GoPrint Printing from Wireless Laptops (MacOS 10.12 “Sierra”)

**Before you start:** Make sure you are connected to PCC’s wireless network. Your AirPort menu should appear similar to the illustration at right. (If this is your first time, click Here for instructions)

1. Open the **System Preferences** and choose **Printers & Scanners**

2. Below your list of current Printers, click the (+) symbol to add a printer.

3. Click the **Advanced** icon at the top of the screen. (If Advanced is not visible, control or right-click in the gray area next to your list of choices and select **Customize Toolbar…** to add the Advanced icon)

4. The Advanced tab will take a minute to load. When it does, select **Windows printer via spoolss for Type**.

5. For the **URL** Field make sure to enter the following *(Note: Click on printername to obtain the right printer name you want to print to, if not sure ask the lab assistant)*
   - If you’re at Southeast Campus:  
     smb://guest:@caprintq.pcc.edu/printername
   - If you’re at Cascade Campus:  
     smb://guest:@caprintq.pcc.edu/printername
   - If you’re at Rock Creek Campus:  
     smb://guest:@rcprintq.pcc.edu/printername
6. If you’re at Sylvania Campus:
smb://guest:@syprint.pcc.edu/printername

7. In the optional Location field, you can enter the printer’s Location. For example, "SY SCC Printer 1" This name can be whatever you want.

8. In the Printer Software window choose LaserJet 9050 for black & white printing, or HP Color LaserJet 4700 for color printing. You can use the Spotlight field to narrow your search. Speak to a Lab Assistant if you’re unsure about the printer model

   Note: If these printers drivers do not appear, you can select HP LaserJet Series PCL 4/5 or download HP printer drivers from Apple at http://support.apple.com/kb/DL907 (recommended for color printing)

9. Click Add

10. The Options window will open.
11. To get access to double-sided printing, look for the Duplex Unit option and click the check box. (This option is not available for color printers.)

12. Click OK when you’re done. The printer is now set up and ready to use.

13. The first time you use the Print command in a program, you may see a network login screen. Enter guest as the Name and leave the Password blank. Click the checkbox to “Remember this password in my keychain”

14. To launch GoPrint, open a new browser window or tab.
15. In the address box type **https://pccprint.pcc.edu:7773** and hit **Enter**.

16. You will get a security warning about the website certificate. Click **Continue**.

17. Sign in to your account (if you don’t have an existing account go to this **page** to sign up for one and then follow the GoPrint How-To-Use instructions documented **Here**).
