We are hiring a Strategic Energy Management Associate

PCC is looking for a qualified person to join our Strategic Energy Management (SEM) Leadership Team to reduce energy use and increase our employee engagement activities. The associate will support the college's SEM program and energy team by monitoring and tracking energy use, identifying energy efficiency opportunities and developing employee awareness and engagement strategies.

This person should be prepared to work in a fast-paced team environment and will finish the associate position having gained broad experience in various aspects of energy efficiency, project coordination and sustainability. Work would be primarily in-person with opportunity for limited remote work. We are requesting a year commitment for the position.

This is a part-time position with a flexible work schedule of 15-30 hours per week.

For more information on the responsibilities, qualifications, and how to apply, click [here](#).

To learn more check out the [SEM webpage](#) or email Jack Rasmuson, SEM Associate, at jack.rasmuson@pcc.edu

SEM Energy Challenge

The [2023 SEM Energy Challenge](#) runs from May 1st to 24th and is a fun and easy way to save energy and make a difference for the planet. You can choose actions to make upgrades, lifestyle changes, create awareness, or to simply learn more about saving energy to curb emissions— or you can create your own custom actions!

The challenge is meant to be a commitment to practicing and reinforcing sustainable habits all while virtually engaging with the PCC community toward a positive collective impact. We will be competing against other teams in the region, so the more points and team members, the more chance we have at winning!

To sign up, please visit our [team page](#) and register by clicking the purple "Join This Team" button.
