Some additional costs were incurred due to owner changes to the program. This resulted in additional costs to the project as not all program needs were identified in a timely manner. The contractor maintained open communication regarding these delays and allowed for open dialogue on how best to mitigate these issues.

- (5) An objective assessment of the use of the alternative contracting process as compared to the findings required by ORS 279C.335 (Competitive bidding);
- (a) The exemption is unlikely to encourage favoritism in awarding public improvement contracts or substantially diminish competition for public improvement contracts.

**Comment**: Competitive RFP processes enabled PCC to solicit qualifications-based proposals for this project. The Design/Build solicitation process was formally advertised in local trade and business publications. Two proposals were received with responses required on specific criteria. Proposal evaluations were conducted and interviews were held with the highest-ranking proposers.

- b) Awarding a public improvement contract under the exemption will likely result in substantial cost savings and other substantial benefits to the contracting agency or the state agency that seeks the exemption to the contracting agency or the public. In approving a finding under this paragraph, the local contract review board shall consider the type, cost and amount of the contract and, to the extent applicable to the particular public improvement contract or class of public improvement contracts, the following:
- (A) How many persons are available to bid;

**Comment**: PCC posted the Request for Proposals on numerous state and commercial websites and in local trade and business newspapers and conducted outreach to COBID registered firms. The College received two proposals. Each proposal was evaluated, graded and interviews were held with the highest-ranking teams.

The successful general contractor advertised in local trade and business publications including those targeting minority and disadvantaged subcontractors for work not performed by the Design/Builder. Multiple bids for the various scopes of work were received with the contracts awarded to the lowest responsive and responsible bidders. A number of the subcontracts were awarded to state-certified minority, woman-owned and emerging

small businesses (MWESB) contractors. 25% of the contract value was awarded to MWESB firms which exceeded the project goals.

#### (B) Operational, Budget and Financial Data;

**Comment**: The final project costs were noted in the findings above. The final construction costs included owner-accepted, value engineered items, owner-directed and design-related changes, allowances, alternates added back into the project scopes and other factors for final GMP costs.

#### (C) Public benefits;

**Comment**: There were significant benefits to the public, including:

- I. Qualifications-based RFP selection process allowed PCC to award the contracts to the firm it believed was the most responsive and technically capable to manage the scope of work.
- II. The Design/Builder completed the team and was actively involved in design and constructability issues.
- III. Competitively bid trade work ensured the College received the best value.
- IV. 1st tier trade partners were secured early and provided valuable preconstruction services to the team. Their involvement led to a more comprehensive and beneficial value engineering process and provided sound advice and technical expertise to the design and owner teams.
- V. Focus on PCC's outreach and diversity in the workplace goals resulted in the Design/Builder placing an emphasis on minority participation and mentoring and monitoring of actual contracting achievements.
- VI. Open book transparency of the project's costs enabled the College to maximize the use of bond funds while keeping costs in check. The project budget was reconciled with deductive change orders as unused project funds or contractor contingency funds were returned to the College.
- VII. Comprehensive construction scheduling ensured that the work was completed in sequences that supported phased relocations of programs and staff and ensured continuous campus operations with minimum disruptions.

#### (D) Value engineering techniques;

**Comment**: The design and construction teams worked together to help control costs and maintain the overall construction budget. Rigorous value engineering efforts conducted during the design development phase identified potential savings and provided opportunities to reduce costs across the project.

#### (E) Specialized expertise;

**Comment**: The Design/Builder was required to have proven expertise in complex construction projects in order to accommodate the creation of a new building of this type.

(F) Any likely increases in public safety;

**Comment**: PCC was able to review the safety history of the proposing firms as a result of the selection process.

(G) Reduce risks to the contracting agency;

**Comment**: The Design/Build process fostered an open environment whereby risks were addressed by the owner/architect/contractor stakeholder teams before adverse consequences revealed themselves.

(H) Whether granting the exemption will affect the sources of funding;

**Comment**: The exemption from competitively bidding the general contracting services did not affect the projects' funding sources. Funding came from the general obligation bonds passed by voters in the November 2017 elections

#### (I) Market conditions;

**Comment**: Construction market conditions were very challenging at the time the Board adopted the findings and approved the alternative contracting delivery. COVID-19 affected the capacity of sub-contractors to take on work and caused significant price and schedule impacts for some materials. Given this, it is unlikely a traditional contracting process would have increased

competition.

