GoPrint Printing from Wireless Laptops (MacOS 10.11.x “El Capitan”)

Make sure you are connected to PCC’s wireless network. Your AirPort menu should appear similar to the illustration at right.

1. Open the **System Preferences** and choose **Printers & Scanners**

2. Below your list of current Printers, click the (+) symbol to add a printer.

3. Click the **Advanced** icon at the top of the screen. (If Advanced is not visible, control- or right-click in the gray area next to your list of choices and select **Customize Toolbar**… to add the Advanced icon)

4. The Advanced tab will take a minute to load. When it does, select **Windows printer via spoolss** for Type.

5. For the URL Field: Enter:
   \[smb://guest:@server.pcc.edu/printer-name\]
   **Example:**
   \[smb://guest:@syprint.pcc.edu/sysccprinter1\]

See the downloadable list of wireless printers on the web page where you found this guide to find the **server** and **printer-name** for the correct campus and printer.

6. The Name field will automatically change to **server-name.pcc.edu** - you can change it to any name you want.
GoPrint Printing from Wireless Laptops (MacOS 10.11.x “El Capitan”)

7. In the optional Location field, you can enter the printer’s Location. For example, "SY SCC Printer 1" This name can be whatever you want.

8. In the **Printer Software window** choose LaserJet 9050 for black & white printing, or HP Color LaserJet 4700 for color printing. You can use the Spotlight field to narrow your search. Speak to a Lab Assistant if you’re unsure about the printer model.

   **Note:** If these printers drivers do not appear, you can select **HP LaserJet Series PCL 4/5** or download HP printer drivers from Apple at [http://support.apple.com/kb/DL907](http://support.apple.com/kb/DL907) (recommended for color printing)

9. Click **Add**

10. The **Options** window will open.

11. To get access to double-sided printing, look for the **Duplex Unit** option and click the check box. (This option is not available for color printers.)

12. Click **OK** when you’re done. The printer is now set up and ready to use.

13. The first time you use the Print command in a program, you may see a network login screen. Enter **guest** as the **Name** and leave the **Password** blank. Click the checkbox to “Remember this password in my keychain”

14. To launch GoPrint, open a new browser window or tab.

15. In the address box type **https://pccprint.pcc.edu:7773** and hit enter.
