Sylvania Board Update: February 2020

Dr. Lisa Avery

Sylvania Campus President

Lisa.avery@pcc.edu

Enrollment Management, Outreach and Faculty Partnerships

- Friday Academy is the result of many areas of our campus coming together to create opportunities for working adults to enroll and succeed
- Students enrolling in Friday Academy @ Sylvania earn 12+ credits while only coming to campus on Fridays. These hybrid classes are a blend of online and in-person coursework, giving students the flexibility of online classes with the support of on-campus life.
- Students in Friday Academy come to class between 9am to 3:15pm for our cohort-style teaching sessions. With two tracks, business and transfer, students have the opportunity to earn their associates degree credits with the support of our specially trained faculty and student support services.
- Friday Academy Students need to be prepared to complete work outside of the classroom, so excellent time management skills are a must. An ideal student for this program will be seeking a general transfer, accounting, or business associates degree and has completed all prerequisites for their track.

Outreach to Working Adults: Friday Academy at Sylvania

- Benefits to students
- Going to school one day a week helps create a better work/life balance and cuts down on commuting time
- Better student support through a program peer navigator and program-associated advisors
- A coordinated learning experience with a student-centered approach to instruction
- All classes are held in a central location with longer breaks between sessions
- Recruitment flyers (and website) are designed with working adults in mind
