Engineering Technology Cluster

Skills-to-Course Matrix

Instructions: 1) Enter your high school name above. 2) Enter the community college name. 3) Enter the Program of Study name. 4) Enter the date. 5) Click on Course 1, Course 2, etc. below and replace with your POS course names (or numbers). 6) Check those courses that trigger the TSA for this POS. 7) Finally, check those standards that are taught with intent and purpose, and are assessed in each course. Note: You only need to use the optional Focus Area tabs below if you are using those skill sets for multiple options in a Progam of Study or if you want to use another set of industry validated standards.

Cluster Knowledge and Skills (CTE standards)

EN10

and regulations.

Code Number CCTC **KS Statement** TSA? TSA? TSA? TSA? TSA? **EN01** Use effective communication skills with a variety of audiences. EN02 Exhibit integrity and professionalism in engineering cluster occupations. Use technology such as computers and design software to solve EN03 engineering problems. **EN04** Understand and use applied mathematics and science for engineering cluster careers. EN05 Develop and implement a career plan within the engineering cluster occupations. Use teamwork, critical thinking and problem solving skills to address EN06 complex problems in engineering. Understand the role of engineering in society throughout history and how **EN07** it is affected by economics, regulations, politics, and corporate culture. EN08 Apply design principles and life-cycle methodology to create products, systems, and processes using appropriate technology. EN09 Understand the impact personal characteristics, such as creativity, resourcefulness, the ability to visualize and the ability to think abstractly have on engineers and their ability to design. Understand and adhere to safety, health, and environmental standards
