

April 15, 2024

Present:

Linda Fergusson-Kolmes, Dan Anderson, Spencer Corbin Lawson, Evelyn Prater, Ben Kumler, Ken Friedrich, Tyler Nusca, Corey Sippel, Mari Almquist, Melissa Dukes

Agenda

Old Business

Evelyn Debrief Spring Lab Inspections

All labs were inspected. Thanks to the people who helped

Themes

- Some emergency washing systems (showers etc.) tags were either about to run out of space or not up to date
- Note that some people keep logs instead of updating the tags. If you do this, please note that on the tag.
- Reach out to Evelyn to get more tags if you need them
- Watch out for degrading dropper bottles
- Note different options for storage where it was the vapor that was impacting the integrity of the dropper material

Fume hood certifications

- The ones that need updating are a work in progress plus reaching out for Biosafety cabinets

Update on Risk Services hiring: Corey Sippel

- New in December
- Safety is a partner but not necessarily within the scope of Risk Management as much as it was in the past.

Update on Emergency Preparedness Manager: Lorraine Churchill

Update on Fire Demonstration question

- Many had requested live fire training for fire extinguishers. Lorraine is excited to be planning to bring an option. No timeline yet.

New Business

IST Training -set up an Active Threat training for the SCE Pathway for all staff end of spring

EH&S updates on new training

- All will be set to be interactive with attempts to be more PCC centric. See [Link](#) for updates. See particularly
 - Hazard Communication
 - Regulated Waste
 - Blood Borne Pathogens
 - PPE training
 - Manager Safety Training

Preparedness and Safety Events are coming

Fall Faculty lab safety training plans

- Life Science will continue to do an in-person Fall training

Biosafety cabinet certifications

Any updates on Department Specific Standard operating Procedures? – Not at the moment

Other Issues/concerns/topics?

Process for MSDS update process

- Evelyn can bring an update to you
- If it is a confirmation of inventory. It is possible to export an Excel spreadsheet. Contact Evelyn for more information.

Checking in about protocols for Blood spills

- FMS READY request is the right first step
- SY campus in staffing transition
- Call SRC X4800 if need immediate assistance