(J) Technical complexity;

**Comment:** The project was new development for the College however the Design/Build team had built similar buildings for industry partners. This knowledge proved beneficial in developing the design for the building.

(L) Whether the public improvement will be occupied or unoccupied during construction;

**Comment:** This was new construction at the Rock Creek Campus. A large part of the work was completed while the College was closed for COVID but the final stages were done as students began to return to campus.

(M) Whether the public improvement will require single or multiple phases of construction work;

**Comment:** This was a single phase project.

(N) Whether the contracting agency has retained under contract, and will use contracting agency or state agency personnel, consultants and legal counsel;

**Comment:** No contracting agency or state agency personnel, consultants or legal counsel retained under contract, were used in the completion of this project.

RECOMMENDATION: That the Board of Directors acknowledge the final evaluation of the use of the alternative contracting method for the Rock Creek Dealer Services Technology Building.

REPORT: ORS 297C.335 requires the College to obtain Board

approval prior to using an alternative contracting method. At its August 18, 2016 meeting, the Board, through BA 17-021, approved the use of the Design/Build (DB) contracting method for the OMIC project in Scappoose.

At the May 17, 2018 board meeting, through BA 18-112, the board approved the award of a contract to

Mortenson Construction for this project.

ORS 297C.355 requires an evaluation at completion of the project that covers the following topics;

- (1) The actual project cost as compared with original project estimates;
- (2) The amount of any guaranteed maximum price;
- (3) The number of project change orders issued by the contracting agency;
- (4) A narrative description of successes and failures during the design, engineering and construction of the project; and
- (5) An objective assessment of the use of the alternative contracting process as compared to the findings required by ORS 279C.335 (Competitive bidding).

The evaluation is presented below;

### (1) The actual project cost as compared with original project estimates;

The actual project cost was \$30,849,704 compared to an initial project estimate of \$9,000,000. Very early in the design process it became clear that the original conceptual design for the building was undersized. The Design/Build team and the College worked together to resize the design to meet the College's needs.

### (2) The amount of any guaranteed maximum price (GMP);

The GMP was \$19,711,658.

### (3) The number of project change orders issued by the contracting agency;

Twenty-one change orders affecting the contract amount were issued totaling \$2,491,767. The bulk of these were owner requested changes, including a change from owner supplied/contractor installed equipment to contractor supplied and installed equipment. There was one change order for \$145,378 to cover increased costs due to the impact of COVID and wildfires on the project.

## (4) A narrative description of successes and failures during the design, engineering and construction of the project;

The Building design was inspired by the University of Sheffield Advanced Manufacturing Research Center, which was a partnership with Boeing in Sheffield, England. Beginning in 2018 PCC selected to proceed with its first Progressive Design Build (PDB) project and solicited services via a robust RFP process, selecting Mortenson Construction and Hennebery Eddy Architects as design team partners. Design moved quickly as expected with a PDB. The team explored a number of options and even visited several similar institutions including Chemeketa Community College and Clark College, as well as a 2-day tour of the Gateway Center in Racine, MI. Additionally the team worked with local

industry partners to gain insight and maintain the key building features and stay within budget. One of these key features was the ability to highlight or "showcase" the exciting programs in the building. PCC wanted students and visitors to see the activity in adjoining rooms so the design included lots of glass walls for transparency and to garner interest in the programs of those who entered the building. Other key needs focused on adjacency of programs. Spaces such as the Programmable Logic Controllers (PLC) Studio and Mechatronics labs were placed next to one another because of their inherent connections and similarities in study. Construction began in December of 2019 and finished on time, receiving Certificate of Occupancy exactly 364 days from the start of construction. This is a huge achievement in light of several adversities including COVID and statewide wildfires. Through it all, the schedule was maintained with minimal cost impacts.

Once the building was complete and faculty and staff began moving in, it was realized that some of the areas, primarily the machine bay and welding area, needed modifications to better align with the updated curriculum. Due to staffing turn-over, this new information was not available to the project team during design and preconstruction.

The building, with modifications, opened on time and now accommodates the college's current needs as well as flexibility built-in for OMIC to expand and accommodate future expansion.

- (5) An objective assessment of the use of the alternative contracting process as compared to the findings required by ORS 279C.335 (Competitive bidding);
- (a) The exemption is unlikely to encourage favoritism in awarding public improvement contracts or substantially diminish competition for public improvement contracts.

