Building Design Update  
Next Steps

# Project Schedule

# April 17, 2025 Design Committee Meeting

The design team presented floor plans for the CT building as well as preliminary 3D renderings of the central “Hub” space - a key communal area which will be shaped by the committee’s input to best supports student interaction, collaboration, and well-being.

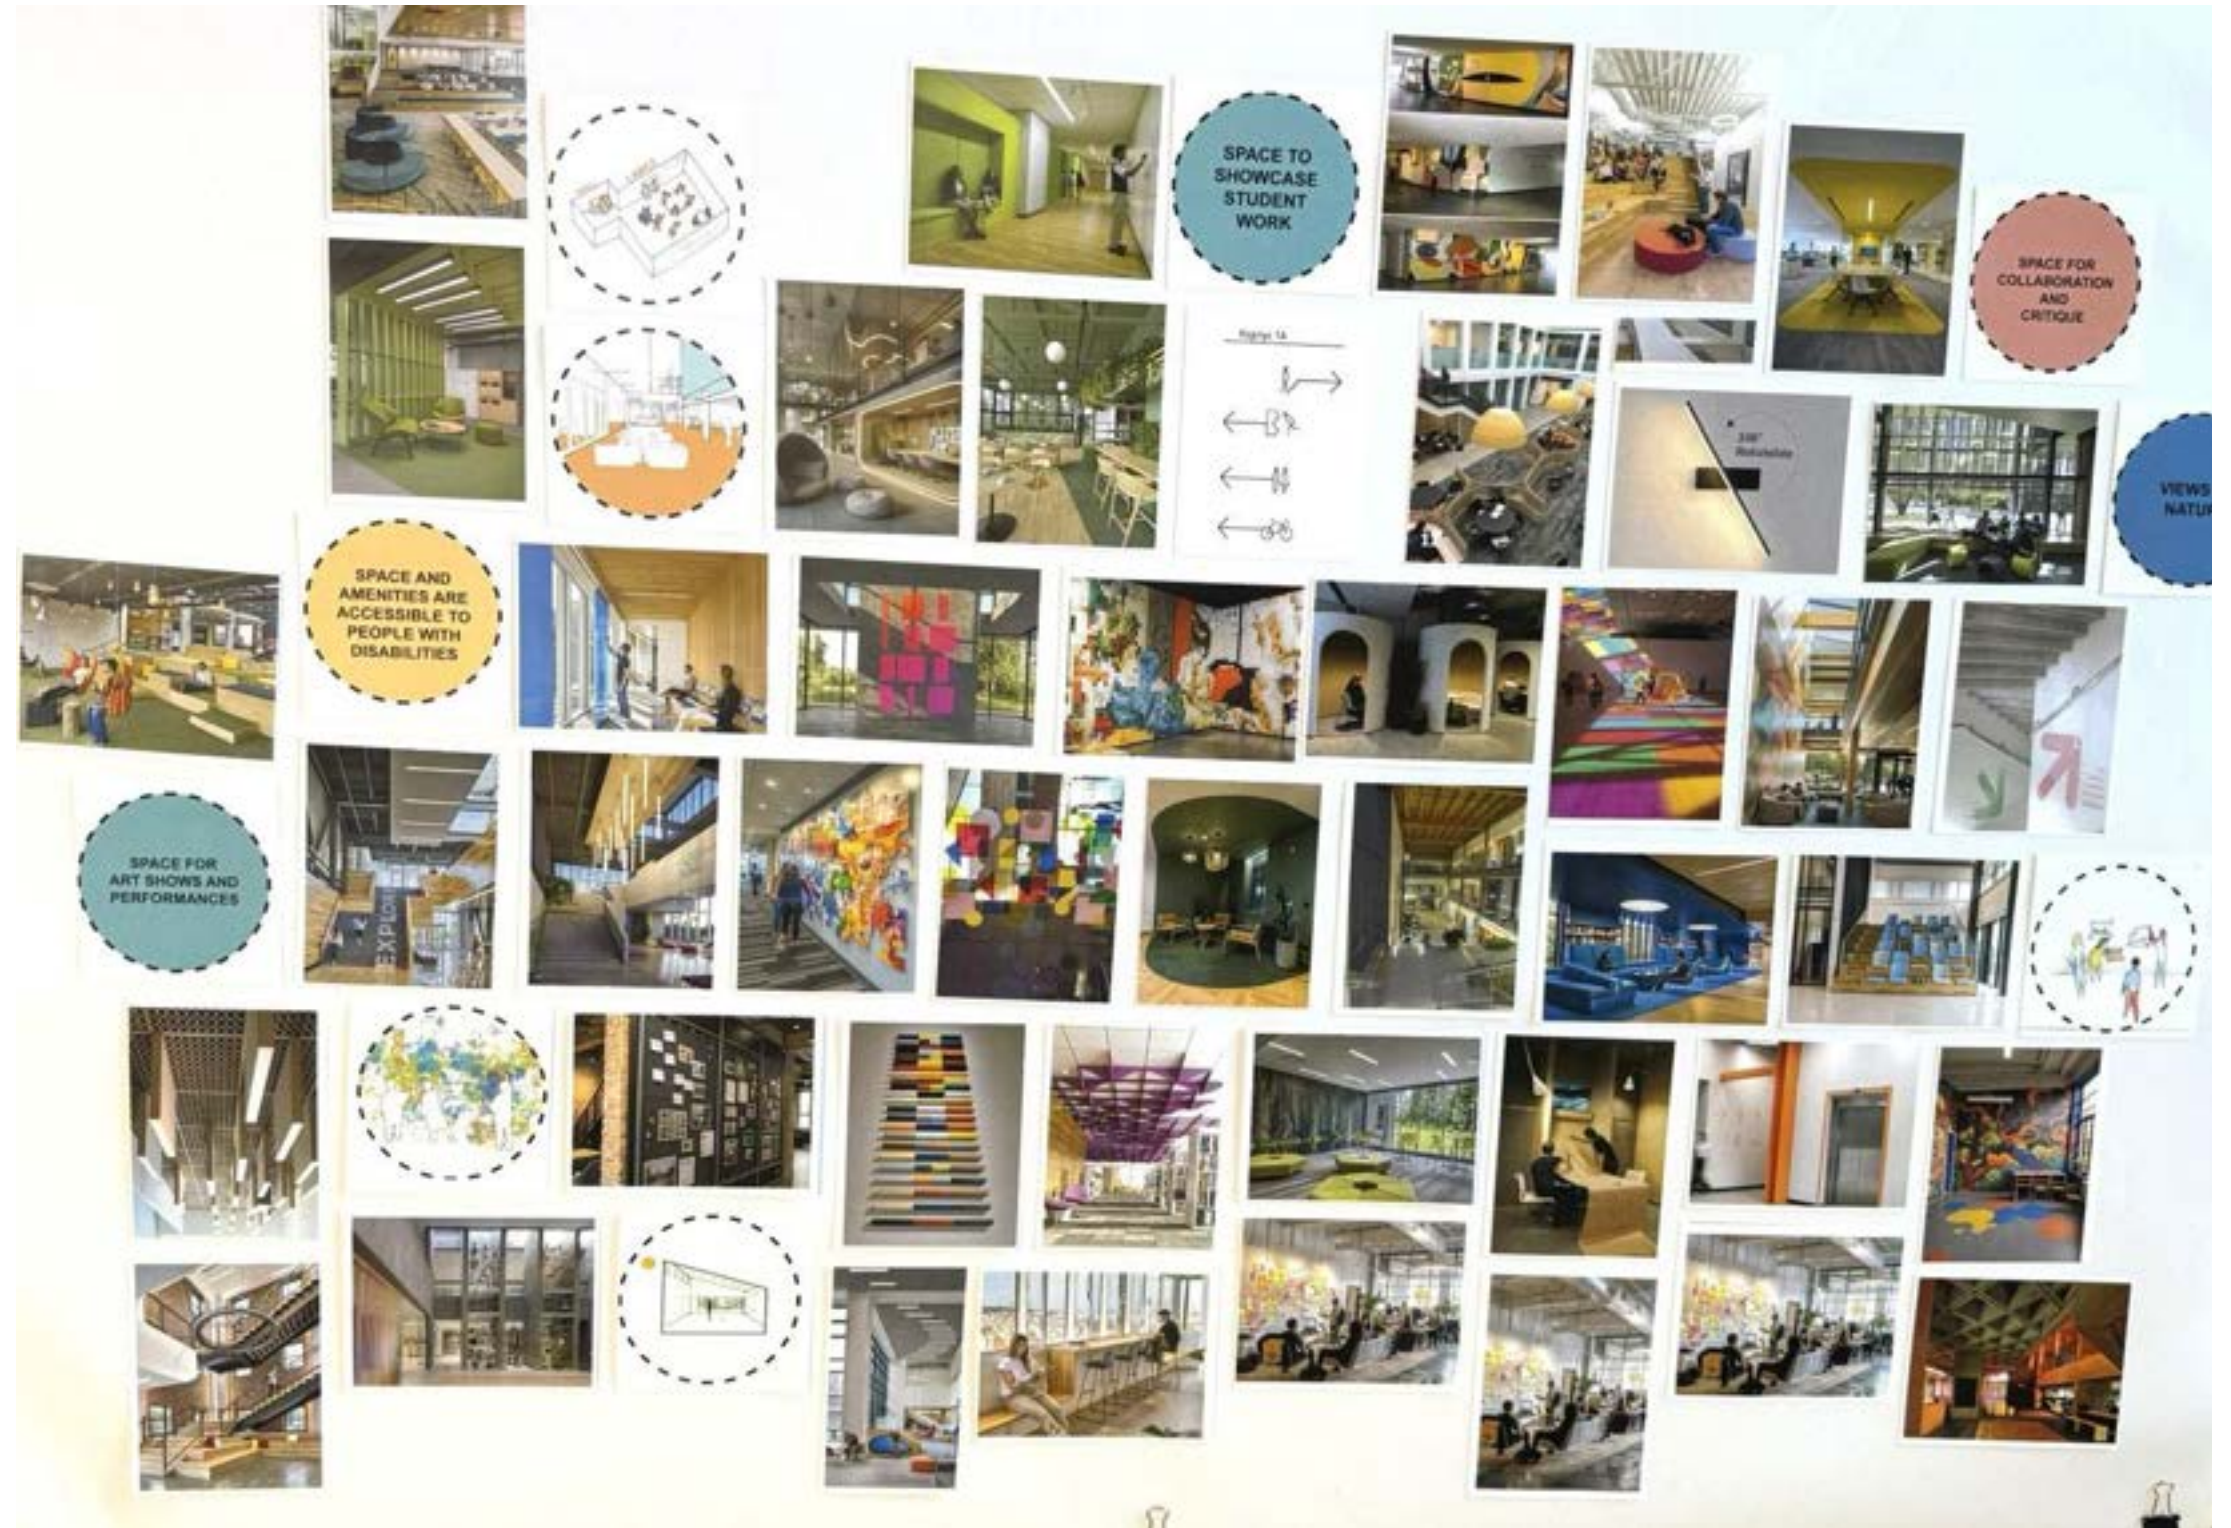

Following the presentation, the committee engaged in a hands-on visioning exercise, using imagery and design themes to help define the desired look, feel, and function of the space.

- Space to showcase

- Space for collaboration and critique
- Views of nature
- Space and amenities are accessible to people with disabilities
- Space for art shows and performances

# Collages made by Design Committee participants

- Views to nature, natural materials
- Space that supports: loud activities, quiet activities, collaboration & critique, sharing of resources
- Space to eat, rest, study & play, space for art shows and to showcase student work
- Recognizable programs and creative spaces
- Humanizes space and welcomes users
- Color & warmth
- Customizable temperature
- 

