

Tualatin High School **ENGINEERING TECHNOLOGY**

Students will learn:

- The engineering design cycle
- To problem solve, and design creative solutions
- How to apply learning in a real-world environment
- Professional programs and technology to model and create products

PCC Related Programs

- Engineering
- Civil and Construction Engineering Technology
- Computer Aided Design & Drafting
- Electronic Engineering Technology
- Mechatronics, Automation & Robotics Engineering Technology
- Microelectronics Technology - Manufacturing