**Comment**: Competitive RFP processes enabled PCC to solicit qualifications-based proposals for this project. The Design/Build solicitation process was formally advertised in local trade and business publications. Six proposals were received with responses required on specific

criteria. Proposal evaluations were conducted and interviews were held with the highest-ranking proposers.

b) Awarding a public improvement contract under the exemption will likely result in substantial cost savings and other substantial benefits to the contracting agency or the state agency that seeks the exemption to the contracting agency or the public. In approving a finding under this paragraph, the local contract review board shall consider the type, cost and amount of the contract and, to the extent applicable to the particular public improvement contract or class of public improvement contracts, the following:

(A) How many persons are available to bid;

**Comment**: PCC posted the Request for Proposals on numerous state and commercial websites and in local trade and business newspapers and conducted outreach to COBID registered firms. The College received six proposals. Each proposal was evaluated, graded and interviews were held with the highest-ranking teams.

The successful general contractor advertised in local trade and business publications including those targeting minority and disadvantaged subcontractors for work not performed by the Design/Builder. Multiple bids for the various scopes of work were received with the contracts awarded to the lowest responsive and responsible bidders. A number of the subcontracts were awarded to state-certified minority, woman-owned and emerging small businesses (MWESB) contractors. 14% of the contract value was awarded to MWESB firms.

(B) Operational, Budget and Financial Data;

**Comment**: The final project costs were noted in the findings above. The final construction costs included owner-accepted, value engineered items, owner-directed and design-related changes, allowances, and alternates added back into the project scopes and other factors for final GMP costs.

(C) Public benefits;

**Comment**: There were significant benefits to the public,

#### including:

- I. Qualifications-based RFP selection process allowed PCC to award the contracts to the firm it believed was the most responsive and technically capable to manage the scope of work.
- II. The Design/Builder completed the team and was actively involved in design and constructability issues. III. Competitively bid trade work ensured the College received the best value.
- IV. 1st tier trade partners were secured early and provided valuable preconstruction services to the team. Their involvement led to a more comprehensive and beneficial value engineering process and provided sound advice and technical expertise to the design and owner teams.
- V. Focus on PCC's outreach and diversity in the workplace goals resulted in the Design/Builder placing an emphasis on minority participation and mentoring and monitoring of actual contracting achievements.
- VI. Open book transparency of the project's costs enabled the College to maximize the use of bond funds while keeping costs in check. The project budget was reconciled with deductive change orders as unused project funds or contractor contingency funds were returned to the College.
- VII. Comprehensive construction scheduling ensured that the work was completed in sequences that supported phased relocations of programs and staff and ensured continuous campus operations with minimum disruptions.

#### (D) Value engineering techniques;

**Comment**: The design and construction teams worked together to help control costs and maintain the overall construction budget. Rigorous value engineering efforts conducted during the Design Development phase identified potential savings and provided opportunities to reduce costs across the project.

#### (E) Specialized expertise;

**Comment**: The Design/Builder was required to have proven expertise in complex construction projects in order to accommodate the creation of a new building of this type.

(F) Any likely increases in public safety;

**Comment**: PCC was able to review the safety history of the proposing firms as a result of the selection process.

(G) Reduce risks to the contracting agency;

**Comment**: The Design/Build process fostered an open environment whereby risks were addressed by the owner/architect/contractor stakeholder teams before adverse consequences revealed themselves.

(H) Whether granting the exemption will affect the sources of funding;

**Comment**: The exemption from competitively bidding the general contracting services did not affect the projects' funding sources. Funding came from the general obligation bonds passed by voters in both the November 2008 and 2017 elections.

#### (I) Market conditions;

**Comment**: Construction market conditions were very challenging at the time the Board adopted the Findings and approved the alternative contracting delivery. COVID-19 affected the capacity of sub-contractors to take on work and caused significant price and schedule impacts for some materials. Given this, it is unlikely a traditional contracting process would have increased competition.

(J) Technical complexity;

**Comment:** The project was new development for the College and the Design/Build team looked at a number of similar projects across the US and UK in designing the building to meet the needs of both the College and our industry partners.

(L) Whether the public improvement will be occupied or unoccupied during construction;

**Comment:** This was new construction on a greenfield site.

(M) Whether the public improvement will require single or multiple phases of construction work;

**Comment:** This was originally a single-phase project but as noted above some work was completed after classes started.

