11-12							

Answer the following and fill out the planner on the backside of this sheet

1. What campus or center do you want to take classes at?
2. What type of classes do you prefer: in-person, online, or hybrid?
3. Would you prefer to take multiple classes on the same day or spread your classes out on different days of the week?
4. Do you prefer morning, afternoon, or evening classes?
5. Are you planning on working while you're in college? If yes, how many hours per week will you be working?
6. Many PCC classes are 4 credits, meet for about 4 hours per week and expect you to do 8 hours of homework. This means that 1 typical college class = 12 hours per week. How many classes can you manage? Can you take a full-time course load?

1 class = 12 hours

2 classes = 24 hours

3 classes = 36 hours

4 classes = 48 hours

Can't take classes full time? Consider:

1. *Taking summer classes*

2. *A hybrid course which requires less time on-campus (but the homework amount will be more than a fully on-campus class)*
