PsycINFO and PsycARTICLES

PsycINFO database has peer-reviewed articles from scholarly journals, book chapters, and dissertations in psychology, behavioral science and mental health. PsycArticles has full text, peer-reviewed scholarly articles from nearly 80 psychology journals published by the American Psychological Association (APA) from 1894 to the present. These databases have sophisticated searches, allowing limiting by age group, study methodology and other categories unique to psychology.

An alternative route: begin on the Research Guide for Psychology, and select the Peer Reviewed Articles tab.

Search tips

Begin with one or several (not more than 4) keywords that describe your topic.

Truncation is an asterisk * and will get multiple versions of the root word: child* = child, children, childhood

“quotation marks” around phrases will find words exactly as you entered them, in that order.

Get this item indicates the full text is not in the PsycINFO database. Click on it to find full text elsewhere or to request through Interlibrary Loan.

Many limiters are unique to PsycINFO.

For example, limiting your search to Population Group: Human will exclude experiments on rats.

You can also select an Age Group such as Aged or Very Old.

Or a specific Methodology, such as a Quantitative Study.
