

PCC DUAL CREDIT SITE VISIT OBSERVATION FORM

High School Instructor Name: _____ Date: _____

High School Name: _____

High School Course Name: _____ PCC Course: _____

PCC Dual Credit Liaison Name: _____

I visited the Dual Credit high school faculty's class on the date noted above, and have completed the evaluation according to the rubric included here. I affirm that:

The curriculum, pedagogical, theoretical and philosophical approach in this Dual Credit course is consistent with the college course at PCC, and that Dual Credit students are held to the same assessment methods and grading standards as those expected in on-campus sections.

The course is not substantially the same. Follow-up recommendations are listed below. A follow-up visit and/or meeting should occur within the current Articulation Agreement time period and issues should be discussed and understood (if not remedied) before the class can be offered again for Dual Credit.

Use this space to offer suggestions for remediation if course does not align substantially to a similar course offered at the campus:
