

2024 Application Questions Drop-in Sessions

What are the 2024 Application Questions Drop-in Sessions?

The Application Questions Drop-in Sessions are created for students who will be applying for the Nursing, Radiography, and Dental Hygiene closed-entry programs in 2024. This is a space where PCC application questions for one of the above programs can be answered by an admissions specialist. Students will be welcomed on a first come, first serve basis. Academic planning and/or course equivalency questions will not be answered during these sessions.

What types of questions should I bring?

Questions that pertain to your PCC CAS application. Since this is a drop-in style answer session, questions need to not exceed five minutes, so that we can serve as many students as possible. Anything that exceeds that time will likely require individual follow-up. Questions about the PCC CAS application content, community engagement experiences, healthcare experiences, healthcare credentials, and/or documentation will be answered. Questions regarding transfer course equivalency will be referred to [PCC Academic Advisors](#) and [Student Records](#). Long-term course planning will be referred to [PCC Academic Advisors](#). Technical CAS questions will be directed to the individual program's CAS support services.

What should I do to prepare?

In preparation to attending the office hours, please do the following:

1. Study your program's "Apply to..." page
2. Read through your program's Admissions Guide
3. Make sure you are admitted to PCC, know your PCC ID number (G#)
4. Create a CAS account and start completing the common pieces of the CAS application for your respective program
5. Write down your questions prior to joining the Zoom room

EVENT: 2024 Admissions Office Hours
