

## PCC General Education Outcomes, April 2019 DRAFT 1.1

### **Communication**

Students completing an associates degree will be able to express ideas clearly and effectively with consideration of the purpose, audience, and context of the communication.

### **Social Analysis and Inquiry**

Students completing an associates degree will be able to consider social contexts including the diversity of human experience and thought when applying knowledge and skills to understand practical problems and theoretical issues.

### **Integrative Learning**

Students completing an associates degree will be able to reflectively make connections among concepts and experiences so that information and skills can be applied to novel and complex issues or challenges.

### **Quantitative Reasoning**

Students completing an associates degree will be able to effectively analyze problems using quantitative information while also considering community and environmental implications.

### **Cultural Literacy**

Students completing an associates degree will be able to examine how cultural systems relate to broader social dynamics.
