

# **Powered Industrial Trucks, Material Handling Vehicles and Powered Mobile Equipment – Form 3: Powered Industrial Truck Training Certification**

OR-OSHA’s Forklift regulations require that employees be trained and certified drivers with a valid license before they are allowed to operate forklifts

This is to certify that \_\_\_\_\_ has satisfactorily completed a basic powered industrial truck operator training program that included the following topics:

### **Safety Equipment:**

- 1. Visual Checks**
- 2. Load Handling System**
- 3. Hydraulic System**
- 4. Fluid Levels**
- 5. Fluid Leaks**
- 6. Operator Inspections**
- 7. Safe Refueling Requirements**
- 8. Knowledge of the Powered Industrial Truck**
- 9. Handling Loads**
- 10. Safe Operation**
- 11. Parking**
- 12. Staying Alert**
- 13. What to do in the event of an emergency**
- 14. Safety Rules**

I have had my responsibilities relating to inspection and safe operation of powered industrial trucks explained to me and understand that I can be held accountable for any deliberate acts or negligence that pertains to my duties in operating a lift truck.
