Printing from your Laptop - Windows XP Systems

1. Make sure you are connected and logged into PCC’s wireless network. (see instructions below)
2. Click Start.
3. Click Run.
4. Type either `\syprint`, `\caprint` or `\rcprint` in the box.
5. Hit enter. The system will search for a list of printers, this may take a while, so be patient.
6. Once you see the list, double click the appropriate printer. (See the chart [Here](#) for a list of available printers on each campus)
7. A message will appear asking for permission to install the printer driver to your computer. Click Yes.
   a. Note: Install at your own risk! **PCC will not be responsible for problems that occur on personal systems as a result of the installation of this software.** As is always the case, upgrading or installing new software can potentially cause conflicts with existing applications and/or devices. While we don’t anticipate any problems, we recommend a current backup.
8. The printer will be installed to your system. Click the close button on the printer jobs list that will come up after installation. **You’ll only need to do steps 2 – 8 the first time you print to each printer.**
9. Create or open the document you want to print.
10. Click File.
11. Click Print.
12. Select the printer you just installed from the drop down list at the top of the print window.
13. Click OK to send the print job.
14. Open a new web browser window.
15. In the address box type [https://pccprint.pcc.edu:7773](https://pccprint.pcc.edu:7773) and hit enter.
16. Click the link “continue to this website”.
17. Log into your go print account, using the same login information you would use at any campus CRC.
18. Checkmark the print job you want to print and click the pay and print button at the bottom.
Connecting to PCC’s Wireless - Windows XP Systems

1. Right click on your wireless configuration icon on the lower right side of your taskbar.

2. Click “View all available wireless connections”.

3. You should see PCC in the list, if not click the Refresh network list link on the left.

4. Click the connect button on the lower right corner.

5. Open Internet Explorer

6. You will have to authenticate to the PCC network, enter your username (same username you use to log into MyPCC).

7. Your password is your G number.

8. Click Sign In.

9. Make sure to leave the “Infranet” window open, you can minimize it, but leave it running.

10. Open a second web browser window (or tab) to surf the net.
