

# Building Education in Advanced Mass Timber (BEAM)

**Launch your career in sustainable building -- enroll in BEAM.**

**This program is funded by a grant so offered at no cost to you!**

Photo Source:  
Charlene Getchell

This entry-level, 60-hour, two-week intensive training introduces you to mass timber, an emerging industry in the Pacific Northwest. BEAM provides hands-on skills development, industry exposure, and insight into career opportunities.

After successful completion, participants earn a PCC Trades Safety Micro-credential which includes OSHA 10, First Aid/CPR, and Forklift certification.

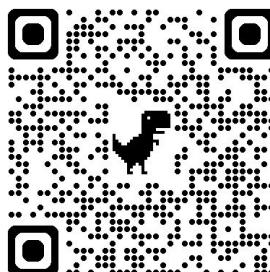

## Program Highlights:

- Introduction to mass timber & construction sector
- Safe use of hand & power tools
- Communication, teamwork, and time management
- Career pathways in carpentry & manufacturing
- Exposure through site visits & industry speakers
- Crafting a resume and preparing for an interview
- PCC Trades Safety Micro-credential
- Connection to Clean Energy Career Coaches
