

# Chemical Hygiene Committee Meeting - April 17, 2023

## Attendees

Evelyn Prater, Mike Mackel, Linda Fergusson-Kolmes, Melissa Duke, Phuong Bui, Eric Keeling, Spencer Cobin-Lawson, Ben Kumler, Kenneth Friedrich. Heather Coleman, Steve Ballew (2:30)

## Agenda

### IST Safety training planning

- Presented at RC, Mari will book a room (Hopefully a room where snacks could be consumed.)
- Topics?
  - Compliance topics
  - Any updates to who to report things to (if there are new employees, or any more re-org).
- Date?
  - Last week of August?
    - Need to connect with Paige and others to see if hours could be adjusted.
- Planning Team
  - Evelyn Prater and Kevin Crowley and Melissa for review
  - Plan to have food and drink available

### Active Threat Training

- Location Based Leadership has engaged, forum in Fall
- See updates to signage and DPS webpage
- Need training
  - Evelyn mentioned that DPS was working on something but not sure when it would be available.

### Eyewash protocol update?

[Link to draft](#)

Shared and reviewed briefly in the meeting

Spencer will update to have one document for SCE pathway and with a paragraph that notes the difference for Jackson Hall

## Next Protocol to address?

Chemical Storage protocol (clarify for storage classes e.g. visual diagram for lab instruction protocol) TBA

Topic to be included for discussion at safety training.

## Plan for in-person Faculty training Fall?

- Life Science-Yes will do again and the online training
  - What we have is good; meet once in summer to figure out logistics
- BIT-?
- Physical Science
  - Continue to do the online training (unless you all decide otherwise)
- Need to consider new instructors for orientation and to highlight changes
  - FDCs will take care of safety orientation for new people
  - If anything comes out of the IST training in August get a quick update

## Hot Topics

- Fume hoods at SY (issues earlier with part of the air return system and had to use some temporary fixes; not sure what is going on)
- Facilities considers the hoods something that gets installed and is not part of the infrastructure

## Next Meeting

Third week of term for Fall 2023 meeting
