The figure shows an aerial map of a study area with two plots outlined. The top plot contains four colored regions: a large red area labeled '83%', a smaller red area labeled '100%' adjacent to it, a yellow area labeled '50%', and a blue area labeled '17%'. The bottom plot is larger and contains several colored regions: orange areas labeled '67%', '100%', '100%', '67%', '67%', '67%', '83%', and '67%'; yellow areas labeled '50%', '50%', and '50%'; and blue areas labeled '33%', '33%', and '33%'. Dashed vertical lines connect the two plots. At the bottom right, there is a horizontal color scale bar with segments corresponding to 0, 20, 40, 60, 80, and 100%, transitioning from blue to red. Next to the scale is a north arrow pointing upwards.

The image displays four isometric floor plan diagrams of a building complex, arranged vertically to show the progression of renovation work. The plans are color-coded to represent the percentage of renovation completion for each room: red for 100%, orange for 67%, yellow for 50%, and blue for 0%.

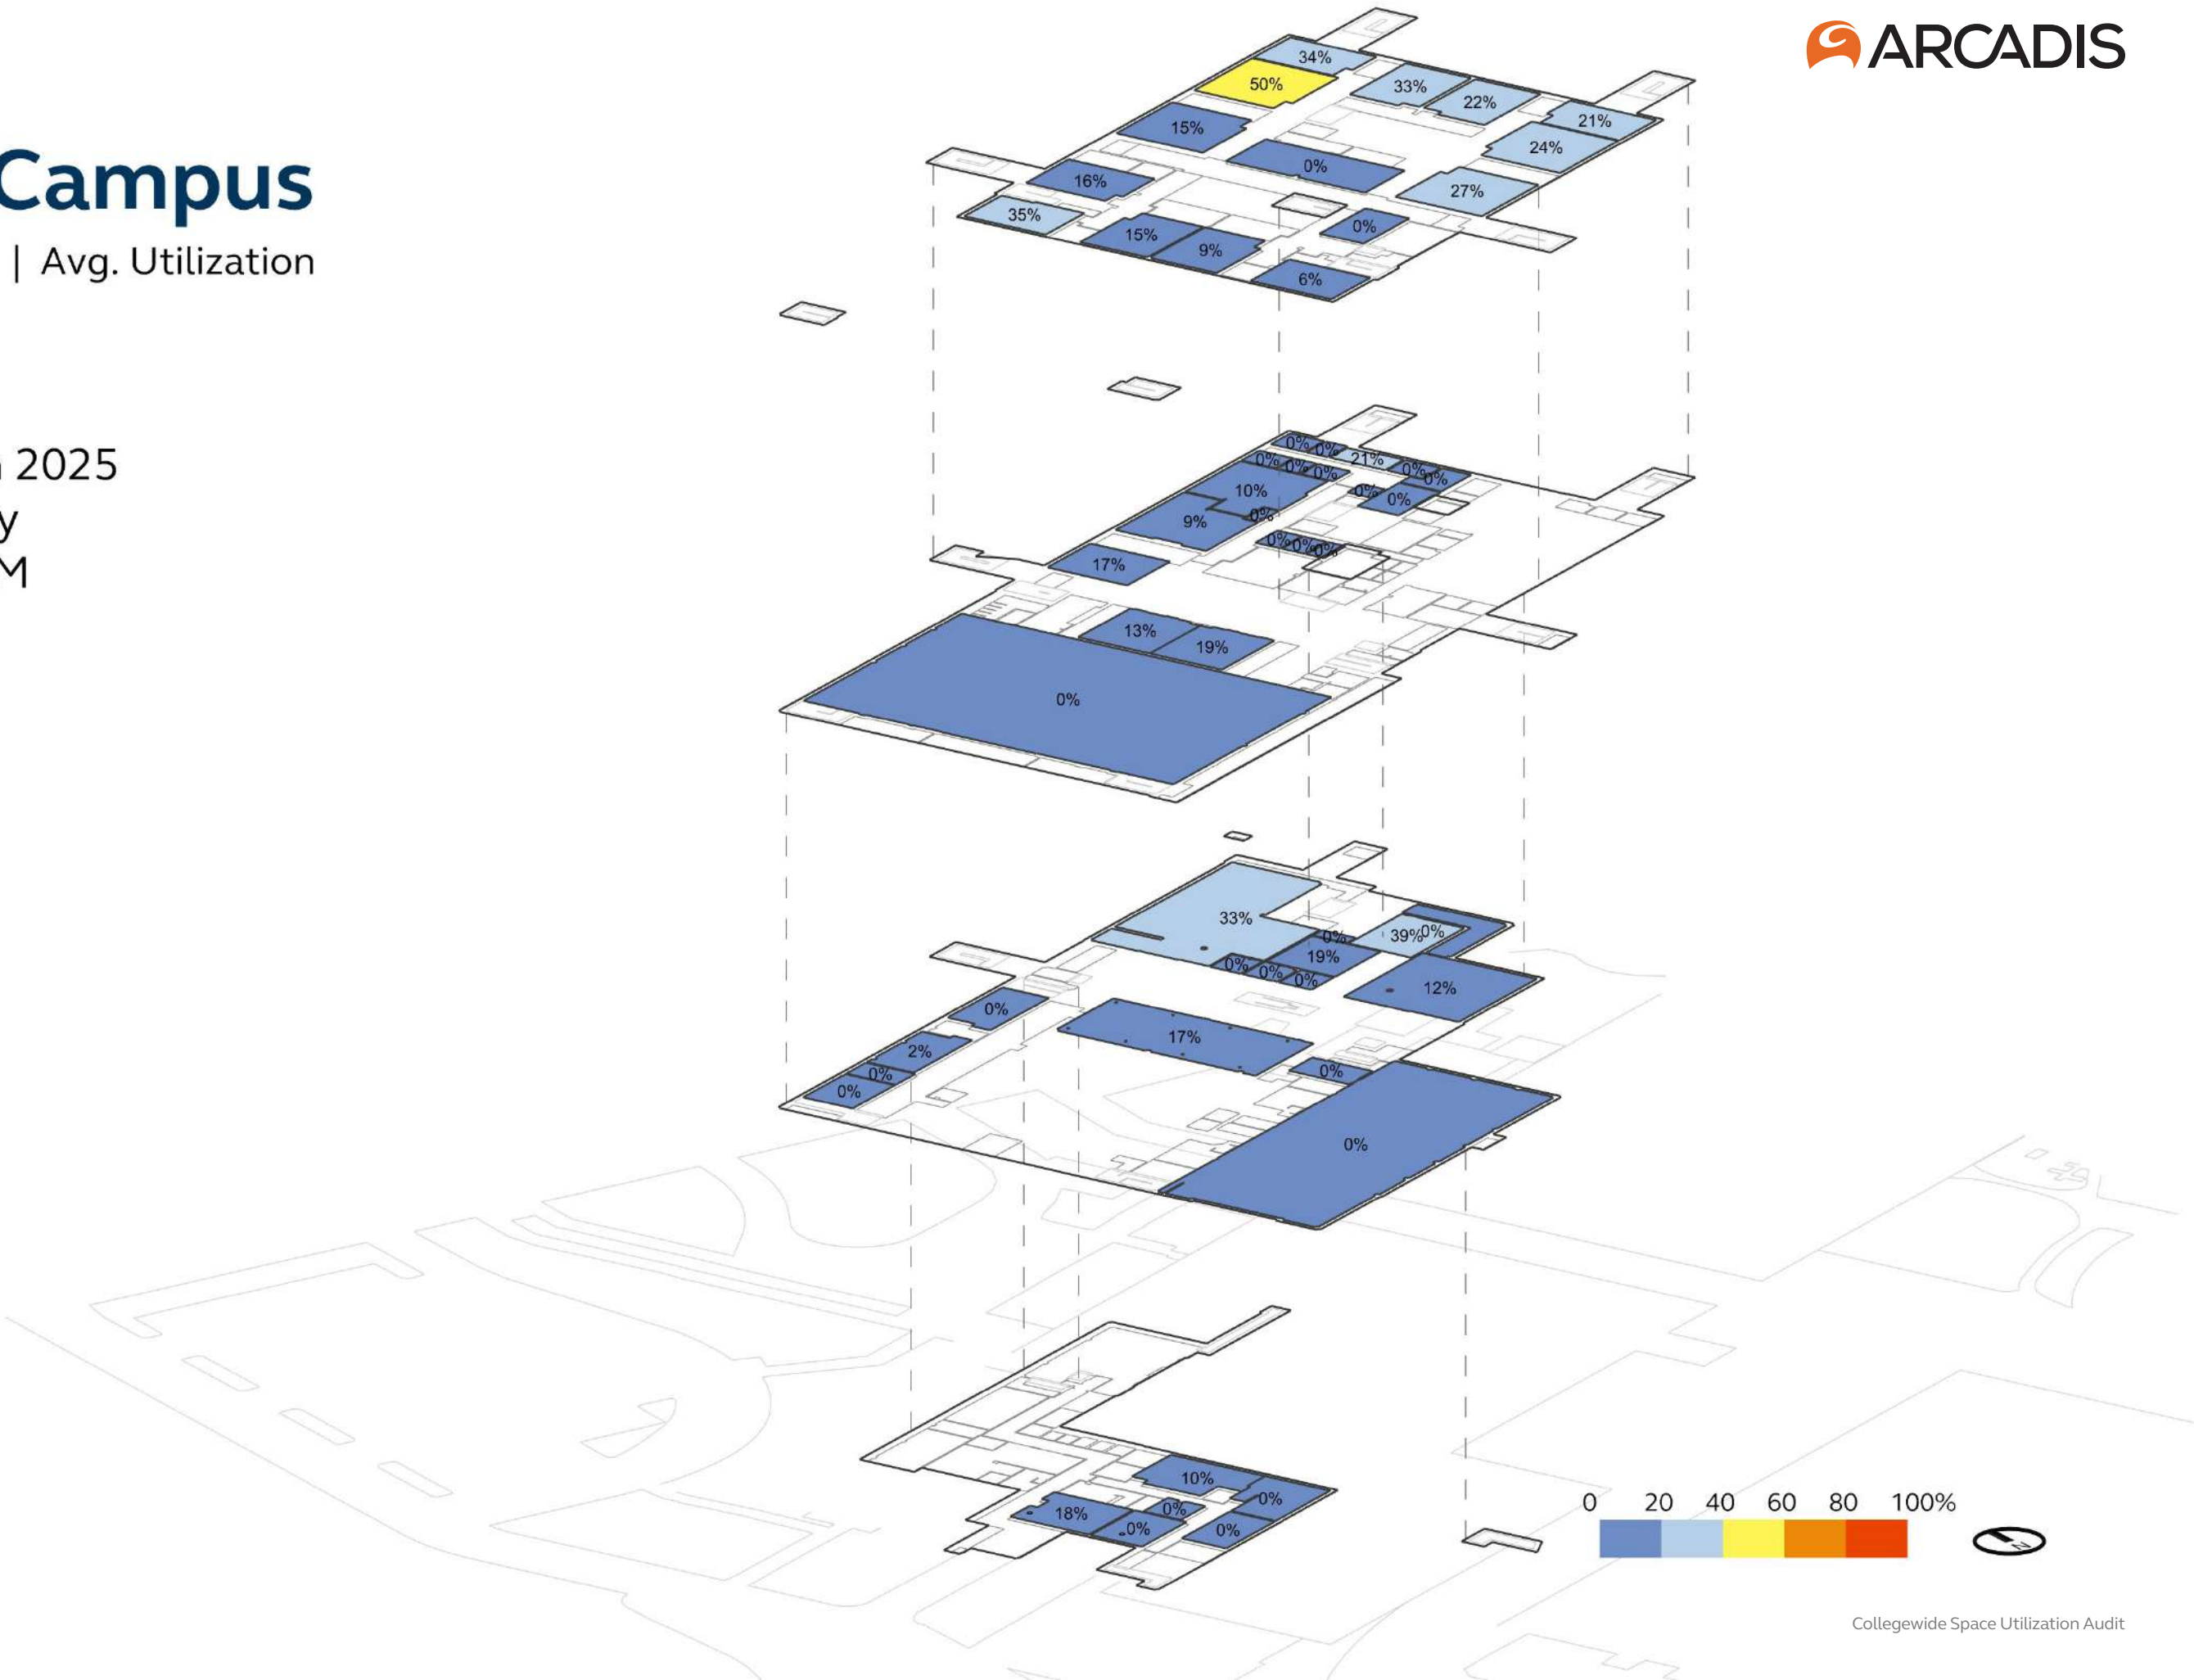

- Top Plan:** Shows the highest level of completion. Most rooms are red (100%), with some orange (67%) and blue (0%) rooms. The central corridor area is blue.
- Second Plan:** Shows a slightly lower level of completion. More rooms are orange (67%) and yellow (50%), with some blue (0%) rooms. The central corridor area is blue.
- Third Plan:** Shows a lower level of completion. More rooms are blue (0%), with some orange (67%) and yellow (50%) rooms. The central corridor area is blue.
- Bottom Plan:** Shows the lowest level of completion. Most rooms are blue (0%), with some orange (67%) and yellow (50%) rooms. The central corridor area is blue.

A scale bar at the bottom right indicates a distance of 0 to 20 meters.
