## GoPrint Printing from Wireless Laptops (MacOS 10.13 "High Sierra")
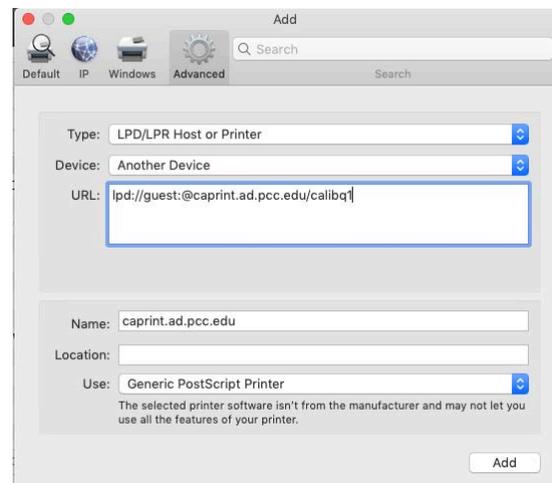

Before you start: Make sure you are connected to PCC's wireless network. If you're not sure what printer to select click Here for Printers list.

1. Open the **System Preferences** and choose **Printers & Scanners**

2. Below your list of current Printers, click the (+) symbol to add a printer.

3. Click the **Advanced** icon at the top of the screen. (If Advanced is not visible, controlor right-click in the gray area next to your list of choices and select **Customize Toolbar…** to add the Advanced icon)

4. The Advanced tab will take a minute to load. When it does, select **LPD/LPR Host or Printer** for **Type**.

5. For the **URL** Field make sure to enter the following *(**Note**: Click on printername to obtain the right printer name you want to print to, if not sure ask the lab assistant)*
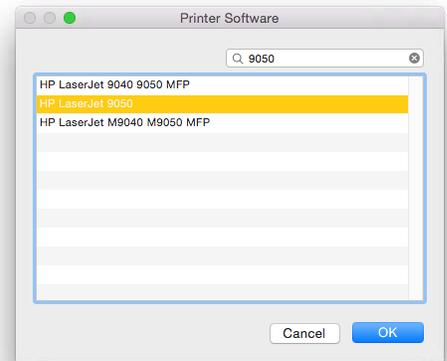

- If you're at Southeast Campus:
  lpd://guest:@caprint.ad.pcc.edu/printername

- If you're at Cascade Campus:
  lpd://guest:@caprint.ad.pcc.edu/printername

- If you're at Rock Creek Campus:
  lpd://guest:@rcprint.ad.pcc.edu/printername

6. If you're at Sylvania Campus:
   lpd://guest:@syprintq.ad.pcc.edu/printername

7. In the optional Location field, you can enter the printer's Location. For example, "SY SCC Printer 1" This name can be whatever you want.

8. In the **Printer Software window** choose LaserJet 9050 for black & white printing, or HP Color LaserJet 4700 for color printing. You can use the Spotlight field to narrow your search. Speak to a Lab Assistant if you're unsure about the printer model
   Note: If these printers drivers do not appear, you can select **HP LaserJet Series PCL 4/5** or download HP printer drivers from Apple at **http://support.apple.com/kb/DL907** (recommended for color printing)

9. Click **Add**

10. The **Options** window will open.
11. To get access to double-sided printing, look for the **Duplex Unit** option and click the check box. (This option is not available for color printers.)

12. Click **OK** when you're done. The printer is now set up and ready to use.

13. The first time you use the Print command in a program, you may see a network login screen. Enter **guest** as the **Name** and leave the **Password** blank. Click the checkbox to "Remember this password in my keychain"

14. To launch GoPrint, open a new browser window or tab.