(N) Whether the contracting agency has retained under contract, and will use contracting agency or state agency personnel, consultants and legal counsel;

**Comment:** No contracting agency or state agency personnel, consultants or legal counsel retained under contract, were used in the completion of this project.

RECOMMENDATION: That the Board of Directors acknowledge the final evaluation of the use of the alternative contracting method for the Oregon Manufacturing Innovation Training Center.

INSTRUCTION FOR 2022-23 THROUGH 2025-26

PREPARED BY: Ryan Clark, Dean, Enrollment Strategy & Services

APPROVED BY: Dr. Heather Lang, Interim Vice President, Student Affairs

Dr. Adrien L. Bennings, President

STRATEGIC THEME: Enterprise: Cultivate a long-term sustainable college

enterprise

REPORT: The academic year, as defined in the Faculty and

Academic Professional Agreement, runs Fall term through Summer term. Each year, the calendar of instruction is reviewed and any necessary changes are

put forth for approval.

This revision adds three (3) additional college holidays between Fall and Winter terms to allow for a Winter Break between the Christmas and New Year's holidays.

RECOMMENDATION: That the Board of Directors adopt the attached Portland

Community College Calendar of Instruction for 2022-23

through 2025-26.

23-066 NAME THE DENTAL HYGIENE CLASSROOM IN THE

VANPORT BUILDING DENTAL SCIENCES PROGRAM SPACE IN HONOR OF DIANE HARDIMAN SMITH

PREPARED BY: Crystal Froembling, Major Gifts Director, PCC Foundation

FINANCIAL

RESPONSIBILITY: PCC Foundation

APPROVED BY: Executive Committee, PCC Foundation

Dr. Adrien L. Bennings, President

STRATEGIC THEME: Delivery: Redefine time, place, and systems of educational

delivery to create a more learner-centric ecosystem; Workforce: Respond to community and workforce needs by developing a

culture of agility

REPORT: Diane Hardiman Smith was a passionate supporter of Portland

Community College and the PCC Dental Hygiene Program. Before retirement, Diane taught in the PCC Dental Hygiene program for nearly 30 years. In 2021, Diane designated nearly her entire estate to endow the annual scholarship she had

funded for several years.

Diane's gift established the Diane Hardiman Smith Endowed Memorial Scholarship, which will support scholarships for Dental Hygienists in perpetuity. The total estate is expected to yield in excess of \$1.5M for this purpose. (More than \$600,000 has

been received to date towards this.)

In recognition of this generous leadership gift, the College

agrees to publicly recognize and honor the Donor by

recognizing this generous gift publicly, naming a classroom in

the Dental Sciences Program in honor of Diane.

The Vanport building is part of a condo agreement between four owners on the PSU campus. PCC owns the third floor of the

building, with the space dedicated to our Dental Sciences

program.

RECOMMENDATION: That the PCC Board of Directors approves the naming of the

Dental Hygiene Classroom at the Vanport Building in memory of

Diane Hardiman Smith.

<u>23-067</u> <u>APPOINTMENT OF BOARD ROLE</u>

PREPARED BY: Jeannie Moton, Executive Coordinator, Board of Directors

APPROVED BY: Dr. Adrien L. Bennings, President

Tiffani Penson, Chair

STRATEGIC THEME: Belonging: Transform our learning culture toward creating

a sense of belonging and well-being for every student; Delivery: Redefine time, place, and systems of educational

delivery to create a more learner-centric ecosystem;

Workforce: Respond to community and workforce needs by developing a culture of agility; Enterprise: Cultivate a long-

term sustainable college enterprise

REPORT: Each year board members are asked to serve in various

roles based on work internally and externally around the

college community.

In addition to the approval of 23-042 Appointment of Board Roles at the August 18, 2022 Board of Directors meeting,

Chair Penson seeks approval for the following

appointment:

o DEI (OCCA) Delegate: Kristi Wilson

RECOMMENDATION: The Board approve the appointment as recommended

by Chair Penson for the FY 2022-2023.

