SECTION #1 OVERVIEW

Current Title:	Emergency Medical Services	Proposed Title:	Emergency Medical Services
Current Credits:	61	Proposed Credits:	57
Overview and rationale for proposed changes:	Statewide EMS Degree standards have evolved, allowing for movement of one General Education course to be moved to the second year. This allows PCC to come into compliance with the Standard of a one-year EMS Certificate (less than 60 credits). This does not affect the content or requirements for the EMT-Paramedic degree.		
List of specific changes being proposed which may include, addition or deletion of courses, title changes, credit changes, prerequisite changes, outcome changes, course changes etc. Use consistent words – Add, Remove, Increase, Decrease, Change	<ol style="list-style-type: none"> 1. Remove one 4-credit general education course 2. Reduce credit requirement to earn the certificate from 61-57 3. Revise and submit the related instruction template for a one-year certificate 4. change certificate designation from two-year to one-year 5. Update outcomes 		
Are you adding or removing a course which is from another discipline? Consider this question for program prerequisites and required courses	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	If yes, have you communicated with the SAC or the dean? Are they aware of the financial and/or schedule impact of this change? Provide details of the conversation including who was contacted.	The specific course is not defined within the EMS Certificate. It could be any of a number of courses from the Gen Ed list, and would not affect students who complete the AAS degree at PCC.
