Have you received a supply shipment and aren’t sure which printer it’s for? If so, review the FedEx label on the box and reference the alpha-numeric ‘Asset Name’ in the delivery address section. It should match the ‘Asset Name’ on the white and teal sticker on your printer/copier.

In this example, the supplies are for the printer with the ‘Asset Name’:

**SYCC116PR01**

This name is based on the printer’s location:

**SYCC116** = Sylvania, CC116

**PR01** = Printer 01