<u>23-068</u> APPROVE PORTLAND COMMUNITY COLLEGE 2022-

2023 PRESIDENT'S GOALS

PREPARED BY: Jeannie Moton, Executive Coordinator, Office of the President

APPROVED BY: Dr. Adrien L. Bennings, President

Tiffani Penson, Chair

STRATEGIC THEME: BELONGING Transform our learning culture toward

> creating a sense of belonging and well-being for every student; DELIVERY Redefine time, place, and systems of educational delivery to create a more learner-centric ecosystem; ENTERPRISE Cultivate a long-term

sustainable college enterprise; WORKFORCE Respond to community and workforce needs by developing a culture

of agility

REPORT: In accordance with Section 11 of the President's contract,

which states:

On or after July 1 of each fiscal year, the Board will establish professional goals for the PRESIDENT and goals for the COLLEGE. The PRESIDENT will submit her recommended goals to the Board, and the Board and the PRESIDENT will confer about them before final adoption by the Board. The goals will be established by resolution at a public meeting. Members of the Board will be given opportunity to comment on proposed goals prior to adoption by the Board.

At the PCC Board Retreat on the August 17, 2022, Dr. Bennings presented a draft of her proposed goals.

The Board of Directors reviewed the proposed goals at the September 15, 2022 Board Work Session.

A summary of those goals is presented here:

PRESIDENT'S TRANSITION

To continue to focus on the first year's expectations, designed to further orient the President into the role.

#### EQUITABLE STUDENT SUCCESS

#### STRATEGIC ENROLLMENT MANAGEMENT

- Ensure focus, development, completion, and implementation of the strategic enrollment management plan.
- Plan, develop, and implement a comprehensive institutional-level enrollment management strategy. Monitor, track, and report on key strategic plan initiatives related to enrollment management

#### **TUITION & FEES**

- Conduct a review of the current fee structure at PCC, to ensure that college fees align to student needs and PCC's financial goals, and make recommendations to the board. Three Primary Categories:
  - Online Learning Fee/Technology/College Service
  - 2. Parking Permits/Student Transportation Fee
  - 3. Student Activity Fee

#### RE-ORGANIZATIONAL ALIGNMENT

- Re-envisioning the alignment of the Office of Equity & Inclusion and Human Resources; includes working with Workplace Change to complete assessment, identify actionable recommendations
- Assessment of infrastructure realignment of institutional level operations and functions
- Unifying the four campuses and multiple centers around the recent ONE COLLEGE re-organization resulting in clarification of roles and a clear decision-making process.
- Establish permanent plans for interim positions, functions, responsibilities

#### ACCREDITATION

 Develop a plan with tangible outcomes to ensure responsiveness to NWCCU accreditation recommendations.

#### GOVERNANCE

In alignment with B 213: Shall adopt operating policies and procedures as required by Board policy, as otherwise directed by the Board, or as the President deems necessary for the effective administration of the college;

- PRESIDENT'S CABINET: Revamp and clarify the scope, purpose, and membership of the President's Cabinet
- SHARED GOVERNANCE: Establish a formal framework of shared governance for the District
- POLICY GOVERNANCE: Support, guide, and ensure a comprehensive alignment of policies and procedures

#### BUDGET & FISCAL SUSTAINABILITY

In alignment with B 213: Shall prepare and submit a proposed college budget for the Board's review and approval pursuant to Local Budget Law (ORS 294.305 to 294.565) and shall properly administer the budget as adopted;

#### DIVERSITY, EQUITY, AND INCLUSION

 Continue to build and enhance the efforts of Equity, Diversity, & Inclusion, with a focus on belonging and inclusiveness.

#### OPERATIONS & PLANNING

- PROCESS: Review institutional processes to determine areas of improvement and redundancies, and ensure effective alignment in operations
- WORKPLACE: Coordinate and establish an institutional approach toward workplace transformation.
- SYSTEMS & TECHNOLOGY: Plan and deploy a college-wide approach to assess current ERP challenges, institutional readiness, financial needs, and a comprehensive plan for phased transition over the next 3–4 years.
- DATA: Structure and refine systems to access, disaggregate, and integrate data throughout institutional operations - Human

- Resources, Financial Services, and Student Services
- BUSINESS PROCESS REENGINEERING: Guide and inform the reconstruction of ineffective business processes that links people, strategy, and systems development

#### COMMUNITY PARTNERSHIPS

- Deepen connections with broader diverse communities through organized, strategic, and culturally responsive efforts.
- Develop, adopt, and implement an institutional framework for community engagement
- Assess and inventory current efforts and connections between PCC and community groups

#### • PEOPLE & CULTURE

- Champion the mission of a collaborative culture while working to positively impact institutional morale
- Support a people-centric culture to bring growth, learning, and a sense of purpose into the employee experience
