

Environmental Stewardship – Appendix B: Reference Links

Due to the variety of environmental topics and the amount of management required, multiple departments share the responsibilities for overseeing PCC's environmental protection and stewardship programs. Some of these programs have resource information in addition to the information provided in this chapter which can be found through the following links.

Recycling – Managed by Sustainability, additional information can be found on their website.

<https://www.pcc.edu/sustainability/operations/waste-recycling-composting/>

<https://www.pcc.edu/sustainability/wp-content/uploads/sites/22/2017/11/PCCSolidWasteManagementPolicy.pdf> Integrated

Regulated Waste – Managed by EH&S, additional information can be found in the Health & Safety Manual, Chapter 21

<https://www.pcc.edu/facilities-management/services/environmental-health-and-safety/safety-procedures-guides-and-forms/health-safety-manual/>

Integrated Pest Management (IPM) - Managed by Grounds, additional information can be found on through the Facilities Management Services website and in the IPM plan

https://www.pcc.edu/facilities-management/wp-content/uploads/sites/31/2019/01/integrated-pest-management_Oct_2015.pdf

Drinking Water Sampling - Managed by EH&S, additional information can be found on their website.
