GoPrint Printing from Wireless Laptops (MacOS 10.10.x “Yosemite”)

Make sure you are connected to PCC’s wireless network. Your AirPort menu should appear similar to the illustration at right and you’ve logged into the PCC network. (You will be prompted for your MyPCC user name and G-Number before your first web page opens.)

1. Open the **System Preferences** and choose **Printers & Scanners**

2. Below your list of current Printers, click the (+) symbol to add a printer.

3. Click the **Advanced** icon at the top of the screen. (If Advanced is not visible, control- or right-click in the gray area next to your list of choices and select **Customize Toolbar…** to add the Advanced icon)

4. The Advanced tab will take a minute to load. When it does, select **Windows printer via spoolss** or **Type**.

5. For the URL Field: Enter:
   smb://guest:@server.pcc.edu/printer-name
   
   Example:
   smb://guest:@syprint.pcc.edu/sysccprinter1

See the downloadable list of wireless printers on the web page where you found this guide to find the **server** and **printer-name** for the correct campus and printer.
GoPrint Printing from Wireless Laptops (MacOS 10.10.x “Yosemite”)

6. The Name field will automatically change to server-name.pcc.edu - you can change it to any name you want.

7. In the optional Location field, you can enter the printer’s Location. For example, "SY SCC Printer 1" This name can be whatever you want.

8. In the Print Using pull down menu, choose HP, model HP LaserJet 9050 for the black & white printing, or HP Color LaserJet 4700 for color printing. (You can use the Spotlight field to search for either “9050” or “4700” to narrow your search.)

   **Note:** If these printers drivers do not appear, you can select **HP LaserJet Series PCL 4/5** or download HP printer drivers from Apple at [http://support.apple.com/kb/BL907](http://support.apple.com/kb/BL907) (recommended for color and double-sided printing)

9. Click **Add**

10. The Options window will open.

11. To get access to double-sided printing, look for the “Duplex Unit” option and click the check box. (This option is not available for color printers or with the basic PCL 4/5 driver.)

12. Click OK when you’re done. The printer is now set up and ready to use.

13. The first time you use the Print command in a program, you may see a network login screen. Enter **guest** as the Name and leave the Password blank. Click the checkbox to “Remember this password in my keychain”

14. To launch GoPrint, open a new browser window or tab.
15. In the address box type **https://pccprint.pcc.edu:7773** and hit enter.

16. You will get a security warning about the website certificate. Click “Continue”.

17. Log into your GoPrint account, using the same login information you would in the computer lab. (You can also bookmark the page.)

18. Check the print job you want to print and click the **Pay and Print** button at the bottom.
