**Portland  
Community  
College**

**PROPOSED Schedule of Therapeutic Horticulture Core Course Sequence**  
**Summer 2020 to Spring 2021 Terms**

This sequence of 6 courses is configured for completion within four terms (one year), with two Friday evening/Saturday full-day class meetings each term, except for GRN272, which has three Saturday meetings. These 14 credits meet AHTA professional training requirements for HTR registration. All courses are taught as hybrids, with some required work conducted online and mandatory class meetings on the listed dates. (Confirm times/locations on PCC schedule).

Since this is a sequence, if you miss a course, you will need to wait for the following series to take the remaining courses. In some cases, based on prior education and experience, the instructor *may* allow a student to begin the sequence late, but only in exceptional cases.

**Summer Term 2020**

1. GRN267: Professional Therapeutic Horticulture (3 credits)  
**Online:** Monday, June 22 – Sunday, Aug 23 / **Class meetings:** Fri/Sat: July 10/11 & 24/25