# Overall Building Update

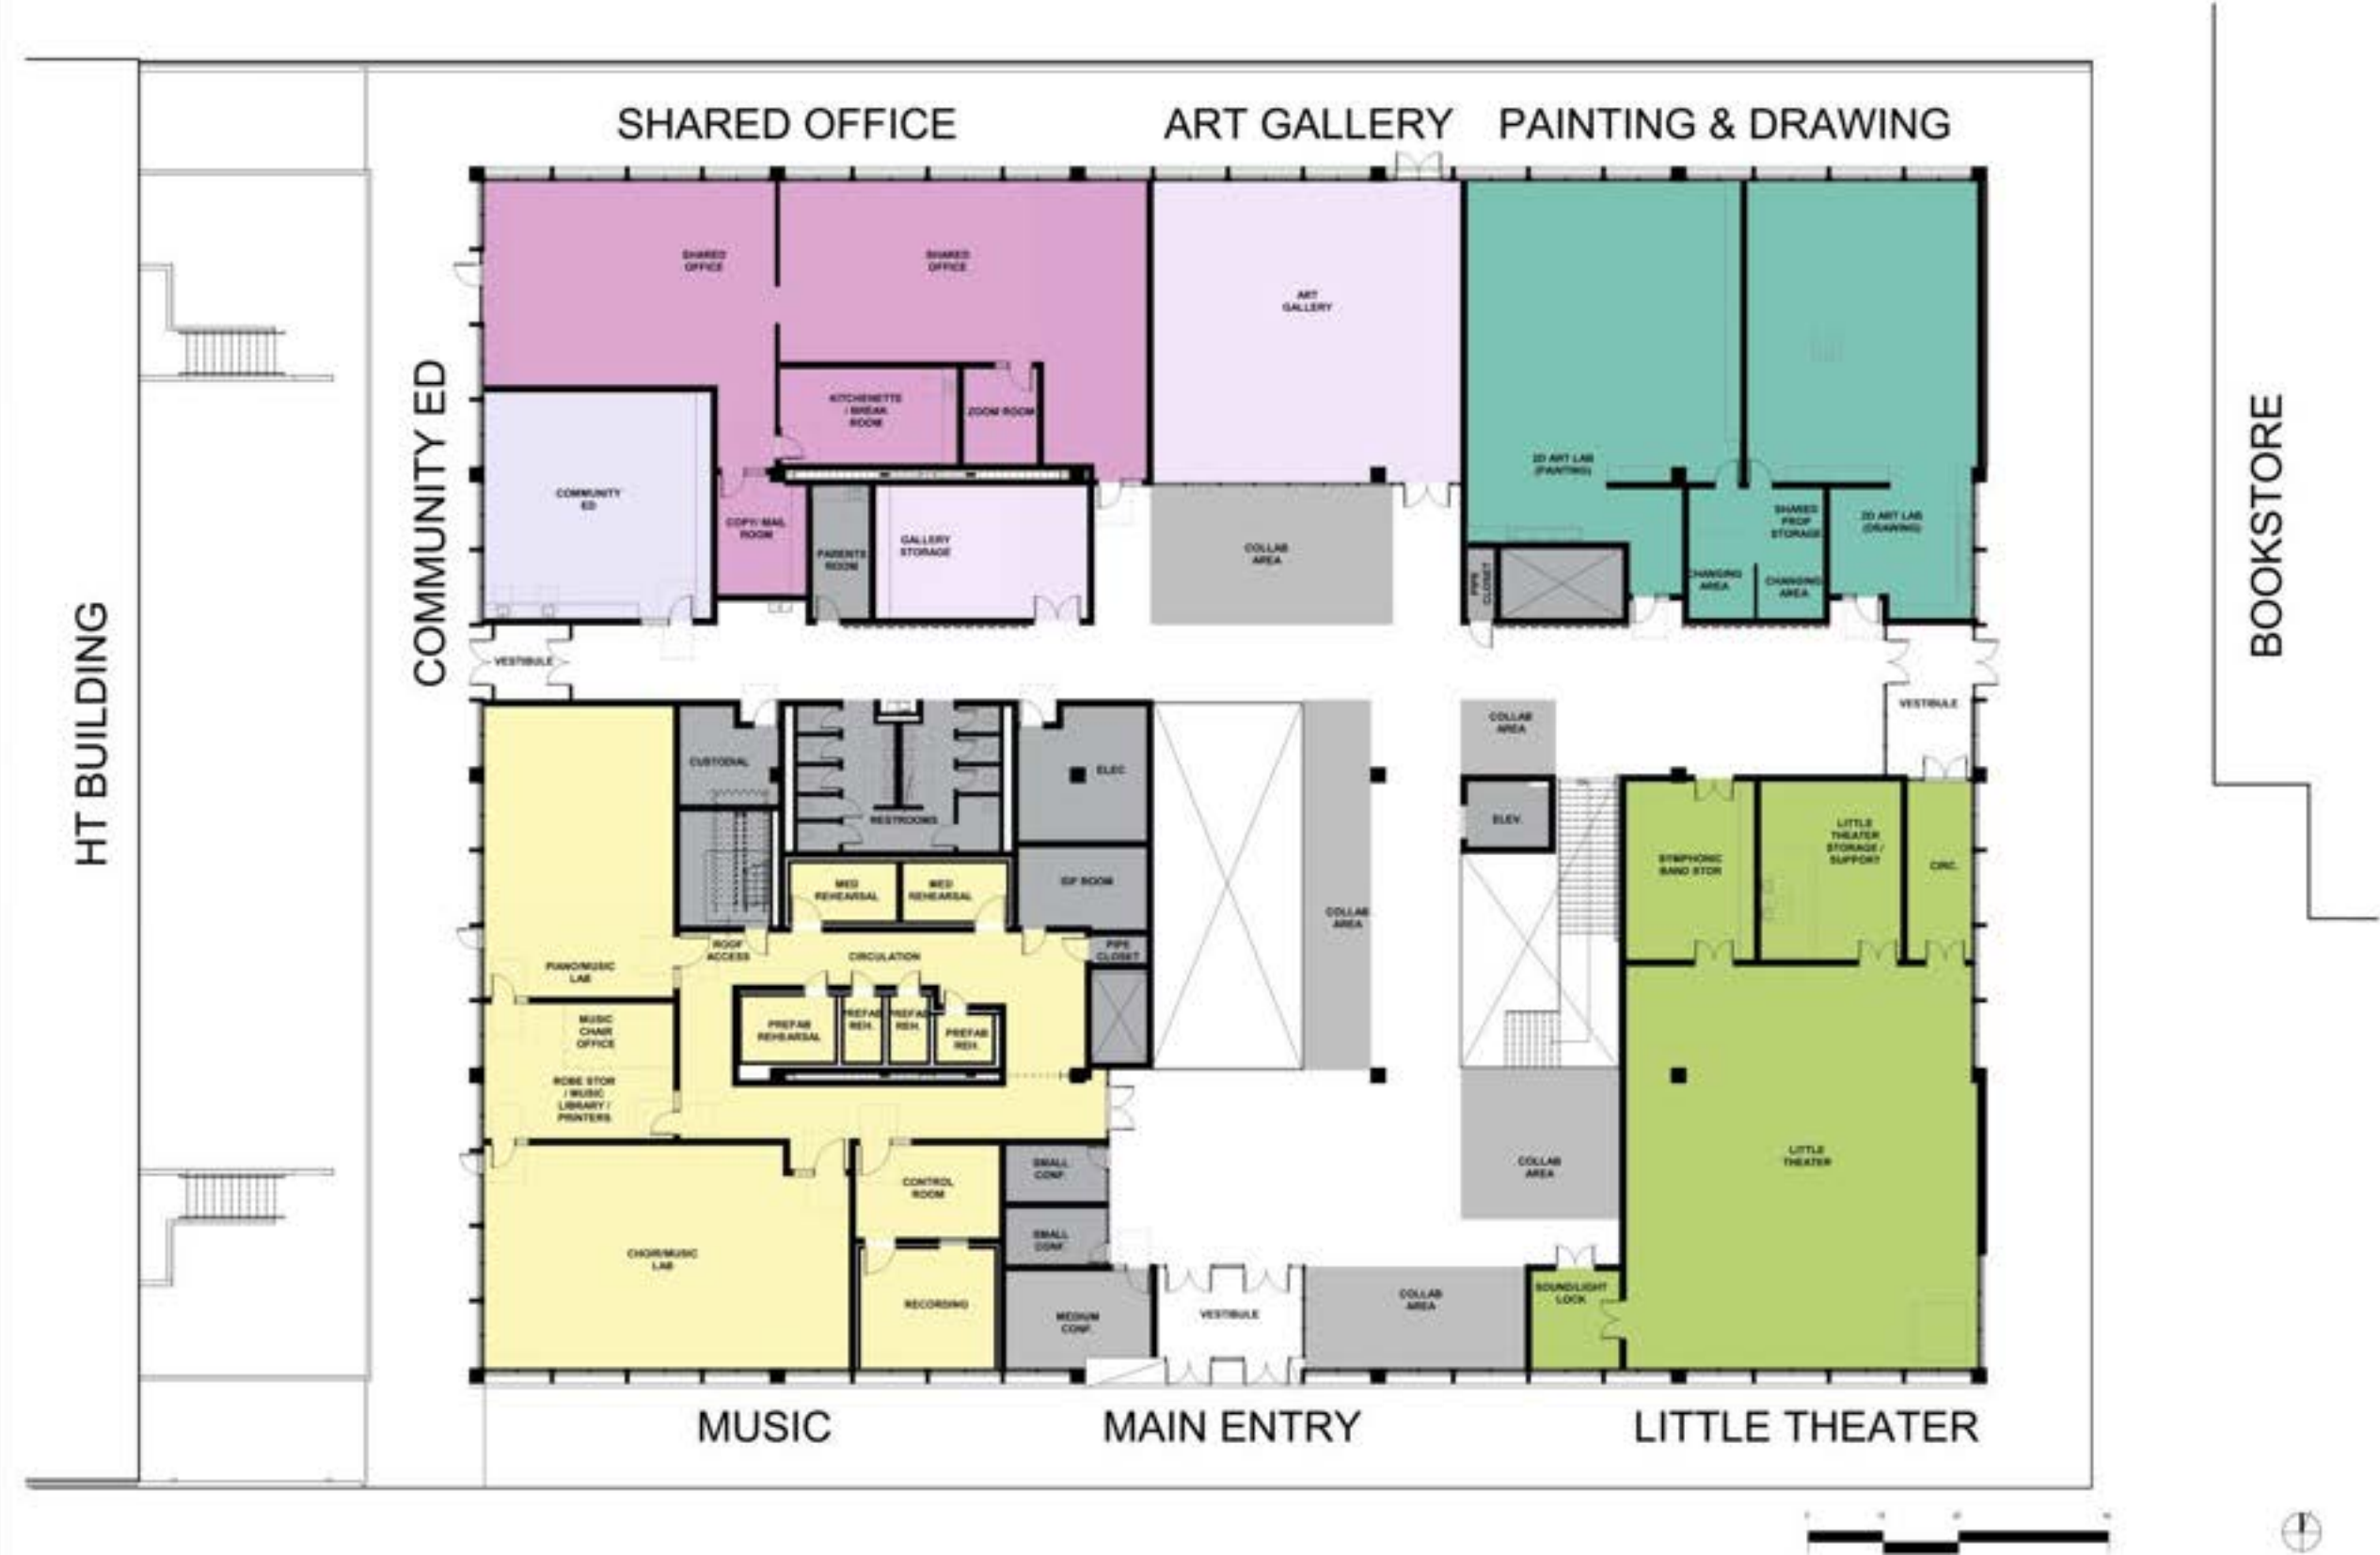

# Level 1

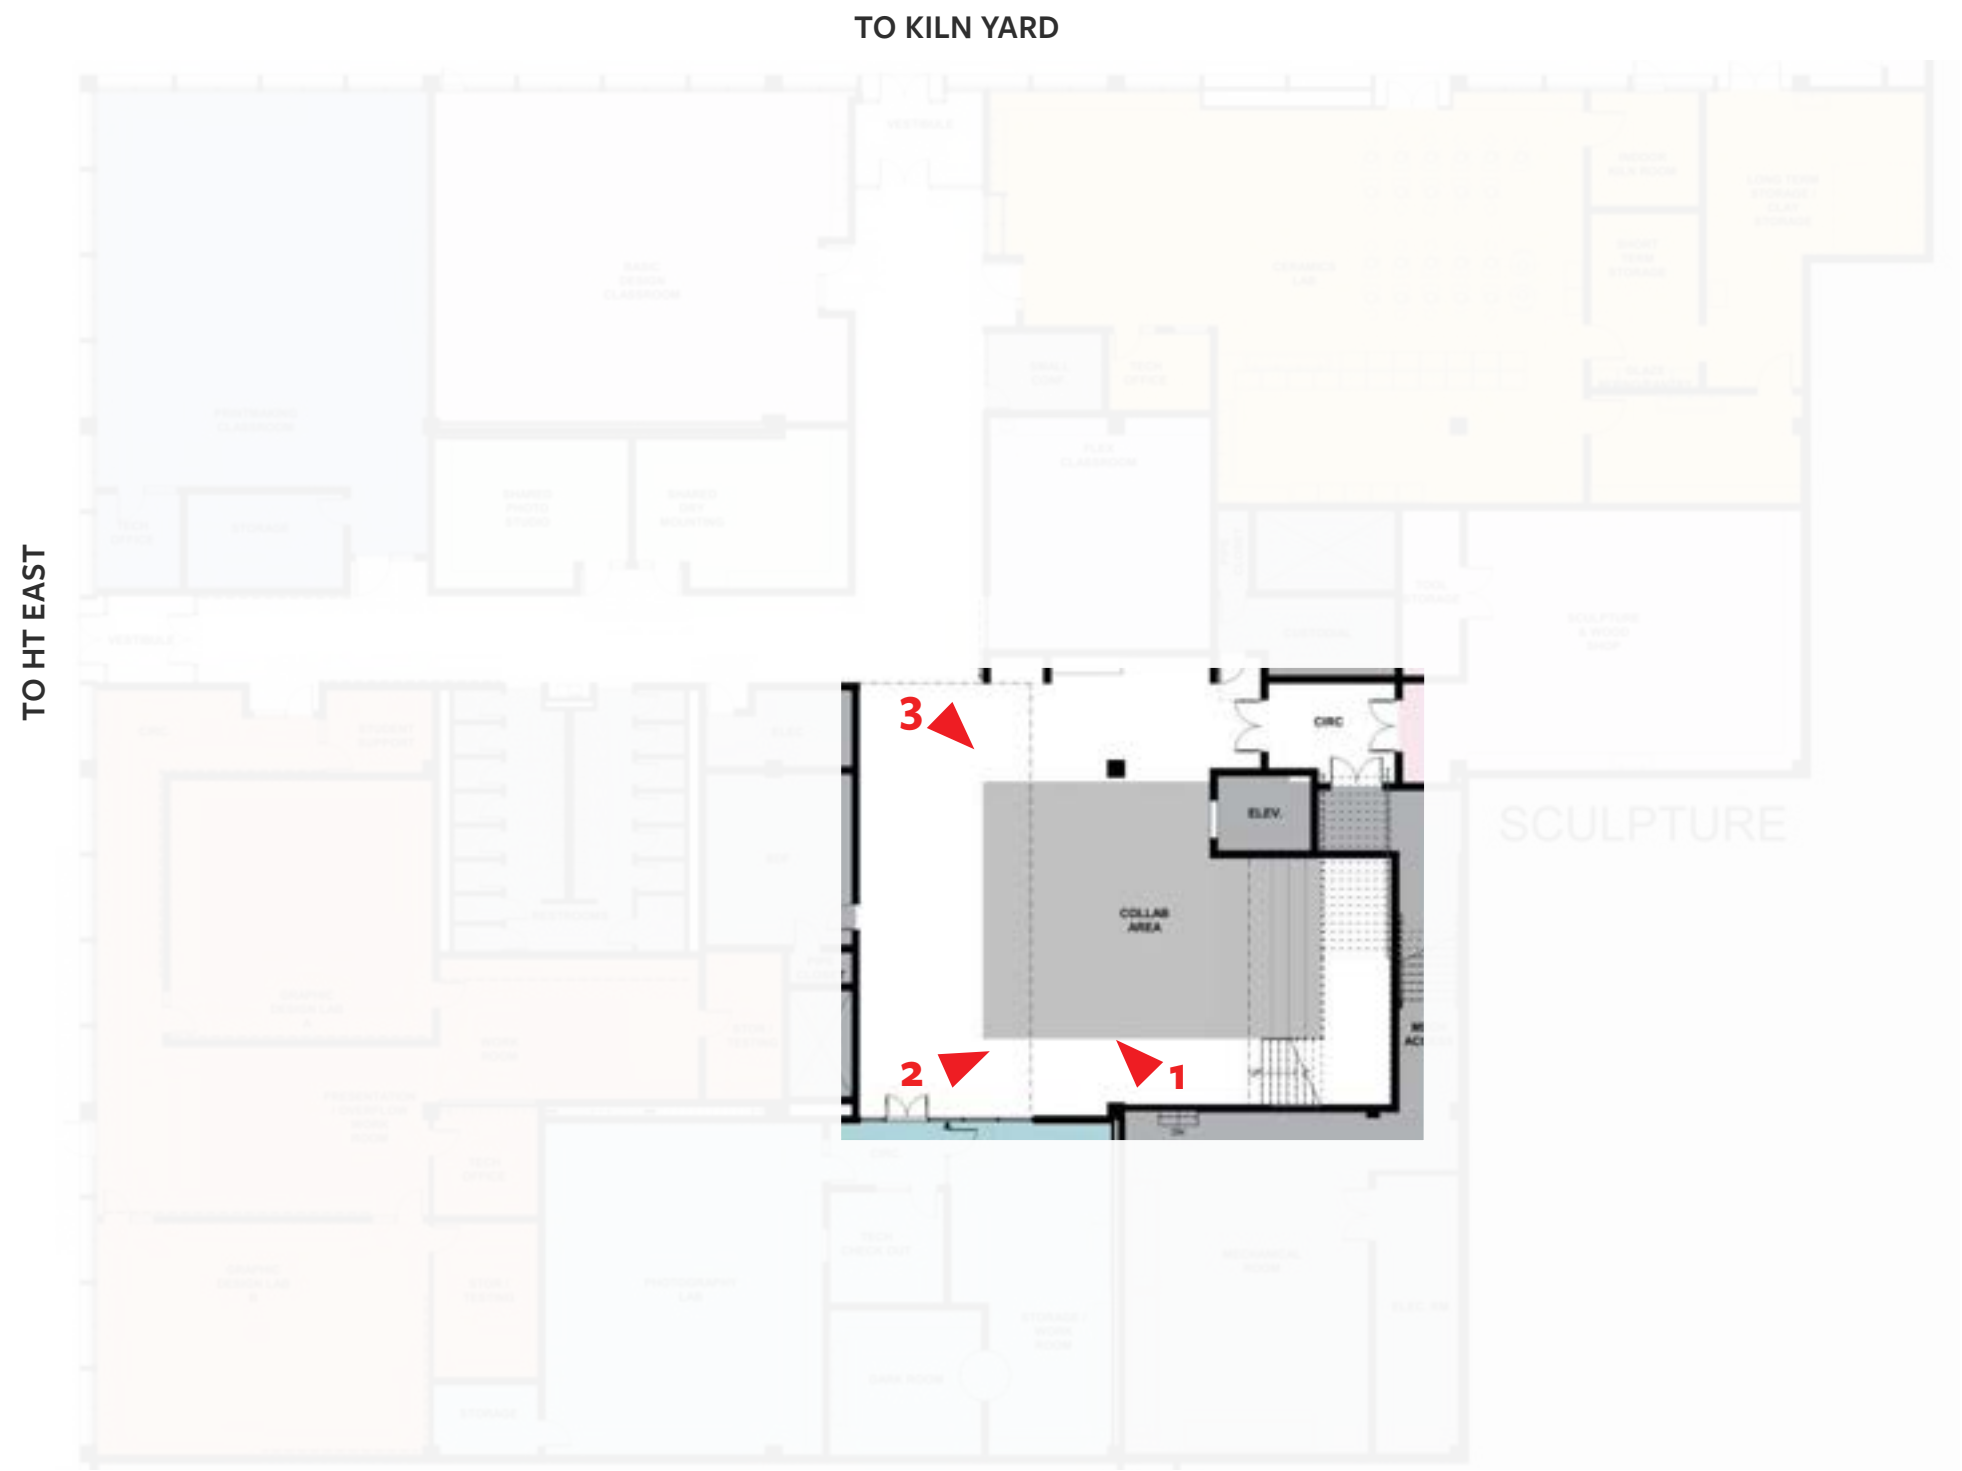

Level 2

# View Map

Level 1

## 1. Level 1 Hub - view from southeast corner

## 2. Level 1 Hub - view from southwest corner

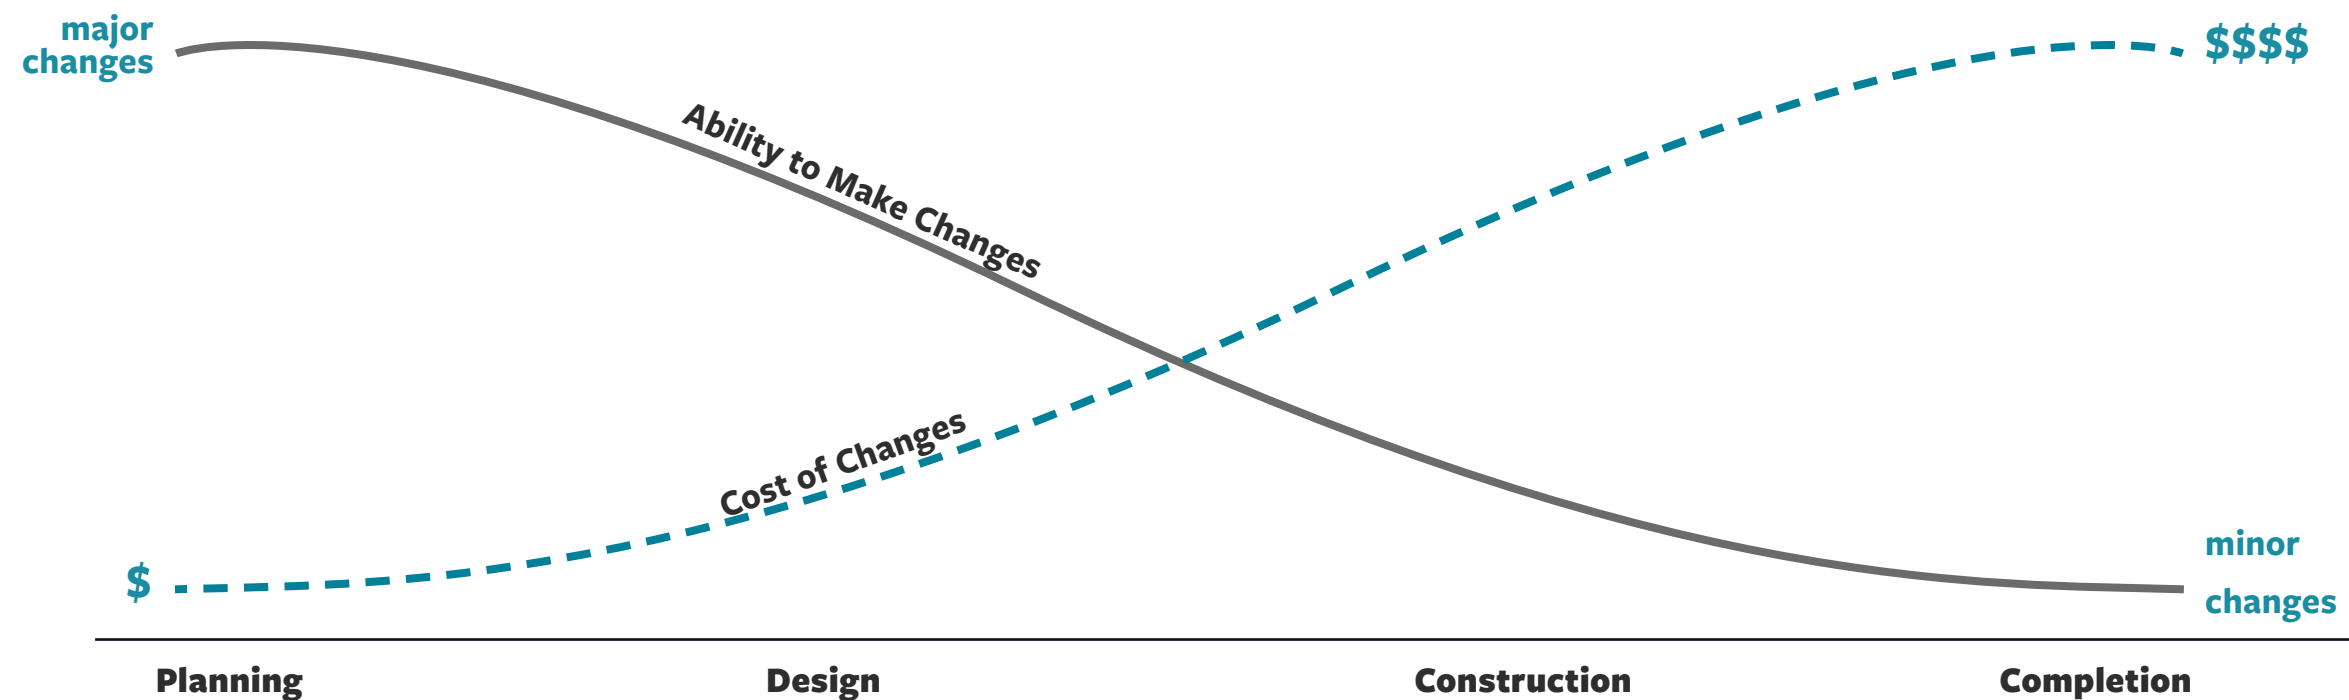

### 3. Level 1 Hub - view from northwest corner

## What to expect in the next phase, Design Development:

- Moving to more detailed, refined plans and development of the building design
- More detailed discussions of equipment and room layouts
- Exploration and refining of color palettes and materials/ finishes
- Finalizing interior and exterior layouts
- Integration of building systems into the design
- Further integration of the design concept into wayfinding, exterior and interior design

Cost Influence Curve

# Next Steps

- May 30: Schematic Design Deliverable & Cost Estimating
- Early June: Design Committee meeting
- Early June: Cost Reconciliation
- Early June: 100% Schematic Design Complete
- Start of Design Development

An aerial photograph of a school campus. The campus features several large, light-colored buildings with flat roofs, interspersed with green trees. There are large parking lots with some cars visible. To the right of the main building complex, there is a green athletic field with a blue track. The campus is bordered by a residential neighborhood with houses and trees. A road runs diagonally across the lower left portion of the image. Overlaid in the center of the image is the word "Questions?" in a large, white, sans-serif font with a thin black outline.

Questions?
