Ophthalmic Medical Technology JACHPO COT exam

6/2014

PRACTICUM EXPERIENCE

Kaiser Interstate: (Intern)

- Assisted office staff when needed, used EPIC to enter and revise patient data.
- Performed the duties of an Ophthalmic Medical Technician in a very busy clinic.

Devers Memorial Eye Institute: (Volunteer) Low Vision Rehabilitation Program

- Addressed low vision concerns and provided emotional support.
- Provided patient education about maximizing remaining vision through the use of low vision optical and non-optical devices.
- Created safe environments for low vision activities: art fairs, monthly low vision support groups.

Devers Memorial Eye Institute: (Intern)

- Performed general office duties and updated charts.
- Assisted staff by conducting quality exams in a timely manner while being mindful of a patient's specific needs and scheduling.
- Safely and professionally used and maintained all ophthalmic exam equipment necessary to administer complete eye exams.

Eye Group Associates: (Intern)

- Offered assistance and support to office staff, filing, calling in Rx orders, faxing medical records.
- Assisted clients in completing required insurance and health forms.
- Provided clients with quality eye care examinations in a professional and safe manner.
