Educational Advisory Council Recommendation

Subject: New – Oregon Coast Community College (OCCC): Certified Nursing Assistant Level 2 – Less Than One-Year Career Pathway

Relevant EAC Standing Committee:
- Academic Policies & Standards Committee (APS)
- Degrees and Certificates Committee (DAC)
- Student Development Committee (SDC)
- Curriculum Committee (CC)
- Membership Committee (MC)

Brief summary of recommendation:
On August 28, 2014, the Northwest Commission on Colleges and Universities announced its approval of Oregon Coast Community College’s (OCCC) new contract with Portland Community College. The partnership between the colleges is to support and develop OCCC through the roughly five-year process towards independent accreditation. As you know, PCC successfully provided oversight to both Columbia Gorge and Tillamook Bay community colleges while they achieved independent accreditation in 2012 and 2013. So, as a reminder, this certificate will only be offered at OCCC. It will not have an impact on any other degrees or certificates at PCC. Students need department approval for admission to the program. On 5/27/15, The EAC Voted to Recommend Approval

Prerequisites:
- BI 231 & 232 – Anatomy & Physiology I and II – 4 credits each
- PSY 201A – Introduction to Psychology Part I – 4 credits
- PSY 215 – Human Development – 4 credits
- MTH – 95 – Intermediate Algebra – 4 credits
- WR 121 & 122 – English Composition – 4 credits each

Outcomes:
- Deliver healthcare with relevant cultural knowledge and communicate between people from culturally diverse backgrounds using therapeutic and professional communication techniques in the clinical setting.
- Recognize how facts & principles from physical, biological, social and behavioral sciences are applied to planning care of individuals.
- Demonstrate proper use of diagnostic, safety and therapeutic devices within the CNA’s scope of practice.
- Utilize an understanding of conceptual foundations of nursing and holistic care, as they apply to the care of patients.
- Collaborate with members of the healthcare team when delivering care to assigned patients.
- Demonstrate person-centered care by meeting the individual person’s needs, preferences and abilities.
- Maintain patient and family confidentiality within the Health Insurance Portability and Accountability Act (HIPPA) and organizational standards.
- Distinguish between personal and professional values and legal/ethical responsibilities in practice.

Coursework:
- NUR 141 – Fundamentals of Nursing – 12 credits
- NUR 142 – Care of Ill Patients and Developing Families I – 12 credits
- NUR 143 – Care of Ill Patients and Developing Families II – 12 credits
- NUR 145 – Introduction to Pharmacology and Pathophysiology – 1 credit
