

# EARTHQUAKE

## PREPAREDNESS

Learn about the geology of earthquakes and why the Pacific Northwest is at high risk in the future. Gain insight into how a major earthquake can impact our local communities. Understand what preventative and mitigative actions you can take to enhance your safety and survival prospects for your home and family.

Item#44857, **Winter term 2026**, Fee: \$49, Prime-Time/Life-Long Learning series

Date: Tuesday evenings (2-sessions); **January 13th, 20th**; 6:30 pm to 8:30 pm

Where: Online class, *Zoom-platform* (link TBA)

Instructor: Prof. Kyle Dittmer, office (day/VM): 503-731-1314, [kdittmer@clark.edu](mailto:kdittmer@clark.edu)

### TOPICS:

- Week#1: Overview of Plate Tectonic theory; Types and mechanics of earthquakes; HC Film: *Deepest Place*.
- Week#2: Earthquake risks and impacts for the PNW; What preventative/mitigative actions you can take now.

### FORMAT:

Lecture format, PowerPoint slideshows, and You-Tube videos. Students are encouraged to share their views and experiences of past earthquakes.

Community and Continuing Education classes are Clark College's non-credit course options - they are often connected to academic pathways at Clark College. More about the CCE program: <https://www.clark.edu/cce/about-cce/>
