Schedule of Therapeutic Horticulture Core Course Sequence  
Winter 2018 to Spring 2019 Terms

These six courses are offered on the PCC Sylvania Campus. These courses meet the AHTA professional training requirements for HTR registration. All courses are Class-Web, with some required work conducted online and mandatory class meetings on the dates listed in this schedule. Save these class meeting dates in your calendar now.

The courses are offered as a sequence. If you miss a course, you need to wait for the following series to rejoin the sequence. In some cases, based on prior education and experience, the instructor may allow a student to begin the sequence late.

*The dates for class meetings are tentative. Always check the PCC course registration schedule.*
